NOTICE OF ANNUAL STOCKHOLDERS' MEETING

TO: ALL STOCKHOLDERS

NOTICE is hereby given that there will be an annual meeting of the stockholders of **PACIFIC ONLINE SYSTEMS CORPORATION** on May 28, 2021 (Friday), at 11:00 a.m. The meeting will be conducted virtually and registration and voting can be accessed at the link provided in the Company's website at <https://www.loto.com.ph/investor-relations/Annual-or-Special-Stockholders-Meeting/Virtual-ASM>

Items in the agenda of the meeting are as follows:

AGENDA

1. Call to Order
2. Proof of Notice of Meeting
3. Certification of Quorum
4. Approval of the Minutes of the Previous Annual Stockholders' Meeting
5. Approval of 2020 Operations and Results
6. Ratification of All Acts of the Board of Directors and Officers
7. Election of Directors
8. Appointment of External Auditors
9. Other Matters
10. Adjournment

The close of business on **April 30, 2021** has been fixed as the record date for the determination of the stockholders entitled to notice of and vote at said meeting and any adjournment thereof.

Due to the COVID-19 Pandemic and continuing government regulations limiting mobility and mass gatherings, the Company will not be conducting a physical annual stockholders' meeting. In lieu thereof, the annual stockholders' meeting will be held virtually through an online webinar platform for stockholders to attend by remote communication. They can join by registering online at asmregister.loto.com.ph on or before 5:00 p.m. on May 21, 2021. The identities of those registering to participate online will be going through a process of verification, after which an email from the Company will be sent to them giving instructions as to how they will be able to watch the livestream of the annual stockholders' meeting

The stockholders are likewise encouraged to participate in the meeting by either of the following:

- (i) by submitting duly accomplished proxies to the Office of the Corporate Secretary at 2704 East Tower, Philippine Stock Exchange Centre, Ortigas Center, Pasig City or via electronic copy by emailing corporatesecretary@pacificonline.com.ph on or before 5:00 p.m. on May 21, 2021.

For corporate stockholders, the proxies should be accompanied by a Secretary's Certification on the appointment of the corporation's authorized signatory.

- (ii) by registering your votes on the matters to be taken up during the meeting through the e-voting platform set up for the purpose which can be accessed at asmregister.loto.com.ph. The e-voting portal will be open until 9:00 in the morning of May 28, 2021.

Validation of proxies is set on May 24, 2021 at 2:00 p.m. The votes already cast using the e-voting platform by that time will also be verified on said date.

City of Pasig, Metro Manila, April 15, 2021.

JASON C. NALUPTA
Corporate Secretary

RATIONALE FOR AGENDA ITEMS

Agenda Item No. 4. Approval of the Minutes of the Previous Meeting of Stockholders held on June 22, 2020

Copies of the Minutes of the June 22, 2020 Annual Stockholders' Meeting is currently posted on the Corporation's website (please see link here: <https://loto.com.ph/sites/default/files/ASM%202020%20DRAFT%20MINUTES.pdf>) and can be viewed at any time. Stockholders will be asked to approve the Minutes of the 2020 Annual Stockholders' Meeting.

Agenda Item No. 5. Approval of 2020 Operations and Results

A report on the highlights of the financial performance of the Corporation for the year ended December 31, 2020 will be presented to the Stockholders. A summary of the Corporation's performance for the year is also provided in the "Management Discussion and Analysis of Operating Performance and Financial Condition" section on page 32 hereof.

The Corporation's Audited Financial Statements, for which the external auditors have issued an unqualified opinion, have likewise been reviewed by the Audit Committee and the Board of Directors. A summary of the 2019 AFS shall also be presented to the Stockholders.

Agenda Item No. 6. Ratification of all Acts of the Board of Directors and Management from the date of the last Annual Stockholders' Meeting to the date of this meeting

All actions, proceedings and contracts entered into, as well as resolutions made and adopted by the Board of Directors and of Management from the date of the Stockholders Meeting held on June 22, 2020 to the date of this meeting shall be presented for confirmation, approval, and ratification. The items covered with respect to the ratification of the acts of the Board of Directors and Officers for the past year up to the date of the meeting are those items entered into in the ordinary course of business.

Agenda Item No. 7. Election of Directors for 2021 to 2022

The current members of the Board of Directors, except Mr. Jerry C. Tiu and Mr. Joseph C. Tan, as reviewed, qualified and recommended by the Corporate Governance Committee, have been nominated for re-election. In keeping with good corporate governance recommendations on tenure of independent directors, Mr. Tiu will be replaced by Atty. Ma. Gracia Pulido Tan as candidate for election as independent member of the Board of Directors. The proven expertise and qualifications of the candidates, based on current regulatory standards and the Corporation's own criteria, will help sustain the Company's solid performance that will result to its stockholders' benefit. The profiles of the candidates for election as directors are available in the Company website, as well as in this Information Statement. If elected, they shall serve as Directors for a period of one (1) year from May 28, 2021 or until their successors shall have been duly elected and qualified.

Agenda Item No. 8. Appointment of External Auditors

Management will propose the appointment of the Corporation's External Auditor for 2021-2022. The Stockholders will also be requested to delegate to the Board the authority to approve the appropriate audit fee for 2021.

Stockholders are given the opportunity to raise questions regarding the operations and report of the Corporation as well as other concerns, by emailing corporatesecretary@pacificonline.com.ph (Subject: Questions for ASM 2021) on or before 9:00 am on May 28, 2021. Questions will be responded to during the question and answer portion of the annual stockholders' meeting before the end of the proceedings. Due to the limited time, however, not all questions may be responded to during the livestream of the annual stockholders' meeting. Questions not addressed at the meeting proper, including those that may be received after the livestream, will be responded to via email by the corporate officers concerned.

Item 2. Dissenters' Right of Appraisal

The matters to be voted upon in the Annual Stockholders' Meeting on **May 28, 2021** are not among the instances enumerated in Sections 41 and 80 of the Revised Corporation Code whereby the right of appraisal (defined as the right of any stockholder to dissent and demand payment of the fair value of his shares) may be exercised. The instances where the right of appraisal may be exercised are as follows:

1. In case any amendment to the Articles of Incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those outstanding shares of any class, or of extending or shortening the term of corporate existence;
2. In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the Company's property and assets;
3. In case the Company decides to invest its funds in another corporation or business outside of its primary purpose; and
4. In case of merger or consolidation.

In case the right of appraisal may be exercised, Section 81 of the Revised Corporation Code provides for the appropriate procedure, *viz*:

The appraisal right may be exercised by any stockholder who shall have voted against the proposed corporate action, by making a written demand on the corporation within thirty (30) days after the date on which the vote was taken for payment of the fair value of his shares; Provided, that the failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented or affected, the corporation shall pay to such stockholder, upon surrender of the certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation and the third by the two thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made; Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment; Provided further, that upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer his shares to the corporation.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

- (a) No person who has been a director or officer or any nominee for election as director of the Company or associate of such persons, have substantial interest, direct or indirect, in any matter to be acted upon, other than the election of directors for the year 2021-2022.
- (b) The Company is not aware of any director or security holder who intends to oppose any action to be taken by the Company during the stockholders' meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

- (a) As of March 31, 2021, the Company has **895,330,946** common shares outstanding and each share is entitled to one vote.
- (b) The record date with respect to the determination of the stockholders entitled to notice of and vote at the Annual Stockholders' Meeting is **April 30, 2021**.
- (c) With respect to the election of nine (9) directors, each stockholder may vote such number of shares for as many as Nine (9) persons he may choose to be elected from the list of nominees, or he may cumulate the said shares and give one candidate as many votes as the number of his shares multiplied by Nine (9) shall equal, or he may distribute them on the same principle among as many candidates as he shall see fit, provided that the total number of votes cast by him shall not exceed the number of shares owned by him multiplied by Nine (9).
- (d) Security ownership of certain record and beneficial owners and management.

(1) Security Ownership of Certain Record and Beneficial Owners

The following persons or group are known to the Company as direct owners of more than five percent (5%) of the Company's voting securities as of March 31, 2021:

Title of Class	Name and Address of Record Owner and Relationship with Issuer	Name of Beneficial Owner and Relationship with Record Owner	Citizenship	No. of Shares Held	Percent

⁽²⁾PCD Nominee Corporation ("PCDNC") is a wholly-owned subsidiary of Philippine Central Depository, Inc. ("PCD"). The beneficial owners of such shares registered under the name of PCDNC are PCD's participants who hold the shares in their own behalf or in behalf of their clients. The PCD is prohibited from voting these

shares; instead, the participants have the power to decide how the PCD shares in POSC are to be voted. The participants of PCD who own more than 5% of the Company's outstanding capital are:

- a. Eastern Securities Development Corporation; and
- b. Papa Securities Corporation

The shares held by Premium Leisure Corporation shall be voted or disposed of by the persons who shall be duly authorized the corporation. The natural person/s who has/have the power to vote on the shares of PLC shall be determined upon the submission of its proxy form to the Company, which shall be not later than six (6) business days before the date of the meeting.

The PCD Participants, like Eastern Securities and Development Corporation and Papa Securities Corporation, on the other hand, issue proxies in favor of the beneficial owners of the Company's shares recorded under their names. The identities of these beneficial owners, who will then exercise the right to vote the shares beneficially-owned by them, shall be known to the Company only when the proxies are submitted before the date of the meeting.

(2) Security Ownership of Directors and Management

The following table shows the shares beneficially owned by the directors and executive officers of the Company as of March 31, 2021:

Significant Employees

The Company is not dependent on the services of any particular employee. It does not have any special arrangements to ensure that any employee will remain with the Company and will not compete upon termination.

Stock Option Plan

The Company's Board of Directors approved the Company's Stock Option Plan ("SOP") on December 12, 2006. The SOP provides an incentive and mechanism to employees and officers to become stockholders of the Company, as well as to qualified directors, officers and employees, who are already stockholders, to increase their equity in the Company and thereby increase their concern for the Company's well-being. All such full-time and regular employees of the Company, its subsidiaries and affiliates, their officers and directors, and such other qualified persons who may be recommended from time to time by the Executive Committee or the Board to the Committee as qualified, are eligible to participate in the SOP. Shares of stock subject to the SOP amount to up to five per cent (5%) of the Company's total outstanding common stock.

The purchase price of the shares shall not in any case be less than the Fair Market Value of the Company's shares at the time of grant, and, in no case, be less than the Offer Price at which the Company's shares are

initially offered for sale to the public. Further, the purchase price shall be subject to adjustment for subsequent stock dividends or splits.

The shares covered by any one grant shall be offered for subscription over a period of Three (3) years from and after the effectivity date of each grant that may be determined by the Committee. The Participants may exercise their right to subscribe to shares under the SOP in accordance with the following schedule:

- 1/3 of total grant within One (1) year from the effectivity date of each grant
- 1/3 of total grant within Two (2) years from the effectivity date of each grant
- 1/3 of total grant within Three (3) years from the effectivity date of each grant

On February 15, 2008, SEC approved the Company's application requesting that its proposed issuance of 9,954,900 common shares be exempt from the registration requirements of the Securities Regulation Code.

On May 6, 2008, the BOD approved the allocation of 2,174,000 shares to its executives and employees and to the officers of Lucky Circle under the SOP which is exercisable over a period of three years from May 6, 2008 until May 6, 2011. The purchase price upon exercise of the option was fixed at ₱8.88 per share. At the grant date, the fair value of the Company's share amounted to P9.20 per share.

PACIFIC ONLINE SYSTEMS CORPORATION
BUSINESS AND GENERAL INFORMATION

BUSINESS

Pacific Online Systems Corporation (“Company”) was incorporated in the Philippines and was registered with the Philippine Securities and Exchange Commission (“SEC”) on November 11, 1993. The Company is primarily engaged in the development, design and management of online computer systems, terminals and software for the Philippine gaming industry. It sources technology from leading global suppliers of integrated gaming systems and leases equipment to the Philippine Charity Sweepstakes Office (PCSO) for its online lotto operations in the Visayas and Mindanao (VISMIND) regions under the terms of an Equipment Lease Agreement (ELA), which was initially entered into on November 25, 1995. It also provides the necessary technical support through a Maintenance Repair Agreement (MRA) that is co-terminus with the ELA. The Company’s ELA with the PCSO was amended in 2004, 2012, 2013, 2015, 2018, and 2019, principally to extend the term thereof, in response to PCSO’s requirements to ensure integrity, sustainability and efficiency in its online lotto operations. In 2019, the ELA was extended for another year and allowed the use of the Company’s terminals for PCSO’s lotto operations in Luzon. The latest amendment to the ELA was made wherein the ELA’s term was extended up to July 31, 2021. The equipment rental revenue earned by the Company with this ELA is based on a percentage of lotto sales generated by the Company’s terminals.

In 2004, the Company acquired 50% of Total Gaming Technologies Inc. (TGTI), which has its own ELA with the PCSO for the latter’s online keno operations nationwide. TGTI’s ELA with PCSO provides for a lease period of ten (10) years commencing on the date of actual commercial operations of at least 200 online keno agents. With October 2010 established as the start of commercial operations for online keno, TGTI’s ELA will expire on September 30, 2020. On September 30, 2020, TGTI’s ELA with PCSO was extended for 6 months until March 31, 2021 to recover losses during the suspension of sales due to the pandemic and the 2019 two-month suspension. TGTI’s equipment rental revenue is based on a percentage of keno ticket sales or a fixed annual rental of P40,000 per terminal, whichever is higher. By 2013, the Company already owns 98.92% of TGTI.

In 2009, the Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO, for a period of seven years to undertake the printing, distribution and sale of instant scratch tickets nationwide. The instant scratch ticket, branded as Scratchit™, provided a steady stream of revenues for PCSO and its agents. It also expanded the Company’s experience in the lottery business. On March 31, 2015 the Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEC) to be the exclusive marketing, distribution, selling and collecting agent of the Company for Scratchit™ tickets throughout the Philippines. The agreement took effect on April 1, 2015 and has ended on November 30, 2016.

On June 16, 2014, TGTI and the shareholders of Falcon Resources, Inc. (FRI) entered into a Memorandum of Understanding (MOU) for the former’s intention to acquire the latter’s interest in FRI representing 100% ownership. On December 11, 2014, the deed of sale for the transfer of shares of stocks was executed. FRI is a company engaged in consultancy services for TGTI and a sub-distributor of instant scratch tickets. FRI is a company incorporated in the Philippines.

In 2007, the Company set up Loto Pacific Leisure Corporation (LotoPac) primarily to acquire, establish, own, hold, lease, sell, conduct, operate, and manage amusement, recreational and gaming equipment facilities, and enterprise of every kind and nature, as well as places for exhibitions, recreation, gaming, amusement and leisure of the general public, and to acquire, hold and operate any and all privileges, rights, franchises and concessions as may be proper, necessary, advantageous, or convenient in the conduct of its business. LotoPac subsequently acquired Lucky Circle Corporation (LCC) in August 2007. LCC is an authorized PCSO agent operating online betting stations that sell sweepstakes, lotto, keno and instant tickets in outlets located in major shopping malls like SM Supermall, Robinsons, and Gaisano nationwide. LCC earns a certain percentage of the sales of lotto, keno, sweepstakes and instant scratch as tickets as commission income. In 2010, the Company subscribed to additional 124 million shares of LCC, after the SEC’s approval of the increase in the latter’s authorized capital stock, which increased the Company’s interest in LCC to 97.64%.

On July 1, 2017, LCC and the stockholders of the following entities entered into a Deed of Sale Agreement for the transfer of shares of stock representing 100% ownership.

- a) Athena Ventures, Inc.
- b) Avery Integrated Hub Inc.
- c) Circle 8 Gaming Ventures Inc.
- d) Lucky Deal Leisure Inc.
- e) Lucky Fortune Business Ventures Inc.
- f) Lucky Pick Leisure Club Corp.
- g) Lucky Ventures Leisure Corp.
- h) Lucky Games Entertainment Ventures Inc.
- i) Orbis Valley Corporation

These entities are engaged in the trading and selling of goods such as lotto, keno, sweepstakes and scratch tickets, on retail basis. The acquisition is in line with the Company's business strategy of expanding its market reach nationwide. On February 13, 2020, the Company and LotoPac sold 100% of LCC in light of the need for the Company to focus on its core business.

As of December 31, 2020, the Company's subsidiaries with its corresponding percentage of its ownership are summarized below:

	Percentage of Ownership	
	Direct	Indirect
Loto Pacific Leisure Corporation ("LotoPac")	100.00	-
Total Gaming Technologies, Inc. ("TGTI")	98.92	-
Falcon Resources, Inc. ("FRI")**		100.00
TGTI Services, Inc. (TGTISI)**		100.00

** Indirectly owned through TGTI

For the year ended December 31, 2020, the Company together with its subsidiaries ("Group") generated P298.53 million gross revenues, primarily through lottery equipment rentals billed to PCSO, and posted a P381.39 million net loss. As of December 31, 2020, the Group had total assets of P1.1 billion and shareholders' equity of P863.14 million.

Background on the TGTI Investment

On April 13, 2004, the Company purchased 50% of the outstanding capital stock of Innovative Solutions Consultancy Group, Corp. (Innovative), which is a joint stock company incorporated to manage enterprises engaged in the gaming business. On May 31, 2004, Innovative, in turn, acquired 80% of the outstanding capital stock of Total Gaming Technologies, Inc. (TGTI), a domestic corporation founded in October 2002 to develop new games for the Philippine gaming industry and to provide consultancy service and state-of-the-art equipment to the local gaming operators through its strategic partnership with Intralot. TGTI has entered into an Equipment Lease Agreement (ELA) with the PCSO for the nationwide operation of the Online Keno (initially referred to as Fast Keno) game. A Shareholders' Agreement was executed whereby Innovative shall provide management counsel and expertise to TGTI to ensure proper execution of the Online Keno game, among others. In April 2008, the Company acquired from Intralot additional 574,885 shares of Innovative for a contract price of P4.3 million. This increased the Company's interest in Innovative from 50% in 2007 to 87.38% in 2008. In August 2010, the minority shareholders of TGTI and Innovative entered into a contract wherein the minority shareholders sold all of their 2,650,000 common stock to the Company, part of the consideration of which is that the Company, as controlling shareholder of TGTI, will cause the creation of preferred stock, of which 3,312,500 preferred shares will be issued to the minority shareholders of TGTI. The total preferred stock of 3,312,500 has been fully subscribed, and of the said subscription, the amount of P331,250 has been paid. Preferred stock will have a par value of P1.00 per share, non-voting and will have preference in the distribution of assets in the event of dissolution. On December 20, 2012, the majority of TGTI's stockholders and its Board of Directors (BOD) approved the Company's application for increase in its authorized capital stock with the SEC from Fifty Million Pesos (P50,000,000.00) divided into Forty Million (40,000,000) common shares and Ten Million (10,000,000) preferred shares, both having a par value of One Peso (P1.00) per share, to Seven Hundred Million Pesos (P700,000,000.00), divided into Six Hundred Ninety Million (690,000,000)

common shares and Ten Million (10,000,000) preferred shares, both having a par value of One Peso (P 1.00) per share. On December 20, 2012, the Company's BOD approved the conversion of a major portion of its outstanding advances to TGTI to the latter's equity. TGTI on the other hand will convert a major portion of its outstanding obligation to the Company from liabilities to equity under "Deposit for future stock subscription" account once its application to increase in authorized capital stock is filed with the SEC. On April 8, 2013, SEC approved the request for an increase in authorized capital stock of TGTI. As a result of the conversion of the advances to TGTI and the assignment of Innovative's TGTI shares, the Company owns 173.1 million shares of TGTI, which increased the Company's interest in TGTI to 98.92%

Recent Developments

On February 5, 2021, PCSO published its bid documents for the Five-Year Lease of the PCSO National Lottery System (PLS). PCSO indicated March 29, 2021 as the bid submission and opening date for the PLS. The Company is participating in the bidding.

In December 2020, the Company passed its yearly surveillance audit for ISO 2700:2013 and ISO 9001:2015 conducted by Societe Generale de Surveillance (SGS), the world's leading inspection, verification, testing and certification company. On November 16, 2015, the Company obtained an ISO accreditation through SGS for ISO 9001:2008 Quality Management Systems and ISO/IEC 27001:2013 Information Security Management. In 2018, the certification for ISO 9001:2008 was updated to the 2015 version.

On September 30, 2020, TGTI's ELA with PCSO was extended for 6 months until March 31, 2021 to recover losses during the suspension of sales due to the pandemic and the 2019 two-month suspension. PCSO also approved the change of draw frequency from every 10 minutes to every 5 minutes and implemented it on November 6, 2020. The official document extending the current ELA for another year is expected to be issued by PCSO on March 31, 2021, at the earliest.

On March 17, 2020, selling of PCSO games; i.e. lotto, keno, instant scratch tickets and Small-Town Lottery (STL), was suspended due to the COVID-19 pandemic. Keno sales resumed on July 28, 2020. Sales of lotto jackpot games resumed on August 7, 2020, while 2D and 3D lotto games followed on August 24. 4D and 6D digit sales resumed on January 7 and 8, 2021, respectively.

Agreements with the Philippine Charity Sweepstakes Office (PCSO)

PCSO is the principal government agency for "raising and providing funds for health programs, medical assistance and services, and charities of national character" by means of holding and conducting charity sweepstakes, races, and lotteries. It also engages in health and welfare-related investments, projects, and activities to provide for permanent and continuing sources of funds for its programs.

Pacific Online's Agreements

The Equipment Lease Agreement (ELA) was awarded to Pacific Online on November 25, 1995 whereby the PCSO leases online lottery equipment from the Company for its VISMIN lotto operations.

2004 ELA. The initial ELA as amended on February 13, 2004, allows the Company to continue to deploy online lotto terminals in its covered regions. General terms of the amended ELA and MRA stipulate a certain percent share by the Company of all PCSO sales from the conduct of online lotto games in the VISMIN area and a term of eight (8) years commencing from the date of commercial operations of the Company. Commercial operation, as amended, was defined to be the operation of not less than 800 lotto terminals. However, commercial operation was formally effected on April 1, 2005, setting the term of the Company's ELA up to 2013, even if the PCSO had actually begun operations of the Company's online lotto terminals since 1996. The delay in the deployment of the required number of terminals to constitute commercial operation was mainly due to strong opposition from religious sector leaders and certain Local Government Unit (LGU) officials during the introductory phase and due to the absence of telecommunications service in many areas in VISMIN. Thus, this ELA covers the lease of not less than 800 lotto terminals, central computer system, communications and draw equipment, and the right to use the application software and manuals for the central computer system of PCSO for its VISMIN operations for a period of eight years from April 1, 2005 to March 31, 2013.

2012 Amended ELA. On May 22, 2012, the Company and PCSO amended certain provisions of the ELA to lower rental fee on the lotto terminals for VISMIN operations and for the lease of lotto terminals for Luzon operations effective June 1, 2012. The ELA provides PCSO an option to purchase the equipment related to its VISMIN operations at the end of the lease period for a sum of P15.0 million. Lotto terminals for PCSO's Luzon operations are not included in the "Option to Purchase" provision of the amended ELA. In accordance with the terms of the ELA, the Company also provides maintenance and repair services fee which were incorporated in the rental fee as part of the lowered rental rate provision of the amended ELA.

2013 Supplemental ELA. On March 26, 2013, the Company and PCSO further amended some provisions of the ELA, which extended it from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment, the Company agreed to reduce the rental fees for VISMIN and with the approval to service PCSO's Luzon lotto operations. The amendment also incorporated the fee for the supply of bet slips and ticket paper rolls for the PCSO's VISMIN and Luzon operations as part of the rental fee.

2015 Supplemental ELA. On July 15, 2015, the Company and PCSO further amended some provisions of the ELA, which extended it from August 1, 2015 to July 31, 2018. The amendment also required the Company to deposit an additional P5 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on percentage of gross sales of lotto tickets from PCSO's VISMIN and Luzon operations or a fixed annual rental of P35,000 per terminal, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application software, the central computer system, terminals and draw equipment, and maintenance and repair services.

2018 Supplemental ELA. On September 12, 2018, the ELA was further amended to extend the term from July 31, 2018 to August 1, 2019 at a reduced rate. The amendment also required the Company to increase its initial cash bond from P5 million to P12 million, to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

2019 Supplemental ELA. On August 1, 2019, the ELA was amended to extend the term from August 1, 2019 to July 31, 2020.

2020 Supplemental ELA. On July 30, 2020, the ELA was amended to extend the term on a month-to-month basis from August 1, 2020 to July 31, 2021.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on percentage of gross sales of lotto tickets from PCSO's VISMIN and Luzon operations or a fixed annual rental of P35,000 per terminal, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application software, the central computer system, terminals and draw equipment, and maintenance and repair services.

Instant Scratch Tickets. On March 25, 2009, the Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of instant scratch tickets effective December 1, 2009. The share of PCSO is guaranteed for every 500 million tickets sold for a period of seven years from the date of the MOA's effectivity. The MOA required a P10 million cash bond to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. Said cash bond is in an escrow account with BDO since January 2010 and was authorized by PCSO for release in November 2018.

On March 31, 2015 the Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEC) to be the exclusive marketing, distribution, selling and collecting agent of the Company for its instant scratch tickets throughout the Philippines. The agreement took effect on April 1, 2015 and has ended on November 30, 2016.

In January 2018, the Company entered into a Brand and Trademark License Agreement with Powerball Marketing & Logistics Corp. (PMLC) granting the latter a non-assignable, non-transferable and exclusive right to use of the Parent Company's instant scratch tickets' Brands and Trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with the term of the PMLC's agreement with PCSO for the supply and distribution of its instant scratch tickets. The consideration is a guaranteed fixed monthly fee. PMLC is not restricted to develop its own brand.

TGTI's Equipment Lease Agreement

2004 ELA. TGTI entered into an ELA with PCSO on April 6, 2004, which provides for the lease of the equipment for PCSO's online keno games. The lease is for a period of ten (10) years commencing on the date of actual commercial operation of at least 200 online keno outlets. The rental fee is based on a percentage of the gross sales of the online keno terminals or a fixed annual rental of P40,000 per terminal in commercial operation, whichever is higher.

2008 Amended ELA. On July 15, 2008, TGTI and PCSO agreed on some amendments to the ELA. Under the terms of the Amended ELA, TGTI shall provide the services of telecommunications integrator and procure supplies for the online keno operations of PCSO in Luzon and VISMIN areas. In consideration for such services, PCSO shall pay additional fee based on a certain percentage of the gross sales from all online keno terminals in operation in Luzon and VISMIN areas computed by PCSO and payable bi-weekly. Commercial operations for online keno commenced on October 1, 2010 and ELA term ends on September 30, 2020.

2019 Supplemental ELA. On October 1, 2019, the ELA was amended to a lower lease rate, inclusive of VAT. The minimum price per Keno bet was reduced from Twelve Pesos (P12.00) to Ten Pesos (P10.00), inclusive of DST.

On July 27, 2019, the President of the Philippines, suspended the sale of PCSO games - lotto, keno instant scratch tickets and small-town lottery (STL). The suspension was eventually lifted on July 31, 2019 for lotto, August 24, 2019 for STL and September 27, 2019 for keno and scratch tickets.

2020 Supplemental ELA. On December 11, 2020, the ELA was again amended to extend the term for six (6) months, effective October 1, 2020 to March 31, 2021. The amendment also required TGTI to post a cash bond and performance security bond with the aggregate amount of P2.5 million. .

LCC Agency Agreement

LCC enters into a two-year agency agreement with PCSO for every retail outlet it opens to operate. Agency agreements for lotto and keno terminals are executed separately at different times. These agreements are renewed by PCSO pending payment of the required surety bond and compliance with the terms and conditions of the Agency Agreement. The same type of agency agreement with PCSO is entered into by the 9 companies that LCC acquired in 2017.

Government Regulation and Environmental Compliance

The Company does not need any government approval for its principal products or services since its business is in the development, design and management of online computer systems, terminals and software for the PCSO and not in the operation of the lottery business.

The Company has been fully compliant with environmental regulations and ordinances issued by the concerned Local Government Units (LGU) and by the Department of Natural Resources (DENR) in so far as disposal of used computer hardware, office equipment and other bulky operating supplies are concerned, pursuant to the Republic Act 9003: Ecological Solid Waste Management Act of 2000.

Technology Development, Supply and Service Contracts

From 1996 to 2005, the Company had provided the PCSO a single integrated system for its online lottery operations using the GTECH Legacy system. In 2005, the Company decided to contract Scientific Games to provide its new AEGIS™ system, after having assessed the obsolescence of GTECH's lottery system infrastructure. On November 21, 2005, the Company implemented the migration from the Legacy lottery system into the new AEGIS™ System. In 2006, the Company entered into another contract with Intralot, for the provision of another new system using the LOTOS® application software. Since December 2006, therefore, the Company has been providing the PCSO a two-network system for its VISMIN online lotto operations.

Having two (2) online lottery systems running in parallel has expanded the availability of lottery terminals nationwide and provides a safety net for PCSO's operations. The new technology also helps provide versatility in connectivity given the country's hybrid telecommunications network. These systems are capable of operating nationwide through GPRS, LTE, VSAT and DSL technology which offer diversity in providing options

to sites unserviceable by specific telecommunication providers. Terminal connectivity is now a lot easier due to compatibility of the lottery terminals with widespread mobile phone cell sites in VISMIN. Online connectivity in VISMIN is now available wherever there is a cell site of Globe and Smart Telecoms, as well as VSAT providers for sites unreachable by Globe and Smart.

Scientific Games

Scientific Games (SG) is a top provider in the global lottery and regulated gaming industries. It has over 40 years of gaming and lottery experience in over six continents. On February 15, 2005, the Company, entered into a Supply and Service Contract with SG for the provision of a new system, AEGIS™. On November 20, 2005, the Company migrated into the new AEGIS™ System. Under the terms of the Contract, Scientific Games will provide the Company with Extrema® terminals as well as the required training necessary for its operation. In consideration of the foregoing, The Company shall pay Scientific Games a pre-agreed rate of its revenue from the conduct of online lottery games running under the system provided by Scientific Games. This Contract was amended in 2012 to extend the period to August 31, 2015 and provide for its supply of additional lotto terminals. The Company's agreement with SGI is now co-terminus with the Company's ELA with PCSO.

SG was also contracted by the Company to print the instant scratch tickets under its MOA with PCSO for its nationwide instant ticket program from 2009 thru 2016.

Intralot

Intralot S.A. (Intralot) is a company incorporated under the laws of Greece and is one of the top gaming systems provider globally and operator in over 55 jurisdictions. On March 13, 2006, the Company entered into a contract with Intralot for the supply of equipment necessary for the operation of a new online lotto system effective December 8, 2006. Under the terms of the contract, Intralot will provide the Company with the computer hardware, the license to use Intralot's Lottery Application Software consisting of the software platform, LOTOS® Application Software, and the Games Application Software, the terminals as well as the required training necessary to operate the system. Based on the amended contract signed on July 7, 2006, Intralot will provide the Company with Coronis HEE terminals. In consideration of the foregoing, the Company shall pay Intralot a pre-agreed rate of the revenue generated by the terminals from the conduct of online lotto and digit games running on its system or a fixed fee per terminal per month, whichever is higher. In April 2016, the Company and Intralot agreed to amend the contract for the latter to supply additional lotto terminals to the former and extend the term of the contract until August 31, 2018. In September 2018, the contract with Intralot was again amended to extend the term until August 31, 2019. The Company's agreement with SGI is now co-terminus with the Company's ELA with PCSO.

On July 10, 2006, Intralot entered into an agreement with its subsidiary, Intralot Inc., a company domiciled in Atlanta, Georgia, through which Intralot assigned whole of the contract, including all its rights and obligations arising from its said subsidiary. This contract is co-terminus with the Company's ELA with the PCSO

Intralot is also the systems and equipment provider for TGTI, the Company's subsidiary that has the ELA with PCSO for its online keno operations. On April 1, 2004, TGTI entered into a contract with Intralot for the supply of the system and equipment for PCSO's online keno lottery operations. Intralot shall be paid based on a pre-agreed percentage of revenues generated by the keno terminals. In 2008, the contract was amended to change the calculation of amounts due Intralot to be based on a percentage of gross receipts of PCSO from its online keno games. On March 22, 2011, the contract was further amended for Intralot to supply additional keno terminals to TGTI through year 2020 and reduce the percentage charged to TGTI or a fixed fee per terminal per month, on an average basis, whichever is higher.

The Philippine Lottery Sector

The Philippine lottery sector is regulated by the PCSO, a government-owned and controlled corporation that was created primarily to raise funds for health and charity programs of the government. It regulates the lottery and other games of chance in order to protect certain sectors of society, especially the youth. It is estimated that the gaming market in the Philippines is worth over P100 billion per year, and illegal gaming accounts for half of the country's gaming industry revenues.

For over 60 years, since the inception of PCSO, the traditional Sweepstakes had been the lone source of funds for the PCSO. This changed in 1995, when PCSO launched the very first online lotto in the Philippines. This innovation brought in a new dimension of fun and excitement for the betting public.

Although there are many types of lottery games worldwide, the Philippine government-authorized lotteries can generally be categorized into these groups: traditional sweepstakes, instant scratch tickets, online lotto, online keno (Lotto Express) and Small-Town Lottery (STL). The Company has partnered with PCSO in all its lottery products except for STL.

The PCSO online lotto games are basically two (2) types; i.e., jackpot draw and digit games. The winning numbers for jackpot draw and digit games are determined by a draw machine. For these lotto games, players purchase tickets from PCSO authorized retail outlets and wait for the future drawing of prizes. The jackpot draw games have three draws a week, while digit games have three draws daily. Draw lotto jackpot prizes are generally pari-mutuel or based on the number of winners and amount of total sales generated per game at the time of draw. Lotto digit games and keno prizes are based on a fixed odds payout structure, which does not rely on the number of players and winners per draw. For online keno, winning numbers are drawn via a Random Number Generator (RNG) program and has draws every ten (10) minutes on a daily basis. Keno draw frequency has been changed to five (5) minutes daily on November 6, 2020.

Currently, the PCSO online lotto portfolio consists of five (5) jackpot draw games and four (4) digit games. The jackpot draw games are: 6/42 Lotto, 6/45 Mega Lotto, 6/49 Super Lotto, 6/55 Grand Lotto and 6/58 Ultra Lotto; while the digit games are: 2D, 3D, 4D and 6D. All of the nine (9) lotto games operated by the PCSO are played nationwide. Modifications and enhancements of existing games and/or the introduction of new games are directed by the PCSO.

Instant scratch tickets, on the other hand, are typically played by scratching off the surface of a latex coated ticket to reveal a specific pattern of numbers, characters, pictures, or symbols that correspond to a prize amount if ticket is a winner. The player will know immediately if the ticket wins a prize or not. Instant scratch tickets like the Traditional Sweepstakes have a fixed-odds prize structure.

The Group's Online Lottery Operations and Products

As of December 31, 2020, the Company together with its subsidiary TGTI, had over 3,650 lottery terminals installed nationwide. All online lottery terminals located in PCSO authorized retail outlets are continuously connected to PCSO's central computer system that enables real time recording and monitoring of lottery sales, and validation of winning tickets.

Aside from the number of lottery terminals deployed, total PCSO online lottery sales depend highly on the average sales generated by the various online lottery games launched. The table below shows the minimum jackpot amounts and the draw frequencies of the different lotto games supported by the Company.

<u>Lotto Game</u>	<u>Minimum Jackpot</u>	<u>Draw Frequency</u>
6/42 Lotto	P 6,000,000	3x a week - Mondays, Wednesdays & Saturdays
6/45 Mega Lotto ...	P 9,000,000	3x a week - Mondays, Wednesdays & Fridays
6/49 Super Lotto ...	P 16,000,000	3x a week - Tuesdays, Thursdays & Sundays
6/55 Grand Lotto...	P 30,000,000	3x a week - Mondays, Wednesdays & Saturdays
6/58 Ultra Lotto.....	P 50,000,000	3x a week - Tuesdays, Fridays & Sundays
6D Lotto.....	P 150,000	3x a week - Tuesdays, Thursdays & Saturdays
4D Lotto.....	P 10,000	3x a week - Mondays, Wednesdays & Fridays
3D Lotto	P 4,500	Thrice daily
2D Lotto	P 4,000	Thrice daily

Due to the suspension of lottery operations of over four (4) months due to the COVID19 pandemic, the Company did not spend on development activities in 2020. Company resources were instead utilized to ensure the continuous operations of the lottery system hardware and compliance with health and safety protocols of PCSO and the concerned LGUs. However, investment in development activities was 20% and 2% in 2019 and 2018, respectively.

Market Profile

Approximately 76% of PCSO's lotto sales nationwide was generated by Luzon operations, and about 24% of sales is contributed by the VISMIN regions for the year ended 2020. This may be due to Luzon's higher population density, and higher average disposable income of residents. On the other hand, the VISMIN area faces some challenges due to its geography, more frequent power failures and intermittent telco connectivity.

It is noted that while in Luzon, the jackpot games account for 69% of total lottery sales, the VisMin area shows that it is digit games that dominates the sales of the region, accounting for 77% of total lottery sales.

As of the end of 2020, the Company's total terminal deployment in VISMIN territory covered 69 cities out of 72 total cities and 539 municipalities out of total 791. In Luzon, the Company's lotto terminal deployment, covered 52 cities and 79 municipalities. The Company covers 100% of the VISMIN sales and only 7% in Luzon due to its restricted entry since 2012 up to 2019.

Competition

The Company expects the aggressive push for Small Town Lottery (STL) and the prevalence of illegal gambling particularly in interior towns and remote areas to continue to provide competition to its online lotto revenues. This mostly affects the VisMin region due to the popularity of the digit games, which are very similar to STL games. With the removal of the legal impediment for the Company to provide lotto equipment in Luzon, the Company expects to expand its operations in Luzon, where the additional revenues can offset the lost sales in VisMin due to STL.

Organization and Manpower

As of December 31, 2020, the Group had a total of 244 employees, of which, 174 belong to Operations and 70 were administrative and other support personnel. None of the employees of the Company have organized themselves into any labor union. The Company also provides its employees additional benefits such as health care, life and accident insurance, retirement plan, training and development programs, and wellness programs, among others.

The Company believes that it has maintained balanced relationships with the rank and file and does not anticipate any labor-management issues to arise in the near term. The Company believes that its relationships with its employees have been consistently good and productive.

Risks

Some of the risks that the Company and its subsidiaries may be exposed to are the following:

1. General Risks

Changes in the government and PCSO administration may result to changes in policies and the way that such policies are implemented, which may be favorable or unfavorable to the Company. New legislation rules regarding taxes on lottery products have an impact in sales as well.

Environmental and natural disasters can also affect the operations in a particular area.

2. Risks Relating to the Equipment Lease Agreement (ELA) with PCSO

The Company's ELA with PCSO is currently on a month-to-month basis since August 2020 following the failed bidding in 2019 of its national online lottery system (NOLS). With the PCSO bidding for its nationwide lottery system known as PCSO Lottery System (PLS) being held on March 29, 2021, the

Company is well positioned to be a front runner in said bidding due to its credentials and track record. It is most likely that the Company's contract with PCSO will be extended for, at least, a year due to the transition period required for a new system to be implemented, if any.

3. Risks Relating to the Company and its Subsidiaries

a. Dependence on Suppliers

The Company's lottery operations is anchored on a two-system network. The Company has existing contracts, each distinct and entered into separately, with two global leaders in the lottery industry, namely Scientific Games and Intralot, for the supply of computer supported lottery gaming systems.

In the event that the contracts, whether collectively or individually, are terminated or suspended, operations and business of the Company may be impaired.

b. Business Interruption Risk

The operations of the Company and its subsidiaries are dependent on the reliability of its central computer system and the communications infrastructure needed to run it. Any breakdown or failure in the system provided by its suppliers, or failure in the communication infrastructure may negatively affect the Company's financial performance. However, this risk of business interruption is unlikely to happen due to the redundancy offered by the two suppliers. The communications infrastructure is being provided mainly by the two biggest telco providers in the country, namely: PLDT/Smart and Globe. The Company also contracted VSAT to provide connectivity to sites where Smart and Globe are not available.

PROPERTIES

The Company's online lottery operations are conducted mainly in Cebu, where its central system data center and logistics center are located. It also has set up 7 logistics hubs in 7 major VisMin cities to ensure efficient service delivery to the PCSO lottery agents. The Company Head Office is located in Pasig City.

There are no real properties owned and there are no plans to acquire them in the next twelve (12) months. The Company, together with its subsidiaries, lease all of its data center, logistics centers and hubs, and business offices. These properties are not mortgaged nor are there any liens and encumbrances that limit ownership or usage of the same.

The leased properties for business offices, data center and logistics facilities, reached about 4,153 sqm by year end 2020. About 51% of these properties are located in Luzon, and 49% in VisMin. Majority of the properties in Luzon are found in Metro Manila while those in VisMin are in Cebu. The logistics centers' areas are about 2,857 sqm in total, with 1,479 sqm in Cebu and 1,378 sqm in Metro Manila. Lease terms for most office and warehouse spaces range from two (2) to three (3) years. All lease agreements have provisions for renewal subject to terms and conditions mutually agreed upon by all parties concerned. The lease agreements provide for minimum rental commitment with annual rental escalation rates ranging from 3% to 10%. Three (3) office leases located in Metro Manila were terminated in 2020.

The Company's major assets are lottery equipment, which consists mainly of lottery terminals, data center equipment, software and operating systems.

LEGAL PROCEEDINGS

**“TMA Australia Pty. Ltd. And TMA Group Philippines, Inc. v. Pacific Online.”
RTC 66, Pasig City-Civil Case No. R-PSG-17-02130 [321-108]**

This refers to a complaint for Tortious Interference and payment of Damages filed by TMA Australia Pty. Ltd. and TMA Philippines (the “TMA Group”) against Pacific Online in August 2017. The TMA Group alleged that Pacific Online wrongfully interfered with the implementation of the Contractual Joint Venture Agreement (CJVA) between the TMA Group and PCSO when it entered into several equipment lease agreements with the latter that included a supply of paper provision. The TMA Group also applied for a writ of preliminary

injunction (WPI) against Pacific Online and prayed for damages in the amount of at least One Million Pesos (P1,000,000.00).

On 21 March 2018, the RTC granted the TMA Group's application for WPI, enjoining Pacific Online from continuing to deliver lotto paper to PCSO. During the pendency of this case, the Supreme Court issued a decision in *Philippine Charity Sweepstakes Office v. TMA Group of Companies* (G.R. Nos. 212143, 225457, and 236888, 28 August 2019), stating that the WPI issued by RTC Makati against PCSO directing it to source its paper from TMA was improperly issued, and that the CJVA – the same CJVA in this case before RTC Pasig – could not have been a valid source of rights against PCSO. TMA filed a Motion for Reconsideration, but this was denied by the Supreme Court in a Resolution dated 04 March 2020. Pacific Online then filed a Manifestation and a Supplemental Manifestation asking for the dismissal of the tortious interference case by the TMA Group.

On 08 February 2021, the court dismissed the case against Pacific Online.

DISAGREEMENT WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

There have been no disagreements with any accountant on any matter of accounting principles or practices, financial statement disclosures or auditing scope of procedure. During the two (2) most recent fiscal years or any subsequent interim period, no principal accountant or independent accountants of the registrant has resigned, was dismissed, or has ceased to perform services.

MANAGEMENT DISCUSSION AND ANALYSIS OF OPERATING PERFORMANCE AND FINANCIAL CONDITION

RESULTS OF OPERATIONS AND FINANCIAL CONDITION

2020 Compared to 2019

The Group generated total revenues from operating sources of about P298.53 million for the year ended December 31, 2020, a decrease of P408.42 million (58%) over total revenues of P706.95 million during the same period in 2019. The decrease in revenue was due to the lower lotto and keno sales, which were hampered severely by the closure of all lotto games due to the COVID-19 pandemic and subsequent community quarantine restrictions, which kept lotto games suspended from March to August 2020. Even when lotto and keno games were allowed to open again, many operators kept their business shut for many reasons, including safety reasons or the lower traffic due to quarantine mobility restrictions. Furthermore, Keno's payouts were once again reduced upon resumption of operations, leading to a slow pick-up of sales. In an attempt to improve sales of keno, the PCSO approved the implementation of the 5- minute draws in November 2020.

The Group's total operating expenses, including depreciation and amortization, for the year ended December 31, 2020 decreased by P161.06 million (17%) to P793.63 million, from P954.68 in 2019. The decrease is attributed to the following:

- Personnel costs decreased by P33.28 million (20%) due to implementation of no work no pay policy from May to October 2020, reduced spending on staff welfare activities and attrition of employees.
- Travel and accommodation expense decreased by P46.17 million (62%) brought about by the restricted business trips due to the COVID 19 pandemic, which started in March 2020;
- Rent and utilities expense decreased by P9.80 million (25%) due to termination of three (3) office leases, closed offices during the ECQ period and implementation of skeletal force on-site after the ECQ;
- Communication expense decreased by P34.32 million (30%) due to the rebates given by Telco providers when lottery operations were suspended;
- Repairs and maintenance decreased by P79.44 million (77%) since repairs and maintenance work on terminals and facilities were not possible during the lottery suspension period;

- Advertising and promotion expense decreased by P38.42 million (81%) since all marketing activities were also suspended during the lottery suspension period;
-
- Taxes and licenses expense decreased by P22.90 million (69%) and software license fees decreased by P95.75 million (70%) due to lower lottery sales;
- Professional fees expense decreased by P6.33 million (52%), due to reduction in consultancy fees brought about by the lottery suspension period; and
- Operating supplies expense decreased by P37.49 million (78%) due to lower consumption of paper resulting from lower lottery sales.

The decreases accounted for in the foregoing expense accounts were offset mainly by the combined increases of the following expense accounts:

- Depreciation and amortization expense increased by P72.14 million (45%) mainly due to the amortization of prepaid software development cost;
- Provision for impairment losses increased by P182.0 million (8475%) due to provision for probable losses on non-trade receivables, operating supplies that may not be compatible with the systems upgrade with the renewal of TGTI ELA, and the pre termination of leases as part of the Group's cost cutting measures;
- Other expenses increased by P5.6 million (1585%) due to the additional spending incurred in complying with health and safety protocols of PCSO and concerned LGUs pertaining to the COVID 19 pandemic.

The net income (loss) from discontinued operation represents the operating results of LCC, which was sold to a third party on February 13, 2020. The P39.83 million net income for 2020 covers the LCC's operating results from January 1 to February 13, 2020 net of the computed gain from sale of the LCC shares. The P120.74 million net loss for 2019 covers a period of twelve (12) months, from January 1 to December 31, 2019.

The Group's net loss after tax of P381.39 million represents a P60.4 million (18.8%) increase from last year's net loss of P320.97 million. The higher net loss in 2020 was a result of over four (4) months suspension of all lottery games, the slow pace of sales recovery, and delayed reopening of the country's economy.

Total assets of the Company decreased by P609.43 million (36%) to P1.10 billion as of December 31, 2020, from P1.71 billion as of December 31, 2019. Decreases in assets are attributable to the following:

- Cash decreased by P175.20 million (52%) mainly due to lower revenues in 2020 and full payment of bank loan;
- Marketable securities decreased by P56.20 million (40%) due to unrealized mark-to-market loss of shares held and sale of LRWC preferred shares in February;
- Trade and other receivables-net decreased by P40.13 million (23%) due mainly to the lower lottery revenues and impairment of receivables from PLMC covering the quarantine period;
- Other current assets decreased by P49.53 million (23%) mainly due to the sale of LCC;
- Investment in stocks went down by P65.81 million (19%) due to lower stock market prices of investments on hand during 2020 versus 2019;
- Right of use asset decreased by P40.18 million (80%) due to the sale of LCC and provision for impairment loss of some ROU asset;
- Property and equipment decreased by P23.92 million (22%) due to depreciation of assets and sale of LCC;
- Other noncurrent assets decreased by P188.38 million (65%) due to the amortization of prepayments of technical and advisory services pertaining to software development;

The decreases in the assets above were offset by the increase in deferred tax assets of P29.91 million (57%) due to additional deferred tax provision resulting from NOLCO;

Total liabilities of P240.26 million was down by P159.15 million (40%) over last year's P399.41 million due principally to the following:

- Loan payable decreased by 100% due to the full payment of P150 million loan from Asia United Bank;
- Withholding taxes payable decreased by P1.48 million (43%) due to sale of LCC and lower withholding taxes resulting from lower operating expenses;
- Income tax payable decreased by P4.27 million (100%) due to payment of 2019 taxes by FRI;
- Lease liabilities decreased by P56.00 million (83%), due to sale of LCC and payment of leases.

The decreases in the liabilities were offset by the following increases:

- Trade and other current liabilities increased by P33.99 million (24%) due to accounts payable for spare parts and terminals purchased and delayed receipt of billings from Intralot and telco suppliers;
- Defined benefit liability increased by P18.60 million (62%) due to additional retirement expense recognized during the year.

As of December 31, 2020, the Company has:

- a) No known trends or any demands, commitments, or events (other than those discussed in the Risk section above) that will result in or that are likely to result in the liquidity increasing or decreasing in any material way;
- b) No events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation;
- c) No material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships with unconsolidated entities or other persons created during the reporting period; and
- d) Not breached any loans, leases or other indebtedness or financing agreement.

Key Performance Indicators

The Company monitors its performance and benchmarks itself to prior year's results in terms of the following indicators:

	As of	
	Dec. 31, 2020	Dec. 31, 2019
Current Ratio	2.92:1.00	2.40 : 1.00
Debt-to-Equity Ratio	0.28:1.00	0.30 : 1.00
Asset-to-Equity Ratio	1.28:1.00	1.30 : 1.00

	For the year ended	
	Dec. 31, 2020	Dec. 31, 2019
Return on Equity	-49.54%	-24.44%
Return on Assets	-38.75%	-18.74%
Interest Coverage Ratio	(74.86):1.00	(86.35) : 1.00
Solvency Ratio	(0.78):1.00	(0.39) : 1.00
Book Value per Share	1.02	2.15

The above performance indicators are calculated as follows:

Current Ratio	$\frac{\text{Current Assets}}{\text{Current Liabilities}}$
Debt to Equity Ratio	$\frac{\text{Total Liabilities}}{\text{Total Equity}}$
Asset-to-equity Ratio	$\frac{\text{Total Assets}}{\text{Total Equity}}$
Return on Stockholders' Equity	$\frac{\text{Net Income}}{\text{Total Equity}}$
Return on Assets	$\frac{\text{Net Income}}{\text{Total Assets}}$
Interest Coverage Ratio	$\frac{\text{Income Before Interest \& Tax}}{\text{Interest Expense}}$
Solvency Ratio	$\frac{\text{Net Income} + \text{Depreciation}}{\text{Total Liabilities}}$
Book Value per Share	$\frac{\text{Total Equity}}{\text{Total Shares Outstanding}}$

Please note that the Income Statement figures in 2019 discussed in comparison to 2020 in the pages above were based on the "re-presented" Income Statement to show the impact of the discontinued operations on the Group's operating results.

2019 Compared to 2018

The Group generated total revenues from operating sources of about P989.87 million for the year ended December 31, 2019, a decrease of P946.6 million (49%) over total revenues of P1.936 billion during the same period in 2018. The decrease in revenue was due to lower lotto sales, which was cannibalized by the continuing expansion of Small-Town Lottery (STL). In addition, President Duterte ordered the suspension of all PCSO games, which meant lost sales of four (4) days for lotto, two (2) months for both keno and instant scratch tickets, and one (1) month for STL. It also took about three (3) months before retail sales levels returned to pre-suspension period for instant scratch tickets. Furthermore, Keno revenues decreased during the fourth quarter due to reduced ELA rate on top of much lower sales, which resulted from implementing the Keno ticket price to pre-TRAIN Law level with lower prize structure.

The Group's total operating expenses, including depreciation and amortization, for the year ended December 31, 2019 decreased by P247.06 million (15%) to P1.370 billion, from P1.614 billion in 2018. The decrease is attributed to the following:

- Personnel costs decreased by P31.4 million (9%) due to freeze hiring and non-replacement of resigned personnel;
- Rent and utilities expense decreased by P53.7 million (25%) due to the effect of adopting the PAS16;
- Consultancy fees decreased by P30.3 million (100%) due to the termination of a couple of management contracts;
- Software license fees decreased by P59.4 million (30%) due to lower lottery sales and lower rates negotiated with Intralot;
- Management fees expense decreased by P44.7 million (100%), due to negative EBITDA;

- Operating supplies expense decreased by P104.9 million (66%) due to overall decrease in Keno sales for which betslips and thermal rolls are still being supplied.

The decreases accounted for in the foregoing expense accounts were offset mainly by the combined increases of the following expense accounts:

- Travel and accommodation expense increased by P10.9 million (15%) mainly due to the increased volume of field visits;
- Repairs and maintenance increased by P40.8 million (56%) due to higher spare parts usage to repair aging terminals;
- Advertising and promotion expense increased by P9.02 million (23%) due to updated marketing collaterals and training support for Keno and LCC agents due to the changes in ticket prices and payouts;
- Taxes and licenses expense increased by P3.24 million (10%) due to the P4.5 million DST paid for stock dividends issued in 2019;
- Entertainment and amusement expense increased by P6.02 million (31%) due to increased other business incidental expenses;
- Other income (net of other charges) decreased by P176.6 million from last year's P161.4 million (109%), mainly due to the impairment loss of LCC goodwill, mark to market loss on marketable securities.

The Group's net loss after tax of P317.6 million represents a P621.7 million (204%) decline from last year's net income of P304.0 million. The lower net income in 2019 was a result of the 42% drop in overall sales across all products.

Total assets of the Company decreased by P386.7 million (18%) to P1.72 billion as of December 31, 2019, from P2.10 billion as of December 31, 2018. Decreases in assets are attributable to the following:

- Cash decreased by P234.4 million (41%) mainly due to lower revenue in 2019;
- Marketable securities decreased by P15.2 million (10%) due to unrealized mark-to-market loss;
- Trade and other receivables-net decreased by P112.6 million (39%) due mainly to the lower lotto and keno sales as of last quarter of 2019 plus the lower ELA rate on keno sales starting September 2019;
- Investment in stocks went down by P108.1 million (24%) due to lower stock market prices of investments on hand during 2019 versus 2018;
- Goodwill and intangibles decreased by P17.1 million (100%) as a result of the impairment of the LCC and Nine Entities goodwill;
- Retirement benefit asset decreased by P7.9 million (100%) due to reclassification to retirement liability account as a result of higher benefits accrued;
- Property and equipment decreased by P152.2 million (59%) due to depreciation of lottery equipment and other fixed assets.

The decreases in the assets above were offset by the following increases:

- Other current assets increased by P69.8 million (48%) due to pre payments and additional creditable withholding tax;
- Other noncurrent assets increased by P84.7 million (41%) mainly due to the prepayments of technical and advisory services pertaining to software development;

Total liabilities of P399.6 million was up by P57.1 million (17%) over last year's P342.5 million due principally to the following:

- Loan payable increased from zero to P140.8 million (1530%) due to a P150 million loan from Asia United Bank;
- Lease liability ROU-current increased by P41.5 million (100%), due to the effect of adopting the new accounting standard PFRS 16- Leases;
- Defined benefit liability increased by P29.2 million (from 0 in 2018) due to the accrual of retirement expense for 2019;
- Lease liability ROU-noncurrent portion increased by P9.2 million (from 0 in 2018) due to the effect of adopting the new accounting standard PFRS 16- Leases.

The increases in the liabilities were offset by the following decreases:

- Trade and other current liabilities decreased by P100.8 million (41%) due to lower trade payables resulting from lower operating expenses;
- Current portion of obligations under finance lease decreased by P3.4 million (17%) due to the amortization of capital lease for 2019;
- Withholding taxes payable decreased by P2.6 million (43%) due to lower withholding taxes resulting from lower operating expenses;
- Income tax payable decreased by P5.1 million (55%) due to less income tax as a result of lower net income for the year;
- Obligations under finance lease – net of current portion decreased by P16.0 million (100%) due to reclassification to current portion;
- Deferred tax liability decreased by P37.3 million (100%) as it was offset to deferred tax asset.

Plans and Prospects

Due to the COVID-19 Pandemic, the Group's lottery operations were halted for more than 4 months in 2020. Though operations have resumed, the sales generated are not yet at par with pre-pandemic levels. The Group foresees the next year to still be a very challenging period as health restrictions/protocols have not yet been softened in various jurisdictions, but is optimistic that it will be able to generate more favorable financial results than the past year as players and agents adjust to the new normal.

The PCSO commenced the re-bidding for its nationwide online lottery system, known as PCSO Lottery System (PLS) on February 5, 2021. Opening of bids is scheduled for March 29, 2021 and, barring any unforeseen events, the PCSO should be able to select the winning bidder and issue its Notice to Proceed sometime in June 2021. The Company is participating in the bidding and is confident that it is able to meet all the requirements of the bidding's Terms of Reference (TOR) given its track record of over 20 years in the lottery business and its technology partners that are global leaders in the gaming industry. Moreover, the Company has also maintained its ISO certification for Quality Management System (ISO 9001) and Information Security Management (ISO/IEC 27001), with SGS as its certifying body since 2015. Whatever the outcome of the bid will be, the TOR mandates the winning bidder to be ready to go on line within fourteen (14) months from receipt of the Notice to Proceed. With this, it is expected that the current lottery system being provided by the Company to PCSO will continue to be in use during this transition period from the current system to the new system.

The ELA of TGTI, the Group's keno business unit, is due to expire on March 31, 2021. PCSO officers, however, has indicated that PCSO intends to undertake a bidding for a new lottery system for Keno sometime in 2022. With this, it is expected that the ELA of TGTI will also be extended, subject to existing guidelines from the Government Procurement Policy Board, to allow PCSO time to undertake the bid.

The Company is committed to its vision of being the gaming partner of choice, despite all the regulatory, environmental and social hurdles of the industry, along with the ever-changing market demands and rapid technological developments in the shifting landscape of the Philippine gaming industry. To ensure growth, stability, and sustainability in the long-term, the Company is determined to push forward with relevant projects and be dynamic and proactive in its business strategies in serving the Philippine gaming market.

Prior to the Offer, there have been no public trading market for the Company's common shares. On November 19, 2007, the SEC approved the issuance of 8.048 million common shares from the Company's unissued authorized capital stock resulting from the valuation of the deposits for future subscription as consideration for the issuance of shares, at the total subscription price of P124.744 million. On May 6, 2008, the BOD approved the allocation of 2.174 million shares to its executives and employees and to the officers of Lucky Circle Corporation ("LCC"), which is exercisable over a period of three years from May 6, 2008 until May 6, 2011. The exercise price of the option was fixed at P8.88 per share. On May 19, 2008, grantees of the stock options exercised 617 thousand shares of the Company's stock at P8.88 per share. In 2011 and 2010, certain grantees of the stock options exercised 495 thousand shares and 455 thousand shares respectively, also at P8.88 per share.

On July 11, 2008, the BOD authorized the Parent Company to buy back up to 2,000,000 shares from the public as a means of preserving the value of the Parent Company's shares and maintaining investor confidence. In addition, on October 14, 2008, the BOD approved to extend its share buy-back program up to a maximum of 10% of the Parent Company's outstanding capital stock. For the same reasons as above, the Company bought back 1,478,000 shares in 2018 and 18,771,546 shares in 2017. The Company did not buy back any treasury shares in 2019 but the number of treasury shares doubled as a result of the stock dividend.

The movements in treasury shares are as follows:

	December 31, 2020		December 31, 2019	
	Number of Shares	Amount	Number of Shares	Amount

				P253,471,225

On August 14, 2018, the BOD declared a 100% stock dividend to the Company's stockholders, which the record and payment dates will be set subject to the approval of the SEC of the increase in its authorized capital stock. The stock dividend will be issued out of the increase in authorized capital stock. The declaration of the stock dividend was approved at the special meeting of the stockholders held on September 25, 2018.

On August 14, 2018, the BOD approved the amendment in the Company's articles of incorporation to increase its authorized capital stock from P500 million divided into 500 million common shares to P2,288 million divided into 2,288 million common shares. The increase in the authorized capital stock was approved at the special meeting of the stockholders held on September 25, 2018. The increase in authorized capital stock is pending approval of the Securities and Exchange Commission (SEC) as at December 31, 2018.

There is no provision in the Company's charter or by-laws that would delay, deter, or prevent a change in control of the Company.

Voting Rights

At each meeting of the shareholders, every stockholder entitled to vote on a particular question or matter involved shall be entitled to one vote for each share of stock standing in his name in the books of the Company at the time of closing of the transfer books for such meeting.

Dividend Rights of Common Shares

The Company's board of directors is authorized to declare cash, property, or stock dividends or a combination thereof. A cash dividend declaration requires the approval of the Board and no shareholder approval is necessary. A stock dividend declaration requires the approval of the Board and shareholders representing at least two-thirds of the Company's outstanding capital stock. Holders of outstanding shares on a dividend record date for such shares will be entitled to the full dividend declared without regard to any subsequent transfer of share. Other than statutory limitations, there are no restrictions that limit the Company from paying dividends on common equity.

Appraisal Rights

As provided for by law, any stockholder shall have a right to dissent and demand payment of the fair value of his shares in the following instances:

1. In case any amendment of the articles of incorporation has the effect of changing or restricting the rights of any stockholders or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
2. In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the Company's properties and assets;
3. In case the Company decides to invest its funds in another corporation or business outside of its primary purpose; and
4. In case of merger or consolidation.

COMPLIANCE WITH THE MANUAL ON CORPORATE GOVERNANCE

The Company remains focused on ensuring the adoption of systems and practices of good corporate governance in enhancing value for its shareholders. With this in mind, the Board of Directors has established corporate governance principles to ensure accountability, fairness and transparency in the organization.

A review of the various established Board level committees and its respective charters were done for the year 2020. Short descriptions of the committees are as follows:

Executive Committee - acts on behalf of the Board in the management and direction of the business and conduct of the affairs of the Company.

Audit Committee - has general oversight of the Company's accounting and financial reporting processes, audits of the financial statements, and internal control and audit functions.

Board Risk Oversight Committee – assists the Board in overseeing the Company’s practices and processes relating to risk assessment and risk management; maintaining an appropriate risk culture, reporting of financial and business risks and associated internal controls,

Corporate Governance Committee – tasked with ensuring compliance with, and proper observance of, corporate governance principles and practices. Folded in are the nomination and remuneration oversight functions as well.

Related Party Transactions Committee - assists the Board in overseeing the Company’s practices and processes relating to related party transactions (RPTs). Reviews all material related party transactions of the Company and ensures that all RPTs are conducted on a fair and arms-length basis.

In spite of the pandemic’s restrictions on mass gatherings, the Company was still able to comply with the SEC guidelines on disclosures and holding of its Annual Stockholder’s Meeting. The virtual format on webinars and conference calls has made it possible for the Company to continue to perform its functions during the quarantine period.

The Enterprise Risk Matrix of the Company was updated to include risks brought about by the COVID-19 pandemic, and the closure of operations that it led to. Furthermore, Atty. Joseph Tan was appointed as a member of the Board Risk Committee.

Members of various committees are expected to serve for a term of one (1) year.

The Company is not aware of any non-compliance with its Manual of Corporate Governance, by any of its officers or employees.

Item 1. Business

Pacific Online Systems Corporation ("Company") was incorporated in the Philippines and was registered with the Philippine Securities and Exchange Commission ("SEC") on November 11, 1993. The Company is primarily engaged in the development, design and management of online computer systems, terminals and software for the Philippine gaming industry. It sources technology from leading global suppliers of integrated gaming systems and leases equipment to the Philippine Charity Sweepstakes Office (PCSO) for its online lotto operations in the Visayas and Mindanao (VISMIN) regions under the terms of an Equipment Lease Agreement (ELA), which was initially entered into on November 25, 1995. It also provides the necessary technical support through a Maintenance Repair Agreement (MRA) that is co-terminus with the ELA. The Company's ELA with the PCSO was amended in 2004, 2012, 2013, 2015, 2018, and 2019, principally to extend the term thereof, in response to PCSO's requirements to ensure integrity, sustainability and efficiency in its online lotto operations. In 2019, the ELA was extended for another year and allowed the use of the Company's terminals for PCSO's lotto operations in Luzon. The latest amendment to the ELA was made wherein the ELA's term was extended up to July 31, 2021. The equipment rental revenue earned by the Company with this ELA is based on a percentage of lotto sales generated by the Company's terminals.

In 2004, the Company acquired 50% of Total Gaming Technologies Inc. (TGTI), which has its own ELA with the PCSO for the latter's online keno operations nationwide. TGTI's ELA with PCSO provides for a lease period of ten (10) years commencing on the date of actual commercial operations of at least 200 online keno agents. With October 2010 established as the start of commercial operations for online keno, TGTI's ELA will expire on September 30, 2020. On September 30, 2020, TGTI's ELA with PCSO was extended for 6 months until March 31, 2021 to recover losses during the suspension of sales due to the pandemic and the 2019 two-month suspension. TGTI's equipment rental revenue is based on a percentage of keno ticket sales or a fixed annual rental of P40,000 per terminal, whichever is higher. By 2013, the Company already owns 98.92% of TGTI.

In 2009, the Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO, for a period of seven years to undertake the printing, distribution and sale of instant scratch tickets nationwide. The instant scratch ticket, branded as Scratchit™, provided a steady stream of revenues for PCSO and its agents. It also expanded the Company's experience in the lottery business. On March 31, 2015 the Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEC) to be the exclusive marketing, distribution, selling and collecting agent of the Company for Scratchit™ tickets throughout the Philippines. The agreement took effect on April 1, 2015 and has ended on November 30, 2016.

On June 16, 2014, TGTI and the shareholders of Falcon Resources, Inc. (FRI) entered into a Memorandum of Understanding (MOU) for the former's intention to acquire the latter's interest in FRI representing 100% ownership. On December 11, 2014, the deed of sale for the transfer of shares of stocks was executed. FRI is a company engaged in consultancy services for TGTI and a sub-distributor of instant scratch tickets. FRI is a company incorporated in the Philippines.

In 2007, the Company set up Loto Pacific Leisure Corporation (LotoPac) primarily to acquire, establish, own, hold, lease, sell, conduct, operate, and manage amusement, recreational and gaming equipment facilities, and enterprise of every kind and nature, as well as places for exhibitions, recreation, gaming, amusement and leisure of the general public, and to acquire, hold and operate any and all privileges, rights, franchises and concessions as may be proper, necessary, advantageous, or convenient in the conduct of its business. LotoPac subsequently acquired Lucky Circle Corporation (LCC) in August 2007. LCC is an authorized PCSO agent operating online betting stations that sell sweepstakes, lotto, keno and instant tickets in outlets located in major shopping malls like SM Supermall, Robinsons, and Gaisano nationwide. LCC earns a certain percentage of the sales of lotto, keno, sweepstakes and instant scratch as tickets as commission income. In 2010, the Company subscribed to additional 124 million shares of LCC, after the SEC's approval

of the increase in the latter's authorized capital stock, which increased the Company's interest in LCC to 97.64%.

On July 1, 2017, LCC and the stockholders of the following entities entered into a Deed of Sale Agreement for the transfer of shares of stock representing 100% ownership.

- a) Athena Ventures, Inc.
- b) Avery Integrated Hub Inc.
- c) Circle 8 Gaming Ventures Inc.
- d) Lucky Deal Leisure Inc.
- e) Lucky Fortune Business Ventures Inc.
- f) Lucky Pick Leisure Club Corp.
- g) Lucky Ventures Leisure Corp.
- h) Lucky Games Entertainment Ventures Inc.
- i) Orbis Valley Corporation

These entities are engaged in the trading and selling of goods such as lotto, keno, sweepstakes and scratch tickets, on retail basis. The acquisition is in line with the Company's business strategy of expanding its market reach nationwide. On February 13, 2020, the Company and LotoPac sold 100% of LCC in light of the need for the Company to focus on its core business.

As of December 31, 2020, the Company's subsidiaries with its corresponding percentage of its ownership are summarized below:

	Percentage of Ownership	
	Direct	Indirect
Loto Pacific Leisure Corporation ("LotoPac")	100.00	-
Total Gaming Technologies, Inc. ("TGTI")	98.92	-
Falcon Resources, Inc. ("FRI")**		100.00
TGTI Services, Inc. (TGTISI)**		100.00

** Indirectly owned through TGTI

For the year ended December 31, 2020, the Company together with its subsidiaries ("Group") generated P298.53 million gross revenues, primarily through lottery equipment rentals billed to PCSO, and posted a P381.39 million net loss. As of December 31, 2020, the Group had total assets of P1.1 billion and shareholders' equity of P863.14 million.

Background on the TGTI Investment

On April 13, 2004, the Company purchased 50% of the outstanding capital stock of Innovative Solutions Consultancy Group, Corp. (Innovative), which is a joint stock company incorporated to manage enterprises engaged in the gaming business. On May 31, 2004, Innovative, in turn, acquired 80% of the outstanding capital stock of Total Gaming Technologies, Inc. (TGTI), a domestic corporation founded in October 2002 to develop new games for the Philippine gaming industry and to provide consultancy service and state-of-the-art equipment to the local gaming operators through its strategic partnership with Intralot. TGTI has entered into an Equipment Lease Agreement (ELA) with the PCSO for the nationwide operation of the Online Keno (initially referred to as Fast Keno) game. A Shareholders' Agreement was executed whereby Innovative shall provide management counsel and expertise to TGTI to ensure proper execution of the Online Keno game, among others. In April 2008, the Company acquired from Intralot additional 574,885 shares of Innovative for a contract price of P4.3 million. This increased the Company's interest in Innovative from 50% in 2007 to 87.38% in 2008. In August 2010, the minority shareholders of TGTI and Innovative entered into a contract wherein the minority shareholders sold all of their 2,650,000 common stock to the

Company, part of the consideration of which is that the Company, as controlling shareholder of TGTI, will cause the creation of preferred stock, of which 3,312,500 preferred shares will be issued to the minority shareholders of TGTI. The total preferred stock of 3,312,500 has been fully subscribed, and of the said subscription, the amount of P331,250 has been paid. Preferred stock will have a par value of P1.00 per share, non-voting and will have preference in the distribution of assets in the event of dissolution. On December 20, 2012, the majority of TGTI's stockholders and its Board of Directors (BOD) approved the Company's application for increase in its authorized capital stock with the SEC from Fifty Million Pesos (P50,000,000.00) divided into Forty Million (40,000,000) common shares and Ten Million (10,000,000) preferred shares, both having a par value of One Peso (P1.00) per share, to Seven Hundred Million Pesos (P700,000,000.00), divided into Six Hundred Ninety Million (690,000,000) common shares and Ten Million (10,000,000) preferred shares, both having a par value of One Peso (P 1.00) per share. On December 20, 2012, the Company's BOD approved the conversion of a major portion of its outstanding advances to TGTI to the latter's equity. TGTI on the other hand will convert a major portion of its outstanding obligation to the Company from liabilities to equity under "Deposit for future stock subscription" account once its application to increase in authorized capital stock is filed with the SEC. On April 8, 2013, SEC approved the request for an increase in authorized capital stock of TGTI. As a result of the conversion of the advances to TGTI and the assignment of Innovative's TGTI shares, the Company owns 173.1 million shares of TGTI, which increased the Company's interest in TGTI to 98.92%

Recent Developments

On February 5, 2021, PCSO published its bid documents for the Five-Year Lease of the PCSO National Lottery System (PLS). PCSO indicated March 29, 2021 as the bid submission and opening date for the PLS. The Company is participating in the bidding.

In December 2020, the Company passed its yearly surveillance audit for ISO 2700:2013 and ISO 9001:2015 conducted by Societe Generale de Surveillance (SGS), the world's leading inspection, verification, testing and certification company. On November 16, 2015, the Company obtained an ISO accreditation through SGS for ISO 9001:2008 Quality Management Systems and ISO/IEC 27001:2013 Information Security Management. In 2018, the certification for ISO 9001:2008 was updated to the 2015 version.

On September 30, 2020, TGTI's ELA with PCSO was extended for 6 months until March 31, 2021 to recover losses during the suspension of sales due to the pandemic and the 2019 two-month suspension. PCSO also approved the change of draw frequency from every 10 minutes to every 5 minutes and implemented it on November 6, 2020. The official document extending the current ELA for another year is expected to be issued by PCSO on March 31, 2021, at the earliest.

On March 17, 2020, selling of PCSO games; i.e. lotto, keno, instant scratch tickets and Small-Town Lottery (STL), was suspended due to the COVID-19 pandemic. Keno sales resumed on July 28, 2020. Sales of lotto jackpot games resumed on August 7, 2020, while 2D and 3D lotto games followed on August 24. 4D and 6D digit sales resumed on January 7 and 8, 2021, respectively.

Agreements with the Philippine Charity Sweepstakes Office (PCSO)

PCSO is the principal government agency for "raising and providing funds for health programs, medical assistance and services, and charities of national character" by means of holding and conducting charity sweepstakes, races, and lotteries. It also engages in health and welfare-related investments, projects, and activities to provide for permanent and continuing sources of funds for its programs.

Pacific Online's Agreements

The Equipment Lease Agreement (ELA) was awarded to Pacific Online on November 25, 1995 whereby the PCSO leases online lottery equipment from the Company for its VISMIN lotto operations.

2004 ELA. The initial ELA as amended on February 13, 2004, allows the Company to continue to deploy online lotto terminals in its covered regions. General terms of the amended ELA and MRA stipulate a certain percent share by the Company of all PCSO sales from the conduct of online lotto games in the VISMIN area and a term of eight (8) years commencing from the date of commercial operations of the Company. Commercial operation, as amended, was defined to be the operation of not less than 800 lotto terminals. However, commercial operation was formally effected on April 1, 2005, setting the term of the Company's ELA up to 2013, even if the PCSO had actually begun operations of the Company's online lotto terminals since 1996. The delay in the deployment of the required number of terminals to constitute commercial operation was mainly due to strong opposition from religious sector leaders and certain Local Government Unit (LGU) officials during the introductory phase and due to the absence of telecommunications service in many areas in VISMIN. Thus, this ELA covers the lease of not less than 800 lotto terminals, central computer system, communications and draw equipment, and the right to use the application software and manuals for the central computer system of PCSO for its VISMIN operations for a period of eight years from April 1, 2005 to March 31, 2013.

2012 Amended ELA. On May 22, 2012, the Company and PCSO amended certain provisions of the ELA to lower rental fee on the lotto terminals for VISMIN operations and for the lease of lotto terminals for Luzon operations effective June 1, 2012. The ELA provides PCSO an option to purchase the equipment related to its VISMIN operations at the end of the lease period for a sum of P15.0 million. Lotto terminals for PCSO's Luzon operations are not included in the "Option to Purchase" provision of the amended ELA. In accordance with the terms of the ELA, the Company also provides maintenance and repair services fee which were incorporated in the rental fee as part of the lowered rental rate provision of the amended ELA.

2013 Supplemental ELA. On March 26, 2013, the Company and PCSO further amended some provisions of the ELA, which extended it from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment, the Company agreed to reduce the rental fees for VISMIN and with the approval to service PCSO's Luzon lotto operations. The amendment also incorporated the fee for the supply of bet slips and ticket paper rolls for the PCSO's VISMIN and Luzon operations as part of the rental fee.

2015 Supplemental ELA. On July 15, 2015, the Company and PCSO further amended some provisions of the ELA, which extended it from August 1, 2015 to July 31, 2018. The amendment also required the Company to deposit an additional P5 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on percentage of gross sales of lotto tickets from PCSO's VISMIN and Luzon operations or a fixed annual rental of P35,000 per terminal, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application software, the central computer system, terminals and draw equipment, and maintenance and repair services.

2018 Supplemental ELA. On September 12, 2018, the ELA was further amended to extend the term from July 31, 2018 to August 1, 2019 at a reduced rate. The amendment also required the Company to increase its initial cash bond from P5 million to P12 million, to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

2019 Supplemental ELA. On August 1, 2019, the ELA was amended to extend the term from August 1, 2019 to July 31, 2020.

2020 Supplemental ELA. On July 30, 2020, the ELA was amended to extend the term on a month-to-month basis from August 1, 2020 to July 31, 2021.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on percentage of gross sales of lotto tickets from PCSO's VISMIN and Luzon operations or a fixed annual rental of P35,000 per terminal, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application

software, the central computer system, terminals and draw equipment, and maintenance and repair services.

Instant Scratch Tickets. On March 25, 2009, the Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of instant scratch tickets effective December 1, 2009. The share of PCSO is guaranteed for every 500 million tickets sold for a period of seven years from the date of the MOA's effectivity. The MOA required a P10 million cash bond to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. Said cash bond is in an escrow account with BDO since January 2010 and was authorized by PCSO for release in November 2018.

On March 31, 2015 the Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEN) to be the exclusive marketing, distribution, selling and collecting agent of the Company for its instant scratch tickets throughout the Philippines. The agreement took effect on April 1, 2015 and has ended on November 30, 2016.

In January 2018, the Company entered into a Brand and Trademark License Agreement with Powerball Marketing & Logistics Corp. (PMLC) granting the latter a non-assignable, non-transferable and exclusive right to use of the Parent Company's instant scratch tickets' Brands and Trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with the term of the PMLC's agreement with PCSO for the supply and distribution of its instant scratch tickets. The consideration is a guaranteed fixed monthly fee. PMLC is not restricted to develop its own brand.

TGTI's Equipment Lease Agreement

2004 ELA. TGTI entered into an ELA with PCSO on April 6, 2004, which provides for the lease of the equipment for PCSO's online keno games. The lease is for a period of ten (10) years commencing on the date of actual commercial operation of at least 200 online keno outlets. The rental fee is based on a percentage of the gross sales of the online keno terminals or a fixed annual rental of P40,000 per terminal in commercial operation, whichever is higher.

2008 Amended ELA. On July 15, 2008, TGTI and PCSO agreed on some amendments to the ELA. Under the terms of the Amended ELA, TGTI shall provide the services of telecommunications integrator and procure supplies for the online keno operations of PCSO in Luzon and VISMIN areas. In consideration for such services, PCSO shall pay additional fee based on a certain percentage of the gross sales from all online keno terminals in operation in Luzon and VISMIN areas computed by PCSO and payable bi-weekly. Commercial operations for online keno commenced on October 1, 2010 and ELA term ends on September 30, 2020.

2019 Supplemental ELA. On October 1, 2019, the ELA was amended to a lower lease rate, inclusive of VAT. The minimum price per Keno bet was reduced from Twelve Pesos (P12.00) to Ten Pesos (P10.00), inclusive of DST.

On July 27, 2019, the President of the Philippines, suspended the sale of PCSO games - lotto, keno instant scratch tickets and small-town lottery (STL). The suspension was eventually lifted on July 31, 2019 for lotto, August 24, 2019 for STL and September 27, 2019 for keno and scratch tickets.

2020 Supplemental ELA. On December 11, 2020, the ELA was again amended to extend the term for six (6) months, effective October 1, 2020 to March 31, 2021. The amendment also required TGTI to post a cash bond and performance security bond with the aggregate amount of P2.5 million.

LCC Agency Agreement

LCC enters into a two-year agency agreement with PCSO for every retail outlet it opens to operate. Agency agreements for lotto and keno terminals are executed separately at different times. These agreements are

renewed by PCSO pending payment of the required surety bond and compliance with the terms and conditions of the Agency Agreement. The same type of agency agreement with PCSO is entered into by the 9 companies that LCC acquired in 2017.

Government Regulation and Environmental Compliance

The Company does not need any government approval for its principal products or services since its business is in the development, design and management of online computer systems, terminals and software for the PCSO and not in the operation of the lottery business.

The Company has been fully compliant with environmental regulations and ordinances issued by the concerned Local Government Units (LGU) and by the Department of Natural Resources (DENR) in so far as disposal of used computer hardware, office equipment and other bulky operating supplies are concerned, pursuant to the Republic Act 9003: Ecological Solid Waste Management Act of 2000.

Technology Development, Supply and Service Contracts

From 1996 to 2005, the Company had provided the PCSO a single integrated system for its online lottery operations using the GTECH Legacy system. In 2005, the Company decided to contract Scientific Games to provide its new AEGIS™ system, after having assessed the obsolescence of GTECH's lottery system infrastructure. On November 21, 2005, the Company implemented the migration from the Legacy lottery system into the new AEGIS™ System. In 2006, the Company entered into another contract with Intralot, for the provision of another new system using the LOTOS® application software. Since December 2006, therefore, the Company has been providing the PCSO a two-network system for its VISMIN online lotto operations.

Having two (2) online lottery systems running in parallel has expanded the availability of lottery terminals nationwide and provides a safety net for PCSO's operations. The new technology also helps provide versatility in connectivity given the country's hybrid telecommunications network. These systems are capable of operating nationwide through GPRS, LTE, VSAT and DSL technology which offer diversity in providing options to sites unserviceable by specific telecommunication providers. Terminal connectivity is now a lot easier due to compatibility of the lottery terminals with widespread mobile phone cell sites in VISMIN. Online connectivity in VISMIN is now available wherever there is a cell site of Globe and Smart Telecoms, as well as VSAT providers for sites unreachable by Globe and Smart.

Scientific Games

Scientific Games (SG) is a top provider in the global lottery and regulated gaming industries. It has over 40 years of gaming and lottery experience in over six continents. On February 15, 2005, the Company, entered into a Supply and Service Contract with SG for the provision of a new system, AEGIS™. On November 20, 2005, the Company migrated into the new AEGIS™ System. Under the terms of the Contract, Scientific Games will provide the Company with Extrema® terminals as well as the required training necessary for its operation. In consideration of the foregoing, The Company shall pay Scientific Games a pre-agreed rate of its revenue from the conduct of online lottery games running under the system provided by Scientific Games. This Contract was amended in 2012 to extend the period to August 31, 2015 and provide for its supply of additional lotto terminals. The Company's agreement with SGI is now co-terminus with the Company's ELA with PCSO.

SG was also contracted by the Company to print the instant scratch tickets under its MOA with PCSO for its nationwide instant ticket program from 2009 thru 2016.

Intralot

Intralot S.A. (Intralot) is a company incorporated under the laws of Greece and is one of the top gaming systems provider globally and operator in over 55 jurisdictions. On March 13, 2006, the Company entered

into a contract with Intralot for the supply of equipment necessary for the operation of a new online lotto system effective December 8, 2006. Under the terms of the contract, Intralot will provide the Company with the computer hardware, the license to use Intralot's Lottery Application Software consisting of the software platform, LOTOS® Application Software, and the Games Application Software, the terminals as well as the required training necessary to operate the system. Based on the amended contract signed on July 7, 2006, Intralot will provide the Company with Coronis HEE terminals. In consideration of the foregoing, the Company shall pay Intralot a pre-agreed rate of the revenue generated by the terminals from the conduct of online lotto and digit games running on its system or a fixed fee per terminal per month, whichever is higher. In April 2016, the Company and Intralot agreed to amend the contract for the latter to supply additional lotto terminals to the former and extend the term of the contract until August 31, 2018. In September 2018, the contract with Intralot was again amended to extend the term until August 31, 2019. This contract is co-terminus with the Company's ELA with the PCSO

On July 10, 2006, Intralot entered into an agreement with its subsidiary, Intralot Inc., a company domiciled in Atlanta, Georgia, through which Intralot assigned whole of the contract, including all its rights and obligations arising from its said subsidiary.

Intralot is also the systems and equipment provider for TGTI, the Company's subsidiary that has the ELA with PCSO for its online keno operations. On April 1, 2004, TGTI entered into a contract with Intralot for the supply of the system and equipment for PCSO's online keno lottery operations. Intralot shall be paid based on a pre-agreed percentage of revenues generated by the keno terminals. In 2008, the contract was amended to change the calculation of amounts due Intralot to be based on a percentage of gross receipts of PCSO from its online keno games. On March 22, 2011, the contract was further amended for Intralot to supply additional keno terminals to TGTI through year 2020 and reduce the percentage charged to TGTI or a fixed fee per terminal per month, on an average basis, whichever is higher.

The Philippine Lottery Sector

The Philippine lottery sector is regulated by the PCSO, a government-owned and controlled corporation that was created primarily to raise funds for health and charity programs of the government. It regulates the lottery and other games of chance in order to protect certain sectors of society, especially the youth. It is estimated that the gaming market in the Philippines is worth over P100 billion per year, and illegal gaming accounts for half of the country's gaming industry revenues.

For over 60 years, since the inception of PCSO, the traditional Sweepstakes had been the lone source of funds for the PCSO. This changed in 1995, when PCSO launched the very first online lotto in the Philippines. This innovation brought in a new dimension of fun and excitement for the betting public.

Although there are many types of lottery games worldwide, the Philippine government-authorized lotteries can generally be categorized into these groups: traditional sweepstakes, instant scratch tickets, online lotto, online keno (Lotto Express) and Small-Town Lottery (STL). The Company has partnered with PCSO in all its lottery products except for STL.

The PCSO online lotto games are basically two (2) types; i.e., jackpot draw and digit games. The winning numbers for jackpot draw and digit games are determined by a draw machine. For these lotto games, players purchase tickets from PCSO authorized retail outlets and wait for the future drawing of prizes. The jackpot draw games have three draws a week, while digit games have three draws daily. Draw lotto jackpot prizes are generally pari-mutuel or based on the number of winners and amount of total sales generated per game at the time of draw. Lotto digit games and keno prizes are based on a fixed odds payout structure, which does not rely on the number of players and winners per draw. For online keno, winning numbers are drawn via a Random Number Generator (RNG) program and has draws every ten (10) minutes on a daily basis. Keno draw frequency has been changed to five (5) minutes daily on November 6, 2020.

Currently, the PCSO online lotto portfolio consists of five (5) jackpot draw games and four (4) digit games. The jackpot draw games are: 6/42 Lotto, 6/45 Mega Lotto, 6/49 Super Lotto, 6/55 Grand Lotto and 6/58 Ultra Lotto; while the digit games are: 2D, 3D, 4D and 6D. All of the nine (9) lotto games operated by the PCSO are played nationwide. Modifications and enhancements of existing games and/or the introduction of new games are directed by the PCSO.

Instant scratch tickets, on the other hand, are typically played by scratching off the surface of a latex coated ticket to reveal a specific pattern of numbers, characters, pictures, or symbols that correspond to a prize amount if ticket is a winner. The player will know immediately if the ticket wins a prize or not. Instant scratch tickets like the Traditional Sweepstakes have a fixed-odds prize structure.

The Group's Online Lottery Operations and Products

As of December 31, 2020, the Company together with its subsidiary TGTI, had over 3,650 lottery terminals installed nationwide. All online lottery terminals located in PCSO authorized retail outlets are continuously connected to PCSO's central computer system that enables real time recording and monitoring of lottery sales, and validation of winning tickets.

Aside from the number of lottery terminals deployed, total PCSO online lottery sales depend highly on the average sales generated by the various online lottery games launched. The table below shows the minimum jackpot amounts and the draw frequencies of the different lotto games supported by the Company.

<u>Lotto Game</u>	<u>Minimum Jackpot</u>	<u>Draw Frequency</u>
6/42 Lotto	P 6,000,000	3x a week - Mondays, Wednesdays & Saturdays
6/45 Mega Lotto ...	P 9,000,000	3x a week - Mondays, Wednesdays & Fridays
6/49 Super Lotto ...	P 16,000,000	3x a week - Tuesdays, Thursdays & Sundays
6/55 Grand Lotto...	P 30,000,000	3x a week - Mondays, Wednesdays & Saturdays
6/58 Ultra Lotto.....	P 50,000,000	3x a week - Tuesdays, Fridays & Sundays
6D Lotto.....	P 150,000	3x a week - Tuesdays, Thursdays & Saturdays
4D Lotto.....	P 10,000	3x a week - Mondays, Wednesdays & Fridays
3D Lotto	P 4,500	Thrice daily
2D Lotto	P 4,000	Thrice daily

Due to the suspension of lottery operations of over four (4) months owing to the COVID19 pandemic, the Company did not spend on development activities in 2020. Company resources were instead utilized to ensure the continuous operations of the lottery system hardware and compliance with health and safety protocols of PCSO and the concerned LGUs. However, investment in development activities was 20% and 2% in 2019 and 2018, respectively.

Market Profile

Approximately 76% of PCSO's lotto sales nationwide was generated by Luzon operations, and about 24% of sales is contributed by the VISMIN regions for the year ended 2020. This may be due to Luzon's higher population density, and higher average disposable income of residents. On the other hand, the VISMIN area faces some challenges due to its geography, more frequent power failures and intermittent telco connectivity.

It is noted that while in Luzon, the jackpot games account for 69% of total lottery sales, the VisMin area shows that it is digit games that dominates the sales of the region, accounting for 77% of total lottery sales.

As of the end of 2020, the Company's total terminal deployment in VISMIN territory covered 69 cities out of 72 total cities and 539 municipalities out of total 791. In Luzon, the Company's lotto terminal deployment, covered 52 cities and 79 municipalities. The Company covers 100% of the VISMIN sales and only 7% in Luzon due to its restricted entry since 2012 up to 2019.

Competition

The Company expects the aggressive push for Small Town Lottery (STL) and the prevalence of illegal gambling particularly in interior towns and remote areas to continue to provide competition to its online lotto revenues. This mostly affects the VisMin region due to the popularity of the digit games, which are very similar to STL games. With the removal of the legal impediment for the Company to provide lotto equipment in Luzon, the Company expects to expand its operations in Luzon, where the additional revenues can offset the lost sales in VisMin due to STL.

Organization and Manpower

As of December 31, 2020, the Group had a total of 244 employees, of which, 174 belong to Operations and 70 were administrative and other support personnel. None of the employees of the Company have organized themselves into any labor union. The Company also provides its employees additional benefits such as health care, life and accident insurance, retirement plan, training and development programs, and wellness programs, among others.

The Company believes that it has maintained balanced relationships with the rank and file and does not anticipate any labor-management issues to arise in the near term. The Company believes that its relationships with its employees have been consistently good and productive.

Risks

Some of the risks that the Company and its subsidiaries may be exposed to are the following:

1. General Risks

Changes in the government and PCSO administration may result to changes in policies and the way that such policies are implemented, which may be favorable or unfavorable to the Company. New legislation rules regarding taxes on lottery products have an impact in sales as well.

Environmental and natural disasters can also affect the operations in a particular area.

2. Risks Relating to the Equipment Lease Agreement (ELA) with PCSO

The Company's ELA with PCSO is currently on a month-to-month basis since August 2020 following the failed bidding in 2019 of its national online lottery system (NOLS). With the PCSO bidding for its nationwide lottery system known as PCSO Lottery System (PLS) being held on March 29, 2021, the Company is well positioned to be a front runner in said bidding due to its credentials and track record. It is most likely that the Company's contract with PCSO will be extended for, at least, a year due to the transition period required for a new system to be implemented, if any.

3. Risks Relating to the Company and its Subsidiaries

a. Dependence on Suppliers

The Company's lottery operations is anchored on a two-system network. The Company has existing contracts, each distinct and entered into separately, with two global leaders in the lottery industry, namely Scientific Games and Intralot, for the supply of computer supported lottery gaming systems.

In the event that the contracts, whether collectively or individually, are terminated or suspended, operations and business of the Company may be impaired.

b. Business Interruption Risk

The operations of the Company and its subsidiaries are dependent on the reliability of its central computer system and the communications infrastructure needed to run it. Any breakdown or failure in the system provided by its suppliers, or failure in the communication infrastructure may negatively affect the Company's financial performance. However, this risk of business interruption is unlikely to happen due to the redundancy offered by the two suppliers. The communications infrastructure is being provided mainly by the two biggest telco providers in the country, namely: PLDT/Smart and Globe. The Company also contracted VSAT to provide connectivity to sites where Smart and Globe are not available.

Item 2. Properties

The Company's online lottery operations are conducted mainly in Cebu, where its central system data center and logistics center are located. It also has set up 7 logistics hubs in 7 major VisMin cities to ensure efficient service delivery to the PCSO lottery agents. The Company Head Office is located in Pasig City.

There are no real properties owned and there are no plans to acquire them in the next twelve (12) months. The Company, together with its subsidiaries, lease all of its data center, logistics centers and hubs, and business offices. These properties are not mortgaged nor are there any liens and encumbrances that limit ownership or usage of the same.

The leased properties for business offices, data center and logistics facilities, reached about 4,153 sqm by year end 2020. About 51% of these properties are located in Luzon, and 49% in VisMin. Majority of the properties in Luzon are found in Metro Manila while those in VisMin are in Cebu. The logistics centers' areas are about 2,857 sqm in total, with 1,479 sqm in Cebu and 1,378 sqm in Metro Manila. Lease terms for most office and warehouse spaces range from two (2) to three (3) years. All lease agreements have provisions for renewal subject to terms and conditions mutually agreed upon by all parties concerned. The lease agreements provide for minimum rental commitment with annual rental escalation rates ranging from 3% to 10%. Three (3) office leases located in Metro Manila were terminated in 2020.

The Company's major assets are lottery equipment, which consists mainly of lottery terminals, data center equipment, software and operating systems.

Item 3. Legal Proceedings

**"TMA Australia Pty. Ltd. And TMA Group Philippines, Inc. v. Pacific Online."
RTC 66, Pasig City-Civil Case No. R-PSG-17-02130 [321-108]**

This refers to a complaint for Tortious Interference and payment of Damages filed by TMA Australia Pty. Ltd. and TMA Philippines (the "TMA Group") against Pacific Online in August 2017. The TMA Group alleged that Pacific Online wrongfully interfered with the implementation of the Contractual Joint Venture Agreement (CJVA) between the TMA Group and PCSO when it entered into several equipment lease agreements with the latter that included a supply of paper provision. The TMA Group also applied for a writ of preliminary injunction (WPI) against Pacific Online and prayed for damages in the amount of at least One Million Pesos (P1,000,000.00).

On 21 March 2018, the RTC granted the TMA Group's application for WPI, enjoining Pacific Online from continuing to deliver lotto paper to PCSO. During the pendency of this case, the Supreme Court issued a decision in *Philippine Charity Sweepstakes Office v. TMA Group of Companies* (G.R. Nos. 212143, 225457, and 236888, 28 August 2019), stating that the WPI issued by RTC Makati against PCSO directing it to

source its paper from TMA was improperly issued, and that the CJVA – the same CJVA in this case before RTC Pasig – could not have been a valid source of rights against PCSO. TMA filed a Motion for Reconsideration, but this was denied by the Supreme Court in a Resolution dated 04 March 2020. Pacific Online then filed a Manifestation and a Supplemental Manifestation asking for the dismissal of the tortious interference case by the TMA Group.

On 08 February 2021, the court dismissed the case against Pacific Online.

Item 4. Submission of Matters to a Vote of Security Holders

A special stockholders' meeting was convened last September 25, 2018, wherein the increase in capitalization to P2.288 billion and stock dividend of 422,431,981 shares to its shareholders were approved. Said special stockholders' meeting was approved by the BOD during its meeting on August 14, 2018. The increase in authorized capitalization was approved by the SEC on February 28, 2019. On March 15, 2019, the SEC approved the Record Date of March 29, 2019 and the Payment Date of on or before April 29, 2019 for LOTO's 100% stock dividends.

PART II - OPERATIONAL FINANCIAL INFORMATION

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters Market Information

The Company became a listed company with the listing of its shares with the Philippine Stock Exchange on April 12, 2007.

As of December 31, 2006, the Company had an authorized capital stock of 500 million common shares (at P1.00 par value), of which 125.25 million shares have been issued and outstanding. On February 9, 2007, the Company issued an additional 54 million shares from its authorized capital stock, increasing the issued and outstanding shares to 179.25 million shares. On March 27, 2007, the Company offered its shares for sale to the public through an initial public offering (IPO) with a primary offer of 11.8 million common shares and a secondary offer of 28 million common shares. Prior to the Offer, there have been no public trading market for the Company's common shares. There have been no sales of unregistered securities since 2012.

Voting Rights

At each meeting of the shareholders, every stockholder entitled to vote on a particular question or matter involved shall be entitled to one vote for each share of stock standing in his name in the books of the Company at the time of closing of the transfer books for such meeting.

Dividend Rights of Common Shares

The Company's board of directors is authorized to declare cash, property, or stock dividends or a combination thereof. A cash dividend declaration requires the approval of the Board and no shareholder approval is necessary. A stock dividend declaration requires the approval of the Board and shareholders representing at least two-thirds of the Company's outstanding capital stock. Holders of outstanding shares on a dividend record date for such shares will be entitled to the full dividend declared without regard to any subsequent transfer of share. Other than statutory limitations, there are no restrictions that limit the Company from paying dividends on common equity.

Appraisal Rights

Item 6. Management Discussion and Analysis of Operating Performance and Financial Condition

Results of Operations and Financial Condition

2020 Compared to 2019

The Group generated total revenues from operating sources of about P298.53 million for the year ended December 31, 2020, a decrease of P408.42 million (58%) over total revenues of P706.95 million during the same period in 2019. The decrease in revenue was due to the lower lotto and keno sales, which were hampered severely by the closure of all lotto games due to the COVID-19 pandemic and subsequent community quarantine restrictions, which kept lotto games suspended from March to August 2020. Even when lotto and keno games were allowed to open again, many operators kept their business shut for many reasons, including safety reasons or the lower traffic due to quarantine mobility restrictions. Furthermore, Keno's payouts were once again reduced upon resumption of operations, leading to a slow pick-up of sales. In an attempt to improve sales of keno, the PCSO approved the implementation of the 5- minute draws in November 2020.

The Group's total operating expenses, including depreciation and amortization, for the year ended December 31, 2020 decreased by P161.06 million (17%) to P793.63 million, from P954.68 in 2019. The decrease is attributed to the following:

- Personnel costs decreased by P33.28 million (20%) due to implementation of no work no pay policy from May to October 2020, reduced spending on staff welfare activities and attrition of employees.
- Travel and accommodation expense decreased by P46.17 million (62%) brought about by the restricted business trips due to the COVID 19 pandemic, which started in March 2020;
- Rent and utilities expense decreased by P9.80 million (25%) due to termination of three (3) office leases, closed offices during the ECQ period and implementation of skeletal force on-site after the ECQ;
- Communication expense decreased by P34.32 million (30%) due to the rebates given by Telco providers when lottery operations were suspended;

- Repairs and maintenance decreased by P79.44 million (77%) since repairs and maintenance work on terminals and facilities were not possible during the lottery suspension period;
- Advertising and promotion expense decreased by P38.42 million (81%) since all marketing activities were also suspended during the lottery suspension period;
-
- Taxes and licenses expense decreased by P22.90 million (69%) and software license fees decreased by P95.75 million (70%) due to lower lottery sales;
- Professional fees expense decreased by P6.33 million (52%), due to reduction in consultancy fees brought about by the lottery suspension period; and
- Operating supplies expense decreased by P37.49 million (78%) due to lower consumption of paper resulting from lower lottery sales.

The decreases accounted for in the foregoing expense accounts were offset mainly by the combined increases of the following expense accounts:

- Depreciation and amortization expense increased by P72.14 million (45%) mainly due to the amortization of prepaid software development cost;
- Provision for impairment losses increased by P182.0 million (8475%) due to provision for probable losses on non-trade receivables, operating supplies that may not be compatible with the systems upgrade with the renewal of TGTI ELA, and the pre termination of leases as part of the Group's cost cutting measures;
- Other expenses increased by P5.6 million (1585%) due to the additional spending incurred in complying with health and safety protocols of PCSO and concerned LGUs pertaining to the COVID 19 pandemic.

The net income (loss) from discontinued operation represents the operating results of LCC, which was sold to a third party on February 13, 2020. The P39.83 million net income for 2020 covers the LCC's operating results from January 1 to February 13, 2020 net of the computed gain from sale of the LCC shares. The P120.74 million net loss for 2019 covers a period of twelve (12) months, from January 1 to December 31, 2019.

The Group's net loss after tax of P381.39 million represents a P60.4 million (18.8%) increase from last year's net loss of P320.97 million. The higher net loss in 2020 was a result of over four (4) months suspension of all lottery games, the slow pace of sales recovery, and delayed reopening of the country's economy.

Total assets of the Company decreased by P609.43 million (36%) to P1.10 billion as of December 31, 2020, from P1.71 billion as of December 31, 2019. Decreases in assets are attributable to the following:

- Cash decreased by P175.20 million (52%) mainly due to lower revenues in 2020 and full payment of bank loan;
- Marketable securities decreased by P56.20 million (40%) due to unrealized mark-to-market loss of shares held and sale of LRWC preferred shares in February;
- Trade and other receivables-net decreased by P40.13 million (23%) due mainly to the lower lottery revenues and impairment of receivables from PLMC covering the quarantine period;
- Other current assets decreased by P49.53 million (23%) mainly due to the sale of LCC;

- Investment in stocks went down by P65.81 million (19%) due to lower stock market prices of investments on hand during 2020 versus 2019;
- Right of use asset decreased by P40.18 million (80%) due to the sale of LCC and provision for impairment loss of some ROU asset;
- Property and equipment decreased by P23.92 million (22%) due to depreciation of assets and sale of LCC;
- Other noncurrent assets decreased by P188.38 million (65%) due to the amortization of prepayments of technical and advisory services pertaining to software development;

The decreases in the assets above were offset by the increase in deferred tax assets of P29.91 million (57%) due to additional deferred tax provision resulting from NOLCO;

Total liabilities of P240.26 million was down by P159.15 million (40%) over last year's P399.41 million due principally to the following:

- Loan payable decreased by 100% due to the full payment of P150 million loan from Asia United Bank;
- Withholding taxes payable decreased by P1.48 million (43%) due to sale of LCC and lower withholding taxes resulting from lower operating expenses;
- Income tax payable decreased by P4.27 million (100%) due to payment of 2019 taxes by FRI;
- Lease liabilities decreased by P56.00 million (83%), due to sale of LCC and payment of leases.

The decreases in the liabilities were offset by the following increases:

- Trade and other current liabilities increased by P33.99 million (24%) due to accounts payable for spare parts and terminals purchased and delayed receipt of billings from Intralot and telco suppliers;
- Defined benefit liability increased by P18.60 million (62%) due to additional retirement expense recognized during the year.

As of December 31, 2020, the Company has:

- a) No known trends or any demands, commitments, or events (other than those discussed in the Risk section above) that will result in or that are likely to result in the liquidity increasing or decreasing in any material way;
- b) No events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation;
- c) No material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships with unconsolidated entities or other persons created during the reporting period; and
- d) Not breached any loans, leases or other indebtedness or financing agreement.

Key Performance Indicators

The Company monitors its performance and benchmarks itself to prior year's results in terms of the following indicators:

	As of	
	Dec. 31, 2020	Dec. 31, 2019
Current Ratio	2.92:1.00	2.40 : 1.00
Debt-to-Equity Ratio	0.28:1.00	0.30 : 1.00
Asset-to-Equity Ratio	1.28:1.00	1.30 : 1.00

	For the year ended	
	Dec. 31, 2020	Dec. 31, 2019

Please note that the Income Statement figures in 2019 discussed in comparison to 2020 in the pages above were based on the "re-presented" Income Statement to show the impact of the discontinued operations on the Group's operating results.

2019 Compared to 2018

The Group generated total revenues from operating sources of about P989.87 million for the year ended December 31, 2019, a decrease of P946.6 million (49%) over total revenues of P1.936 billion during the same period in 2018. The decrease in revenue was due to lower lotto sales, which was cannibalized by the continuing expansion of Small-Town Lottery (STL). In addition, President Duterte ordered the suspension of all PCSO games, which meant lost sales of four (4) days for lotto, two (2) months for both keno and

instant scratch tickets, and one (1) month for STL. It also took about three (3) months before retail sales levels returned to pre-suspension period for instant scratch tickets. Furthermore, Keno revenues decreased during the fourth quarter due to reduced ELA rate on top of much lower sales, which resulted from implementing the Keno ticket price to pre-TRAIN Law level with lower prize structure.

The Group's total operating expenses, including depreciation and amortization, for the year ended December 31, 2019 decreased by P247.06 million (15%) to P1.370 billion, from P1.614 billion in 2018. The decrease is attributed to the following:

- Personnel costs decreased by P31.4 million (9%) due to freeze hiring and non-replacement of resigned personnel;
- Rent and utilities expense decreased by P53.7 million (25%) due to the effect of adopting the PAS16;
- Consultancy fees decreased by P30.3 million (100%) due to the termination of a couple of management contracts;
- Software license fees decreased by P59.4 million (30%) due to lower lottery sales and lower rates negotiated with Intralot;
- Management fees expense decreased by P44.7 million (100%), due to negative EBITDA;
- Operating supplies expense decreased by P104.9 million (66%) due to overall decrease in Keno sales for which betslips and thermal rolls are still being supplied.

The decreases accounted for in the foregoing expense accounts were offset mainly by the combined increases of the following expense accounts:

- Travel and accommodation expense increased by P10.9 million (15%) mainly due to the increased volume of field visits;
- Repairs and maintenance increased by P40.8 million (56%) due to higher spare parts usage to repair aging terminals;
- Advertising and promotion expense increased by P9.02 million (23%) due to updated marketing collaterals and training support for Keno and LCC agents due to the changes in ticket prices and payouts;
- Taxes and licenses expense increased by P3.24 million (10%) due to the P4.5 million DST paid for stock dividends issued in 2019;
- Entertainment and amusement expense increased by P6.02 million (31%) due to increased other business incidental expenses;
- Other income (net of other charges) decreased by P176.6 million from last year's P161.4 million (109%), mainly due to the impairment loss of LCC goodwill, mark to market loss on marketable securities.

The Group's net loss after tax of P317.6 million represents a P621.7 million (204%) decline from last year's net income of P304.0 million. The lower net income in 2019 was a result of the 42% drop in overall sales across all products.

Total assets of the Company decreased by P386.7 million (18%) to P1.72 billion as of December 31, 2019, from P2.10 billion as of December 31, 2018. Decreases in assets are attributable to the following:

- Cash decreased by P234.4 million (41%) mainly due to lower revenue in 2019;
- Marketable securities decreased by P15.2 million (10%) due to unrealized mark-to-market loss;
- Trade and other receivables-net decreased by P112.6 million (39%) due mainly to the lower lotto and keno sales as of last quarter of 2019 plus the lower ELA rate on keno sales starting September 2019;
- Investment in stocks went down by P108.1 million (24%) due to lower stock market prices of investments on hand during 2019 versus 2018;
- Goodwill and intangibles decreased by P17.1 million (100%) as a result of the impairment of the LCC and Nine Entities goodwill;
- Retirement benefit asset decreased by P7.9 million (100%) due to reclassification to retirement liability account as a result of higher benefits accrued;
- Property and equipment decreased by P152.2 million (59%) due to depreciation of lottery equipment and other fixed assets.

The decreases in the assets above were offset by the following increases:

- Other current assets increased by P69.8 million (48%) due to pre payments and additional creditable withholding tax;
- Other noncurrent assets increased by P84.7 million (41%) mainly due to the prepayments of technical and advisory services pertaining to software development;

Total liabilities of P399.6 million was up by P57.1 million (17%) over last year's P342.5 million due principally to the following:

- Loan payable increased from zero to P140.8 million (1530%) due to a P150 million loan from Asia United Bank;
- Lease liability ROU-current increased by P41.5 million (100%), due to the effect of adopting the new accounting standard PFRS 16- Leases;
- Defined benefit liability increased by P29.2 million (from 0 in 2018) due to the accrual of retirement expense for 2019;
- Lease liability ROU-noncurrent portion increased by P9.2 million (from 0 in 2018) due to the effect of adopting the new accounting standard PFRS 16- Leases.

The increases in the liabilities were offset by the following decreases:

- Trade and other current liabilities decreased by P100.8 million (41%) due to lower trade payables resulting from lower operating expenses;
- Current portion of obligations under finance lease decreased by P3.4 million (17%) due to the amortization of capital lease for 2019;
- Withholding taxes payable decreased by P2.6 million (43%) due to lower withholding taxes resulting from lower operating expenses;

- Income tax payable decreased by P5.1 million (55%) due to less income tax as a result of lower net income for the year;
- Obligations under finance lease – net of current portion decreased by P16.0 million (100%) due to reclassification to current portion;
- Deferred tax liability decreased by P37.3 million (100%) as it was offset to deferred tax asset.

Plans and Prospects

Due to the COVID-19 Pandemic, the Group's lottery operations were halted for more than 4 months in 2020. Though operations have resumed, the sales generated are not yet at par with pre-pandemic levels. The Group foresees the next year to still be a very challenging period as health restrictions/protocols have not yet been softened in various jurisdictions, but is optimistic that it will be able to generate more favorable financial results than the past year as players and agents adjust to the new normal.

The PCSO commenced the re-bidding for its nationwide online lottery system, known as PCSO Lottery System (PLS) on February 5, 2021. Opening of bids is scheduled for March 29, 2021 and, barring any unforeseen events, the PCSO should be able to select the winning bidder and issue its Notice to Proceed sometime in June 2021. The Company is participating in the bidding and is confident that it is able to meet all the requirements of the bidding's Terms of Reference (TOR) given its track record of over 20 years in the lottery business and its technology partners that are global leaders in the gaming industry. Moreover, the Company has also maintained its ISO certification for Quality Management System (ISO 9001) and Information Security Management (ISO/IEC 27001), with SGS as its certifying body since 2015. Whatever the outcome of the bid will be, the TOR mandates the winning bidder to be ready to go on line within fourteen (14) months from receipt of the Notice to Proceed. With this, it is expected that the current lottery system being provided by the Company to PCSO will continue to be in use during this transition period from the current system to the new system.

The ELA of TGTI, the Group's keno business unit, is due to expire on March 31, 2021. PCSO officers, however, has indicated that PCSO intends to undertake a bidding for a new lottery system for Keno sometime in 2022. With this, it is expected that the ELA of TGTI will also be extended, subject to existing guidelines from the Government Procurement Policy Board, to allow PCSO time to undertake the bid.

The Company is committed to its vision of being the gaming partner of choice, despite all the regulatory, environmental and social hurdles of the industry, along with the ever-changing market demands and rapid technological developments in the shifting landscape of the Philippine gaming industry. To ensure growth, stability, and sustainability in the long-term, the Company is determined to push forward with relevant projects and be dynamic and proactive in its business strategies in serving the Philippine gaming market.

Item 7. Financial Statements

The audited Financial Statements and Supplementary Schedules as of and for the year ended December 31, 2020 presented in the accompanying index to Financial Statements and Supplementary Schedules are filed as part of this Form 17-A.

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Pursuant to the requirement on Rotation of External Auditors under SEC Memorandum Circular No. 8 Series of 2003, the registrant will recommend the accounting firm of R. G. Manabat & Co. for reappointment at the scheduled annual meeting.

Representatives of the principal accountant (R. G. Manabat & Co.), the Company's external auditors for the most recently completed fiscal year are expected to be present at the Annual Meeting to respond to appropriate questions and will be given the opportunity to make a statement if they so desire.

R. G. Manabat & Co. audited the Company's statement of financial position as at December 31, 2020, and the statement of comprehensive income, statement of changes in stockholders' equity and statement of cash flows for the year ended December 31, 2020 and a summary of significant accounting policies and

other explanatory notes. R. G. Manabat & Co.'s responsibility is to express an opinion on these financial statements based on their audit. The audits were conducted in accordance with Philippine Standards on Auditing. The partner who handled the Company's external audit was Mr. Enrico E. Baluyut.

The Company's Board of Directors in the annual shareholders' meeting on June 22, 2020 recommended, and the shareholders approved, the appointment of R. G. Manabat & Co. as the Company's independent public accountant for the fiscal year ending December 31, 2020.

In the Company's three (3) most recent fiscal years, there has been no change in auditor and there has been no disagreement on accounting and financial disclosures. Since LCC was divested in February 2020 no audit fees for LCC will be incurred for the year 2020.

The aggregate fees for each of last three (3) fiscal years for professional services rendered by the external auditors are as follows:

	2020	2019	2018
Audit fee	P1,098,000	P1,848,000	P2,054,000
Tax services	-	600,000	600,000
Other fees	-	-	-
TOTAL	P1,098,000	P2,448,000	P2,654,000

It is the policy of the Company that any draft audit report must first be reviewed by the Audit Committee prior to said report being endorsed to the Board of Directors for approval. The Audit Committee members are: Mr. Laurito E. Serrano (Chairman), Mr. Jerry C. Tiu, and Mr. Tarcisio M. Medalla. The final draft of the Company's audited financial statements was discussed and reviewed by said Committee. Whereupon said Committee resolved to recommend to the Company's Board of Directors that said financial statements be approved for issuance and disclosure to the public, the PSE and all related governmental agencies. Said audited financial statements were approved by the Company's Board of Directors during its meeting held on February 26, 2021.

Significant Employees

The Company is not dependent on the services of any particular employee. It does not have any special arrangements to ensure that any employee will remain with the Company and will not compete upon termination.

Stock Option Plan

The Company's Board ("BOD") approved the proposed Stock Option Plan ("the Plan") on December 12, 2006. The Company's Stock Option Plan provides an incentive and mechanism to employees and officers to become stockholders of the Company, as well as to qualified directors, officers and employees, who are already stockholders, to increase their equity in the Company and thereby increase their concern for the Company's well-being. All such full-time and regular employees of the Company, its subsidiaries and affiliates, their officers and directors, and such other qualified persons who may be recommended from time to time by the Executive Committee or the Board to the Committee as qualified, are eligible to participate in the Plan. Shares of stock subject to the Plan amount to five per cent (5%) of the Company's total outstanding common stock.

The purchase price of the shares shall not in any case be less than the Fair Market Value of the Company's shares at the time of grant, and, in no case, be less than the Offer Price at which the Company's shares are initially offered for sale to the public. Further, the purchase price shall be subject to adjustment for subsequent stock dividends or splits.

The shares covered by any one grant shall be offered for subscription over a period of Three (3) years from and after the effectivity date of each grant that may be determined by the Committee. The Participants may exercise their right to subscribe to shares under the Plan in accordance with the following schedule:

- 1/3 of total grant within One (1) year from the effectivity date of each grant
- 1/3 of total grant within Two (2) years from the effectivity date of each grant
- 1/3 of total grant within Three (3) years from the effectivity date of each grant

On February 15, 2008, SEC approved the Company's application requesting that its proposed issuance of 9,954,900 common shares be exempt from the registration requirements of the Securities Regulation Code.

On May 6, 2008, the BOD approved the allocation of 2,174,000 shares to its executives and employees and to the officers of Lucky Circle under the Plan which is exercisable over a period of three years from May 6, 2008 until May 6, 2011. The purchase price upon exercise of the option was fixed at ₱8.88 per share. At the grant date, the fair value of the Company's share amounted to P9.20 per share.

On May 19, 2008, grantees of the stock options exercised 617,000 shares of the Company's stock at ₱8.88 per share.

In 2011 and 2010, certain grantees of the stock options exercised 495,000 shares and 455,000 shares, respectively, of the Company's stock at ₱ 8.88 per share.

As at December 31, 2020 and 2019, there were no options outstanding or granted upon expiration of the exercisable options on May 6, 2011.

PART IV - CORPORATE GOVERNANCE

The Company remains focused on ensuring the adoption of systems and practices of good corporate governance in enhancing value for its shareholders. With this in mind, the Board of Directors has established corporate governance principles to ensure accountability, fairness and transparency in the organization.

A review of the various established Board level committees and its respective charters were done for the year 2020. Short descriptions of the committees are as follows:

Executive Committee - acts on behalf of the Board in the management and direction of the business and conduct of the affairs of the Company.

Audit Committee - has general oversight of the Company's accounting and financial reporting processes, audits of the financial statements, and internal control and audit functions.

Board Risk Oversight Committee – assists the Board in overseeing the Company's practices and processes relating to risk assessment and risk management; maintaining an appropriate risk culture, reporting of financial and business risks and associated internal controls,

Corporate Governance Committee – tasked with ensuring compliance with, and proper observance of, corporate governance principles and practices. Folded in are the nomination and remuneration oversight functions as well.

Related Party Transactions Committee - assists the Board in overseeing the Company's practices and processes relating to related party transactions (RPTs). Reviews all material related party transactions of the Company and ensures that all RPTs are conducted on a fair and arms-length basis.

In spite of the pandemic's restrictions on mass gatherings, the Company was still able to comply with the SEC guidelines on disclosures and holding of its Annual Stockholder's Meeting. The virtual format on webinars and conference calls has made it possible for the Company to continue to perform its functions during the quarantine period.

The Enterprise Risk Matrix of the Company was updated to include risks brought about by the COVID-19 pandemic, and the closure of operations that it led to. Furthermore, Atty. Joseph Tan was appointed as a member of the Board Risk Committee.

Members of various committees are expected to serve for a term of one (1) year.

The Company is not aware of any non-compliance with its Manual of Corporate Governance, by any of its officers or employees.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
Pacific Online Systems Corporation and Subsidiaries
28th Floor, East Tower, Philippine Stock Exchange Centre
Exchange Road, Ortigas Center
Pasig City, Metro Manila

Opinion

We have audited the consolidated financial statements of Pacific Online Systems Corporation and its subsidiaries (the "Group"), which comprise the consolidated statements of financial position as at December 31, 2020 and 2019, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2020, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2020 and 2019, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2020, in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Impairment Assessment of Non-financial Assets
Refer to Note 5 to the consolidated financial statements.

The risk

As at December 31, 2020, the gross carrying amount of the Group's non-financial assets was P431.87 million which represents around 37% of its total assets (gross of impairment provision). The impairment of the Group's non-financial assets was considered a matter of significant risk because the Group has experienced challenging business and regulatory environments in 2020 as discussed in Note 2 to the consolidated financial statements. As a result, management determined that an impairment provision of P73.22 million was required to reduce the carrying amounts of these assets to their recoverable amounts as at December 31, 2020. We identified impairment of non-financial assets as a key audit matter because the carrying amounts of these assets and the related impairment losses recognized were material to the consolidated financial statements. Further, the assessment of any impairment of these assets required significant management judgement and estimation which could be subject to error or potential management bias.

Our response

Our audit procedures included, among others, obtaining an understanding of management's processes for impairment testing and assessing management's determination of the recoverable amounts of the Group's non-financial assets including the potential impacts of regulatory processes and decisions on the Group's operations. We analyzed and challenged the reasonableness of significant judgements and estimates used by management in its impairment tests based on our knowledge of the business and industry. To achieve this, we obtained the Group's financial forecasts and strategic plans that were approved by management and evaluated the reasonableness of the inputs and assumptions such as the projected economic growth rates and inflation rates by comparing them to recent performance and market expectation and by reference to prior year forecasts and historical data where relevant. We also assessed the adequacy of the relevant disclosures made in the consolidated financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2020, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2020 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and is therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Enrico E. Baluyut.

**Indirectly owned through TGTI

***Indirectly owned through LCC (collectively referred to as "Nine Entities") starting July 1, 2017

Pacific Online

The Parent Company is engaged in the development, design and management of online computer systems, terminals and software for the gaming industry. The Parent Company can also engage in any lawful arrangement for sharing profits, union of interest, unitization or formal agreement, reciprocal concession, or cooperation with any corporation, association, partnership, syndicate, entity, person or governmental, municipal or public authority, domestic or foreign.

TGTI

TGTI was incorporated and registered with SEC on October 23, 2002. The primary purpose of TGTI is to lease gaming equipment and provide consultancy services relative to online gaming to those engaged in gaming business, non-profit institutions, and other entities.

LotoPac

LotoPac was incorporated in March 2007, primarily to acquire, establish, own, hold, lease, sell, conduct, operate, and manage amusement, recreational and gaming equipment facilities, and enterprise of every kind and nature, as well as places for exhibitions, recreation, gaming, amusement and leisure of the general public, and to acquire, hold and operate any and all privileges, rights, franchises and concessions as may be proper, necessary, advantageous, or convenient in the conduct of its business. LotoPac acquired LCC in August 2007.

LCC and Nine Entities

LCC and Nine Entities were incorporated and registered with SEC to engage in the business of trading and selling of goods such as sweepstakes tickets, tickets of shows and concerts, and such other number games, including but not limited to those introduced by Philippine Charity Sweepstakes Office (PCSO).

LCC and Nine Entities are authorized agents of PCSO operating lottery betting stations located in major branches of shopping malls like SM Supermalls, Robinsons and Gaisano, nationwide. LCC and Nine Entities, as PCSO agents, earn a certain percentage of the sales of lotto, keno, sweepstakes and instant scratch tickets (Note 2).

On February 13, 2020, LCC and Nine Entities (LCC Group) were sold to a third party for a consideration of P137,413,460 (Note 7).

FRI

FRI was incorporated primarily to engage in the business of trading or selling of goods on wholesale or retail basis, such as sweepstakes, instant game tickets, and other lottery and gaming tickets, including, but not limited to, those introduced by PCSO; as well as tickets of shows, concerts and other events.

TGTISI

TGTI Services, Inc. was incorporated primarily to engage in, conduct and carry on the business of providing logistical, technical support, and consultancy services, and providing end-to-end solutions to entities in the gaming industry in all its aspects.

2. Agreements with PCSO

PCSO is the principal government agency for raising and providing funds for health programs, medical assistance and services, and charities of national character. It generates funds for its programs by holding and conducting charity sweepstakes, races and lotteries.

Parent Company's Equipment Lease Agreement (ELA)

The ELA was originally awarded to Pacific Online on November 25, 1995, whereby the PCSO leased online lottery equipment from the Parent Company for PCSO's VisMin online lotto operations. This was amended on February 13, 2004, wherein the Parent Company was allowed to continue deployment of online lotto terminals in VisMin for a period of eight (8) years from date of its commercial operation, which was defined to be operation of not less than 800 lotto terminals. With the Parent Company's commercial operation effected on April 1, 2005, its amended ELA was due to expire March 31, 2013. In addition to the lotto terminals, this lease included the central computer system, communications and draw equipment, and the right to use the application software and manuals for the central computer of PCSO's VisMin online lottery system.

2012 Amended ELA. On May 22, 2012, the ELA was amended to include the lease of lotto terminals in some of PCSO's lottery operations in Luzon which resulted in the reduction of the fees. The amendment also includes supplying betting slips and ticket paper rolls to PCSO, incorporating maintenance and repair services as part of the fees, and giving the latter an option to purchase the lotto equipment in VISMIN for P15.0 million at the end of the lease term.

2013 Supplemental ELA. On March 26, 2013, the ELA was further amended to extend the term from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment, the Parent Company agreed to reduce the fees for VISMIN and shoulder the cost of betting slips and ticket paper rolls for Luzon and VISMIN.

2015 Supplemental ELA. On July 15, 2015, the ELA was again amended to extend the term from August 1, 2015 to July 31, 2018. The amendment also required the Parent Company to deposit an additional P5.0 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

2018 Supplemental ELA. On September 12, 2018, the ELA was amended to extend the term from August 1, 2018 to July 31, 2019. The amendment required the Parent Company to post an additional deposit of P7.0 million cash bond. The total cash bond of P12.0 million is included under "Other noncurrent assets" in the consolidated statements of financial position (*Note 11*).

2019 Supplemental ELA. On August 1, 2019, the ELA was amended to extend the term from August 1, 2019 to July 31, 2020. The said extension was intended for PCSO to complete the bidding process for the Philippine Lottery System (PLS) under Republic Act No. 9184, as amended, until a new lottery system is fully realized and to ensure unhampered and uninterrupted operations of the online lottery and to avoid the loss of funds to PCSO.

2020 Supplemental ELA. On September 9, 2020, the term of the ELA was extended on a month-to-month basis effective August 1, 2020 but not to exceed one (1) year, commensurate to the necessity and immediacy to complete the bidding process of the new lottery system. POSC undertakes not to pull-out the lottery terminals until after the 7th month after the expiration of the ELA.

The PCSO announced that a bidding for its customized PCSO Lottery System, also known as the "2021 PLS PROJECT", will be conducted during the early part of 2021. The Parent Company has expressed its readiness to participate in the said bidding, as it had joined the PCSO bidding exercises held in 2019. The Parent Company's ELA with PCSO is currently on an annual basis because of the failed bidding in 2019. This means that the Parent Company will have to continue to operate under the current ELA terms beyond July 2021; i.e., when PCSO is able to hold its bidding, award the new ELA contract and undertake a transition from the current lottery system to the new system. The Parent Company is well positioned to be a front runner in the said bidding due to its credentials and track record. But should POSC not win the bid, the Parent Company will continue to operate given that the Parent Company's contract with PCSO for the extension until July 31, 2021 has a provision for POSC to undertake not to pull out the lottery equipment for another seven (7) months from date of expiration.

The fees, presented as "Equipment rental" in the consolidated statements of income, are based on a percentage of gross sales generated by lotto terminals or a fixed annual rental of P35,000 per terminal in commercial operation, whichever is higher. The number of installed lotto terminals totaled 3,370 and 3,785 as at December 31, 2020 and 2019, respectively. The Parent Company's equipment rental revenue amounted to P245.9 million, P427.9 million, and P788.6 million in 2020, 2019 and 2018, respectively. The related receivables from PCSO, included under "Trade and other receivables" account in the consolidated statements of financial position, amounted to P43.3 million and P42.7 million as at December 31, 2020 and 2019, respectively (Note 10).

Instant Scratch Tickets. On March 25, 2009, the Parent Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of instant scratch tickets effective December 1, 2009 until December 1, 2016. The share of PCSO is guaranteed for 500 million tickets to be sold over a period of seven years from the date of the MOA's effectivity.

The MOA requires a cash bond amounting to P10.0 million to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, subject to review by PCSO for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. The interest accrues to the Parent Company and is credited to a separate bank account. In 2018, the Parent Company received a certification from PCSO for the release of such bond.

On March 31, 2015, the Parent Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEC) authorizing PGEC as the exclusive marketing, distribution, selling and collecting agent of the Parent Company throughout the Philippines. The agreement took effect on April 1, 2015 and shall remain effective as long as the MOA with PCSO or any extension thereof shall be effective.

PGEC agreed to assume the Parent Company's commitment to PCSO to solely shoulder the project cost for the Instant Scratch Ticket program, which consists of the costs of production, distribution, warehousing, software and hardware maintenance, advertising, marketing, selling and other related expenses. PGEC is entitled to all the revenues, sums and proceeds from the Instant Scratch Tickets beginning April 1, 2015, and shall be obligated to shoulder the pay-outs for all winnings from said tickets sold beginning April 1, 2015. An existing consultancy agreement between the Parent Company and PGEC for the scratch ticket operations was immediately terminated upon execution of the OMOA in 2015.

The MOA with PCSO expired on November 30, 2016 and the Parent Company's OMOA with PGEC also expired accordingly. All tickets distributed to the retailers and agents, were allowed to be marketed continuously until fully sold and the corresponding winnings thereof were honored and paid even after the period of the MOA with PCSO.

In 2018, the Parent Company received a certification from the OIC-Manager of Accounting and Budget Department (ADB) of PCSO stating the fulfillment of the Parent Company's obligation under the MOA and thereby clearing the Parent's Company of any accountability thereunder. ADB certified that the Parent Company is entitled to the release of the P10.0 million cash bond.

In January 2018, the Parent Company entered into a Brand and Trademark License Agreement with Powerball Marketing & Logistics Corp. (PMLC) granting the latter a non-assignable, non-transferable and exclusive right to use of the Parent Company's instant scratch tickets' Brands and Trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with the term of the PMLC's agreement with PCSO for the supply and distribution of its instant scratch tickets. The consideration is a guaranteed fixed monthly fee. PMLC is not restricted to develop its own brand.

TGTI's Equipment Lease Agreement

2004 ELA. TGTI has an ELA with PCSO for a period of ten (10) years from the date of actual operation of at least 150 online keno outlets to September 30, 2020. This covers PCSO's online keno lottery operations. The lease includes online keno equipment and accessories.

2008 Amended ELA. On July 15, 2008, the ELA was amended wherein, TGTI shall provide the services of telecommunications integrator and procurement of paper supplies for the online keno operations of PCSO in Luzon and VISMIN areas. In consideration for such services, PCSO shall pay additional fee based on a certain percentage of the gross sales from all online keno terminals in operation in Luzon and VISMIN areas computed by PCSO and payable bi-weekly.

2019 Amended ELA. On October 1, 2019, the ELA was amended to a lower lease rate, inclusive of VAT. The minimum price per keno bet was reduced from Twelve Pesos (P12.00) to Ten Pesos (P10.00), inclusive of DST.

On July 27, 2019, the President of the Philippines, suspended the sale of PCSO games - lotto, keno instant scratch tickets and small-town lottery (STL). The suspension was eventually lifted on July 31, 2019 for lotto, August 24, 2019 for STL and September 27, 2019 for keno and scratch tickets.

2020 Amended ELA. On December 11, 2020, the ELA was again amended to extend the term for six (6) months, effective October 1, 2020 to March 31, 2021. The amendment also required TGTI to post a cash bond and performance security bond with the aggregate amount of P2.5 million. The cash bond of P2.5 million is included under "Other noncurrent assets" in the consolidated statements of financial position (*Note 11*).

TGTI management has submitted all requirements to the PCSO relative to the application for the renewal of the ELA. However, as of reporting date, an official document from PCSO confirming the extension of TGTI's ELA is not yet available. Accordingly, and amidst the challenging business and regulatory environments, TGTI management has also been working on possible business ventures that it can embark on to continue its operations in case ELA is not extended. As of December 31, 2020, TGTI has cash and cash equivalents of P31.88 million and marketable securities of P106.48 million, adequate to support itself in the next twelve months. Moreover, it expects to receive cash dividends of about P40 million from its wholly-owned subsidiary Falcon Resources Inc. next year.

The fees, presented as "Equipment rental" in the consolidated statements of income, are based on a percentage of the gross amount of ticket sales from all of TGTI's online keno lottery terminals, excluding value-added taxes (VAT) or a fixed annual rental of P40,000 per terminal in commercial operation, whichever is higher. The number of installed lotto terminals totaled 1,180 and 1,833 as at December 31, 2020 and 2019, respectively. TGTI's equipment rental revenue amounted to P47.24 million, P253.6 million, and P659.7 million in 2020, 2019 and 2018, respectively. The related receivables from PCSO, included under "Trade and other receivables" account in the consolidated statements of financial position, amounted to P6.73 million and P22.7 million as at December 31, 2020 and 2019, respectively (Note 10).

On March 17, 2020 up to July 31, 2020, PCSO games were suspended in light of the declaration by the National Government of a public health emergency and the declaration of a national state of calamity due to the COVID-19 pandemic (Note 26). Keno sales resumed on July 28, 2020, while the lotto jackpot games resumed on August 7, 2020. The 2D and 3D lotto games resumed sales on August 24, 2020, followed by the 4D and 6D Lotto games on January 7 and 8, 2021, respectively.

3. Basis of Preparation

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council (FRSC), consist of PFRSs, Philippine Accounting Standards (PASs), and Philippine Interpretations. The accompanying consolidated financial statements were approved and authorized for issuance by the Board of Directors (BOD) on February 26, 2021.

Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis, except for the following items, which are measured on an alternative basis on each reporting date:

- marketable securities and financial assets at FVOCI are measured at fair value; and
- defined benefits liability which is measured as the net total of the present value of the defined benefit obligation and the fair value of the plan assets.

Functional and Presentation Currency

These consolidated financial statements are presented in Philippine peso (P or Php), which is the Parent Company's functional currency. All amounts have been rounded off to the nearest peso, unless otherwise indicated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using consistent accounting policies.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to; variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The consolidated financial statements are prepared for the same reporting period as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances. Intergroup balances and transactions, including intergroup unrealized profits and losses, are eliminated in preparing the consolidated financial statements.

Non-controlling interest represents the portion of profit or loss and net assets not held by the Parent company and is presented separately in the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and within equity in the consolidated statements of financial position.

Non-controlling interest represents the interest not held by the Parent Company in TGTI.

4. Significant Accounting Policies

The accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements and have been applied consistently by the Group entities, except for the changes in accounting policies as explained below.

Adoption of Revised Standards, Amendments to Standards and Interpretations

The Group has adopted the following revised standards starting January 1, 2020 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption did not have any significant impact on the Group's consolidated financial statements.

- *Amendments to References to Conceptual Framework in PFRS Standards* sets out amendments to PFRS Standards, their accompanying documents and PFRS practice statements to reflect the issuance of the revised Conceptual Framework for Financial Reporting in 2018 (2018 Conceptual Framework). The 2018 Conceptual Framework includes:
 - a new chapter on measurement;
 - guidance on reporting financial performance;
 - improved definitions of an asset and a liability, and guidance supporting these definitions; and
 - clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.

Some Standards, their accompanying documents and PFRS practice statements contain references to, or quotations from, the International Accounting Standards Committee (IASC)'s Framework for the Preparation and Presentation of Financial Statements adopted by the International Accounting Standards Board (IASB) in 2001 or the Conceptual Framework for Financial Reporting issued in 2010. The amendments update some of those references and quotations so that they refer to the 2018 Conceptual Framework, and makes other amendments to clarify which version of the Conceptual Framework is referred to in particular documents.

- *Definition of Material (Amendments to PAS 1 Presentation of Financial Statements and PAS 8 Accounting Policies, Changes in Accounting Estimates and Errors)*. The amendments refine the definition of material. The amended definition of material states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify the definition of material and its application by:
 - (a) raising the threshold at which information becomes material by replacing the term 'could influence' with 'could reasonably be expected to influence';
 - (b) including the concept of 'obscuring information' alongside the concept of 'omitting' and 'misstating' information in the definition;
 - (c) clarifying the explanatory paragraphs accompanying the definition; and
 - (d) aligning the wording of the definition of material across PFRS Standards and other publications.

The amendments are expected to help entities make better materiality judgements without substantively changing existing requirements.

Standard Issued But Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after January 1, 2020. However, the Group has not adopted the following new or amended standards in preparing these consolidated financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Group's consolidated financial statements.

Effective June 1, 2020

- *COVID-19-Related Rent Concessions (Amendment to PFRS 16 Leases)*. The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient apply if:
 - the revised consideration is substantially the same or less than the original consideration;
 - the reduction in lease payments relates to payments due on or before June 30, 2021; and
 - no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

Effective January 1, 2022

- *Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16 Property, Plant and Equipment).* The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2 *Inventories*.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of a company's ordinary activities, the amendments require the Company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statements of comprehensive income. This disclosure is not required if such proceeds and cost are presented separately in the statements of comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

Financial Instruments

Date of Recognition. The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition is done using settlement date accounting.

Initial Recognition of Financial Instruments. Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at fair value through profit or loss (FVPL), includes transaction costs.

Subsequent to initial recognition, the Group classifies its financial assets in the following categories: financial assets at FVPL, financial assets at fair value through other comprehensive income (FVOCI) and financial assets at amortized cost. The classification of financial assets depends on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

The Group classifies its financial liabilities as either financial liabilities at amortized cost or financial liabilities at FVPL. The Group classifies all financial liabilities at amortized cost, except for:

- (a) financial liabilities designated by the Group at initial recognition as at fair value through profit or loss, when doing so results in more relevant information.
- (b) financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies.
- (c) contingent consideration recognized by the Group in a business combination which shall subsequently be measured at fair value with changes recognized in profit or loss.
- (d) financial guarantee contracts and commitments to provide a loan at a below-market interest rate which are initially measured at fair value and subsequently at the higher of amortized amount and amount of loss allowance.

Management determines the classification of its financial assets and financial liabilities at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

Determination of Fair Value. The fair value of financial instruments traded in active markets at reporting date is based on their quoted market price or dealer price quotations, without any deduction for transaction costs. When current bid and ask prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been any significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, option pricing models, and other relevant valuation models.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For purposes of the fair value disclosure, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

'Day 1' Profit. Where the transaction price in a non-active market is different from the fair value of the other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' profit) in profit or loss unless it qualifies for recognition as some other type of asset. In cases where use is made of data which are not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' profit amount.

Financial Assets

Financial Assets at FVPL. The Group measures a financial asset at FVPL unless it is measured at amortized cost or at FVOCI. At initial recognition, the Group may choose to irrevocably designate a financial asset as measured at FVPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

Financial assets at FVPL are carried in the consolidated statements of financial position at fair value with gains or losses recognized in profit or loss. Interest earned is recorded in interest income while dividend income is recorded in other income when the right to receive payment has been established. The Group determines the cost of investments sold using specific identification method.

The Group's investments in equity securities included under "Marketable securities" are classified under this category (Note 9).

Financial Assets at FVOCI. The Group designates an equity instrument as a financial asset at FVOCI if the equity securities represent investments that the Group intends to hold for a long term for strategic purposes.

At initial recognition, the Group irrevocably elects to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis.

Subsequent to initial recognition, financial assets at FVOCI are measured at fair value and changes therein are recognized in other comprehensive income and presented in the "Fair value reserve" in equity which can be transferred to retained earnings when earned. Dividends earned on holding FVOCI equity securities are recognized as "Dividend income" in profit or loss when the right to receive payment has been established. Gains and losses on equity financial assets at FVOCI are not reclassified to profit or loss and no impairment is recognized in profit or loss.

The Group's investments in equity securities included under "financial assets at FVOCI" account are classified under this category (Note 12).

Financial Assets at Amortized Cost. The Group measures a financial asset at amortized cost if it is not designated as at FVPL and both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are carried at amortized cost using the effective interest method less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are integral part of the effective interest rate. The periodic amortization is included as part of "Interest income" in the consolidated statements of income. Gains and losses are recognized in profit or loss when the financial assets at amortized cost are derecognized or impaired, as well as through the amortization process. Financial assets at amortized cost are included in current assets if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent assets.

The Group's financial assets at amortized cost include cash in banks, cash equivalents, trade and other receivables, deposits and guarantee bonds.

Cash includes cash on hand and in banks which are stated at face value. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition and are subject to an insignificant risk of changes in value.

Business Model Assessment

The Group makes an assessment of the objectives of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reason for such sales and its expectation about future sales activity.

Financial assets that are held for trading or managed and whose performance is evaluated in a fair value basis are measured at FVPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether Contractual Cash Flows are Solely Payments of Principal and Interest

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows for specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money - e.g. periodical reset of interest rates.

Reclassification of Financial Assets and Liabilities

Financial Assets. When, and only when, the Group changes its business model for managing financial assets, it shall reclassify all affected financial assets. Such changes are determined by the Group's senior management as a result of external or internal changes and must be significant to the entity's operations and demonstrable to external parties.

A change in the Group's business model will occur only when the Group either begins or ceases to perform an activity that is significant to its operations; for example, when the entity has acquired, disposed of or terminated a business line.

Financial Liabilities. The Group shall not reclassify any financial liability.

Financial Liabilities at Amortized Cost. This category pertains to financial liabilities that are not designated at FVPL upon inception of the liability. These include liabilities arising from operations or borrowings. The financial liabilities are recognized initially at fair value and are subsequently carried at amortized cost, taking into account the impact of applying the effective interest method of amortization for any related premium, discount and any directly attributable transaction costs. These financial liabilities are included in current liabilities if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent liabilities.

This category includes the Group's trade and other current liabilities and loan payable.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset expired;
- the Group retains the rights to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either: (a) has transferred substantially all the risks and rewards of the assets; or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Impairment of Financial Assets

The Group uses the expected credit losses model (“ECL”) which is applied to all equity instruments measured at amortized cost or FVOCI as well as to issued loan commitments and most financial guarantee contracts. The ECL is a ‘three stage’ approach which is based on the change in credit quality of financial assets since initial recognition. Assets move through the three stages as credit quality changes and the stages dictate how an entity measures impairment losses. Stage 1 includes financial instruments that have not had a significant increase in credit risk since initial recognition or which have low credit risk at the reporting date. For these items, 12-month ECL are recognized. The 12-months ECL are the expected credit losses that result from default events that are possible within 12 months after the reporting date. Stage 2 includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but are not credit impaired. For these items, lifetime expected credit losses are recognized which is the weighted average credit losses with the probability of default as the weight. Stage 3 includes financial assets that are credit impaired at the reporting date. For these items, lifetime expected credit losses are recognized. No impairment loss is recognized on equity investments.

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience, credit assessment and including forward-looking information.

The information analyzed by the Group includes the following, among others:

- actual and expected significant changes in the political, regulatory and technological environment of the debtor or in its business activities.
- payment record - this includes overdue status as well as a range of variables about payment ratios.
- existing and forecast changes in the business, financial and economic conditions.

The Group considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligation to the Group in full, without recourse by the Group to actions such as realizing security (if any is held); or
- the debtor is past due more than 90 days on any material credit obligation to the Group.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

Trade and other receivables are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, the financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The carrying amount of the asset is reduced through use of an allowance account. The impairment loss for the period is recognized in the consolidated statements of income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statements of income, to the extent that the carrying amount of the asset does not exceed its amortized cost at the reversal date.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Spare Parts and Supplies

Spare parts and supplies are valued at the lower of cost and net realizable value. Cost includes all costs attributable to acquisition and is determined using the first-in, first-out method for spare parts and supplies. Net realizable value is the current replacement cost for spare parts and supplies. The carrying amount of spare parts and supplies is reviewed at each reporting date to reflect the accurate valuation in the consolidated financial statements. Spare parts and supplies identified to be obsolete and unusable are written-off and charged as expense for the period.

Property and Equipment

Property and equipment are stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation, amortization and any impairment in value. Such cost includes the cost of replacing part of such property and equipment when that cost is incurred if the recognition criteria are met. Equipment under installation are stated at cost, which includes purchase price and other direct costs. Such assets are not depreciated until such time when the relevant property and equipment are available for its intended use.

When major repairs and maintenance are performed, its cost is recognized in the carrying amount of the property and equipment as a replacement if it is probable that the future economic benefits associated with the expenditure will flow to the Group. Depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

	<u>Number of Years</u>
Lottery equipment	4 - 10 or term of the lease, whichever period is shorter
Leasehold improvements	4 or term of the lease, whichever period is shorter
Office equipment, furniture and fixtures	4
Transportation equipment	4 - 5

The assets' residual values, useful lives and depreciation and amortization methods are reviewed and adjusted if appropriate, at each reporting date, to ensure that the period and methods of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged to current operations. An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Impairment of Nonfinancial Assets Excluding Goodwill

The Group assesses at each reporting date whether there is an indication that nonfinancial assets such as property and equipment, right-of-use assets and intangible assets with definite useful life may be impaired. If any such indication exists and when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's cash-generating unit's fair value less costs to sell or its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses are recognized in profit or loss in the expense category consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group makes an estimate of recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase.

Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs incurred under 'Costs and expenses' account in the consolidated statements of income.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date and any gain or loss is recognized in the consolidated statements of comprehensive income. It is then considered in the determination of goodwill.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with PFRS 9 in profit or loss. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. Subsequently, goodwill is measured at cost less any accumulated impairment in value. Goodwill is reviewed for impairment, at least annually or more frequently, if events or changes in circumstances indicate that the carrying amount may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units, or group of cash generating units that are expected to benefit from the synergies of the combination irrespective of whether other assets or liabilities of the Group are assigned to those units or group of units. Each unit or group of units to which the goodwill is so allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than an operating segment or determined in accordance with PFRS 8, *Operating Segments*.

Impairment is determined by assessing the recoverable amount of the cash generating unit or group of cash generating units, to which the goodwill relates. Where the recoverable amount of the cash generating unit or group of cash generating units is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a cash generating unit or group of cash generating units and part of the operations within the unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained. Impairment loss with respect to goodwill is not reversed.

When business combination involves more than one exchange transaction (occurs in stages), each exchange transaction is treated separately by the Group, using the cost of transaction and fair value information at the date of each exchange transactions, to determine the amount of goodwill associated with that transaction. Any adjustment to fair value relating to the previously held interest is a revaluation and is accounted for as such.

When subsidiaries are sold, the difference between the selling price and the net assets plus goodwill is recognized in profit or loss.

Non-controlling Interest

The acquisitions of non-controlling interest are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognized as a result of such transactions. Any difference between the purchase price and the net assets of acquired entity is recognized in equity. The adjustments to non-controlling interest are based on a proportionate amount of the net assets of the subsidiary.

Transactions that result in changes in ownership interests while retaining control are accounted for as transactions with equity holders in their capacity as equity holders. No gain or loss on such changes is recognized in profit or loss; instead, it is recognized in equity. Also no change in the carrying amounts of assets (including goodwill) or liabilities is recognized as a result of such transactions.

Intangible Assets

Development cost is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequently to initial recognition, an internally generated intangible asset is measured at cost less accumulated amortization and any accumulated impairment losses.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and generally recognized in profit or loss. The estimated useful life is 2 - 3 years. Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessment of the time value of money and those risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Capital Stock

Common stock is classified as equity. Incremental costs directly attributable to the issuance of common stocks are recognized as deduction from equity, net of any tax effects.

Treasury Stock

When capital stock recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognized as a deduction from equity. Repurchased shares are classified as treasury stock. When the treasury stock is sold or reissued subsequently, the amount received is recognized as an increase in equity and the resulting surplus is recognized as additional paid in capital (APIC), while the resulting deficit is applied against the APIC arising from the issuance of treasury stock. Any remaining deficit is applied against retained earnings.

Stock Dividend Distributable

Common stock dividend distributable is classified as equity. This account represents stock dividend declared by the BOD but not yet distributed to Parent Company's stockholders.

Fair Value Reserve

Fair value reserve represents the cumulative change in the fair value of financial assets at FVOCI until they are derecognized. Movements in the reserve are set out in the consolidated statements of changes in equity.

Retained Earnings

Retained earnings include profit/loss attributable to the Group's stockholders and reduced by dividends. Dividends are recognized as a liability and deducted from equity when they are declared. Interim dividends are deducted from equity when they are paid. Retained earnings are appropriated for the cost of treasury stock acquired. When the appropriation is no longer needed, it is reversed. Dividends for the year that are approved after the reporting date are dealt with as an event after the reporting date. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Operating Segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Group's President to make decisions about resources to be allocated to the segment and assess its performance, based on discrete financial information is available.

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products.

Segment Assets and Liabilities. Segment assets include all operating assets used by a segment and consist principally of operating cash, trade and other receivables and property and equipment. Segment liabilities include all operating liabilities and consist principally of trade and other current liabilities. Segment assets and liabilities do not include deferred income taxes, investments and advances, and borrowings.

Inter-segment Transactions. Segment revenue, segment expenses and segment performance include transfers among business segments. The transfers, if any are accounted for at competitive market prices charged to unaffiliated customers for similar products. Such transfers are eliminated in consolidation.

Discontinued Operation

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which:

- represents a separate major line of business or geographic area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographic area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.

When an operation is classified as a discontinued operation, the comparative statements of income are re-presented as if the operation had been discontinued from the comparative years.

Revenue/Income

Revenue from Contracts with Customers. The Group recognizes revenue/income when it transfers control over a good or service. Revenue/income is measured at the transaction price which the entity expects to be entitled in exchange for a good or service. Information about the nature and timing of the satisfaction of performance obligations, significant payment terms and recognition policies follow.

Equipment Rental. Revenue is recognized based on a percentage of gross sales of the lessee's online lottery operations, as computed by the lessee in accordance with the agreement, or a fixed annual rental per terminal in commercial operation, whichever is higher. Minimum lease payment from the fixed annual rental is recognized on a straight-line basis and any excess of the percentage of gross sales is contingent rent recognized in the period earned.

Commission and Distribution Income. Revenue from the distribution of lottery tickets such as lotto, keno, sweepstakes and instant scratch tickets to customers, including retailers and sub-distributors, is recognized upon delivery of the tickets to the customers. Revenue is computed based on a percentage of lottery ticket sales in accordance with the agreement.

License Fee Income. Income is recognized at the point in time at which the license transfers to the customer and when the customer is able to use and benefit from the license. The license fee is measured at the transaction price, adjusted for the effects of a significant financing component to an amount that reflects the cash selling price when the license transferred to the customer.

Service Income. Revenue is recognized when the service to the customer is performed. Service income consists of fees earned by TGTI Services Inc. in providing repairs and maintenance services to Rapid Bingo equipment of AB Leisure Exponent Inc.

Interest. Income is recognized as the interest accrues, taking into account the effective yield on the asset.

Dividends. Income is recognized when the Group's right to receive payment is established.

Other Income. Income is recognized when earned.

Costs and Expenses

Costs and expenses are recognized when incurred and are reported in the consolidated statements of income in the periods to which they relate.

Expenses are also recognized in the consolidated statements of income when a decrease in future economic benefits related to a decrease in an asset or an increase in a liability that can be measured reliably has arisen. Expenses are recognized in the consolidated statements of income on the basis of a direct association between costs incurred and the earnings of specific items of income; on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can only be broadly or indirectly determined; or immediately when an expenditure produces no future economic benefits or when, and to the extent that future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statements of financial position as an asset.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term Leases and Leases of Low-value Assets

The Group has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Group applies PFRS 15 to allocate the consideration in the contract.

Short-term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present, legal or constructive obligation to pay this amount as a result of past service provided by the employees and the obligation can be estimated reliably.

Retirement Cost

The Parent Company and TGTI have noncontributory defined benefits retirement plans covering substantially all of its qualified employees.

The Group's defined benefits obligation is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefits obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefits liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Group determines the net interest expense or income on the net defined benefit obligation or asset for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit obligation or asset, taking into account any changes in the net defined benefit obligation or asset during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed, or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit retirement plan when the settlement occurs.

Actuarial valuations are made with sufficient regularity so that the amounts recognized in the consolidated financial statements do not differ materially from the amounts that would be determined at reporting date.

Foreign Currency Transactions

Transactions denominated in foreign currency are recorded in Philippine peso by applying to the foreign currency amount the exchange rate between the Philippine peso and the foreign currency at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are restated using the closing exchange rate at reporting date. All exchange rate differences including those arising from translation or settlement of monetary items at rates different from those at which they were initially recorded are recognized in the consolidated statements of income in the year such differences arise.

Taxes

Current Tax. Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carry forward benefits of unused tax losses - Net Operating Loss Carry Over (NOLCO) and Minimum Corporate Income Tax (MCIT), to the extent that it is probable that future taxable profit will be available against which deductible temporary differences can be utilized except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretation of tax laws and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Group to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Current tax and deferred tax are recognized in statements of comprehensive income except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT except:

- Where the VAT incurred on the purchase of an asset or service is not recoverable from the tax authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of VAT included.

Basic/Diluted Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the period attributable to equity holders of the Parent Company by the weighted-average number of issued and outstanding common shares during the period.

For the purpose of computing diluted EPS, the net income for the period attributable to equity holders of the Parent Company and the weighted-average number of issued and outstanding common shares are adjusted for the effects of all potential dilutive instruments.

The current and prior-period amounts for basic and diluted EPS are adjusted for transactions that, other than the conversion of potential ordinary shares, adjust the number of ordinary shares outstanding without a corresponding change in resources. This includes stock dividends that do not have cash alternative, from which additional shares issued are treated as if they had been issued since the beginning of the earliest period presented, necessitating retrospective adjustments to EPS.

Related Parties

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities which are under common control with the reporting enterprise, or between and/or among the reporting enterprise and its key management personnel, directors, or its stockholders. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in the notes to the consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the consolidated financial statements but disclosed in the notes to the consolidated financial statements when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Group's consolidated financial position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Group's consolidated financial statements in accordance with PFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the amounts of assets, liabilities, income and expenses reported in the consolidated financial statements at the reporting date. However, uncertainty about these judgments, estimates and assumptions could result in an outcome that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions are recognized in the period in which the judgments and estimates are revised and in any future period affected.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Evaluating Revenue Recognition, Contract Term and Existence of Significant Financing Component

Revenue Recognition

Management determined that the Group's licensing of its distinct brands and trademarks provides a right to use intellectual property as it exists at the point in time at which the license is granted because there is no implicit or implied obligation to undertake activities during the license period.

Contract Term

Management determined that the license granted provides the licensee a valuable right because it enables to tap into the existing instant scratch ticket customers that patronize the Group's distinct brand and trademarks. The existence of such valuable right is considered a substantive penalty for the licensee to terminate the license agreement given that it is costly to rebrand and also to develop and market new instant scratch ticket designs/variants.

Significant Financing Component

Management determined that a significant financing component exists for the license agreement because the license period is long term and the fixed consideration is payable over a period time. The financing component is recognized as interest income when the licensee pays in arrears.

Estimates and Assumptions

The key estimates and assumptions used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates.

Allowance for Impairment Losses on Trade and Other Receivables. The Group maintains allowance for impairment losses on trade and other receivables at a level considered adequate to provide for potential uncollectible receivables. The level of this allowance is evaluated by the management on the basis of factors that affect the collectability of the accounts. These factors include, but not limited to, the age and status of receivable, the length of relationship with the customers, the customer's payment behavior and known market factors. The Group reviews the allowance on a continuous basis.

The Group uses the expected credit losses model in estimating the level of allowance, which includes forecasts of future events and conditions. A credit loss is the difference between the cash flows that are due in accordance with the contract and the cash flows that are expected to be received discounted at the original effective interest rate. The model represents a probability-weighted estimate of the difference over the remaining life of the receivables. The maturity of the Group's receivables is less than one year so the lifetime expected credit losses and the 12-month expected credit losses are similar. In addition, management assessed the credit risk of the receivables as at the reporting date as low, therefore the Group did not have to assess whether a significant increase in credit risk has occurred.

Allowance for impairment losses on trade and other receivables amounted to P141.8 million and P2.1 million as at December 31, 2020 and 2019, respectively. Trade and other receivables - net amounted to P132.4 million and P172.5 million as at December 31, 2020 and 2019, respectively (Note 10).

Estimated Useful Lives of Property and Equipment. The useful life of each of the Group's property and equipment is estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any property and equipment and intangible asset with useful life would increase the recorded operating expenses and decrease noncurrent assets. There were no changes in estimated useful lives in 2020 and 2019.

The carrying amount of property and equipment as at December 31, 2020 and 2019 amounted to P83.5 million and P107.4 million, respectively (Note 13).

Impairment of Non-financial Assets (except Goodwill) including Deferred Tax Assets. PFRSs require that an impairment review be performed on non-financial assets such as property and equipment and right-of-use assets when certain impairment indicators are present. Determining the recoverable amounts of property and equipment and right-of-use assets requires the estimation of future cash flows expected to be generated from the continued use and ultimate disposition of such assets or fair value less costs to sell, whichever is higher. Similarly, the Group reviews the carrying amount of deferred tax assets at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Group's assessment is based on forecast of the amount and timing of future taxable profits and reversal of temporary differences. While it is believed that the assumptions used in the estimation of recoverable values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable amounts and the impairment loss.

As the official document from PCSO confirming the extension of TGTI's ELA is not yet available and with the current COVID-19 pandemic (Note 2), management considered these factors in the impairment assessment of non-financial assets.

Management has considered the external and internal sources of impairment including the review of useful lives of the Group's property and equipment and management assessed that there were no impairment indicators affecting the Group's property and equipment as at December 31, 2020 and 2019. Certain ROU - assets were impaired due to the pre-termination of the lease contracts owing to the cost-cutting measures of the management. Given this case and as stipulated in the lease contracts, the lease deposits shall be forfeited and thus, management also impaired the refundable deposits relating to the ROU - assets (Notes 11, 21).

Certain deferred tax assets pertaining to NOLCO and deductible temporary differences were not recognized because it is not probable that future taxable profit will be available against which the Group can use the benefit therefrom (Note 20).

Management provided full provision for the remaining amount of spare parts and supplies as these are identified as obsolete and unusable owing to the necessary upgrades of hardware and software upon renewal of TGTI's ELA. Management has also determined that these spare parts and supplies have no resale value given that TGTI is the sole provider of the keno operation in the country and the said spare parts and supplies can only be used with the existing keno terminals and system equipment (Note 11).

Below is a summary of the breakdown of the Group's non-financial assets and impairment provision/unrecognized balance:

	Note	Gross Amounts December 31, 2020	Impairment Provision/ Unrecognized Balance	Carrying Amounts December 31, 2020

Impairment of Goodwill. The Group determines whether goodwill is impaired at least annually. This requires the estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating value in use requires management to make an estimate of the expected future cash flows from the cash-generating units and to choose a suitable discount rate to calculate the present value of those cash flows.

Impairment loss on goodwill amounted to nil, P17.0 million and P110.9 million in 2020, 2019 and 2018, respectively. The carrying amount of goodwill is nil as at December 31, 2020 and 2019. (Note 14).

Retirement Cost. The present value of the defined benefit obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost for retirement include the discount rates and rate of future salary increase.

The Group determines the appropriate discount rate at the end of each year. This is the interest rate that is used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligation. In determining the appropriate discount rate, the Group considers the interest rates on government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related retirement liability. Other key assumptions for retirement liability are based in part on current market conditions.

While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Group's retirement liability. The present value of defined benefit obligation amounted to P112.7 million and P128.8 million as at December 31, 2020 and 2019, respectively (Note 23).

Estimating the Transaction Price of Income from Brands and Trademarks License Agreement

The Group adjusts the promised amount of consideration for the time value of money to estimate the transaction price in a contract. In making the assessment, the Group considers the following factors:

- combined effect of the expected length of time of the contract;
- payment terms of the contract; and
- prevailing interest rate in the relevant market.

The discount rate used in determining the financing component of the income from the Group's license agreement is 6.7%. This represents the risk-free interest rate for the payment period plus estimated credit spread. The financing component deducted from the license fee income amounted to P36.5 million in 2018. The accreted interest income amounted to P5.6 million, P8.6 million, and P12.6 million in 2020, 2019 and 2018, respectively (Note 22).

Realizability of Deferred Tax Assets. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Management expects future operations will generate sufficient taxable income that will allow part of the deferred tax assets to be utilized. The Group has unrecognized deferred tax assets amounting to P26.5 million and P17.0 million in 2020 and 2019, respectively. The Group also has derecognized deferred tax assets amounting to P2.2 million in 2020.

Deferred tax assets amounted to P82.4 million and P52.5 million as at December 31, 2020 and 2019 respectively (Note 20).

Determining whether the Group is Acting as Principal or an Agent

The Group assesses its revenue arrangements using the following processes to determine whether it is acting as a principal or an agent:

- identify the specified goods or services to be provided to the customer (which for example, could be a right to a good or service to be provided by another party); and
- assess whether it controls each specified good or service before that good or service is transferred to the customer.

The Group has determined that it is acting as an agent in its commission and distribution income arrangements.

Contingencies. The Group currently has no legal and administrative claims in process and only a couple of tax assessments, costs of which have been accrued for and will not have a material adverse effect on its consolidated financial position and consolidated financial performance.

TMA Australia Pty. Ltd. And TMA Group Philippines, Inc. v. Pacific Online. (RTC 66, Pasig City-Civil Case No. R-PSG-17-02130 [321-108])

- This refers to a complaint for Tortious Interference and payment of Damages filed by TMA Australia Pty. Ltd. and TMA Philippines (the “TMA Group”) against Pacific Online in August 2017. The TMA Group alleged that Pacific Online wrongfully interfered with the implementation of the Contractual Joint Venture Agreement (CJVA) between the TMA Group and PCSO when it entered into several equipment lease agreements with the latter that included a supply of paper provision. The TMA Group also applied for a writ of preliminary injunction (WPI) against Pacific Online and prayed for damages in the amount of at least One Million Pesos (P1,000,000.00).

On 21 March 2018, the RTC granted the TMA Group’s application for WPI, enjoining Pacific Online from continuing to deliver lotto paper to PCSO. During the pendency of this case, the Supreme Court issued a decision in *Philippine Charity Sweepstakes Office v. TMA Group of Companies* (G.R. Nos. 212143, 225457, and 236888, 28 August 2019), stating that the WPI issued by RTC Makati against PCSO directing it to source its paper from TMA was improperly issued, and that the CJVA – the same CJVA in this case before RTC Pasig – could not have been a valid source of rights against PCSO. TMA filed a Motion for Reconsideration, but this was denied by the Supreme Court in a Resolution dated 04 March 2020. Pacific Online then filed a Manifestation and a Supplemental Manifestation asking for the dismissal of the tortious interference case by the TMA Group.

On February 8 2021, the court dismissed the case against Pacific Online.

Measurement of Fair Values. A number of the Group’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The Chief Finance Officer (CFO) has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, if any. The CFO regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the CFO assesses the evidence obtained to support the conclusion that such valuations meet the requirements of PFRSs, including the level in the fair value hierarchy in which such valuations should be classified.

The Group uses market observable data when measuring the fair value of an asset or liability. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques (Note 4).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The methods and assumptions used to estimate fair values for financial assets and liabilities are discussed in Note 25.

The fair value of financial assets amounted to P0.7 billion and P1.1 billion as at December 31, 2020 and 2019, respectively. The fair value of financial liabilities amounted to P188.4 million and P360.0 million as at December 31, 2020 and 2019, respectively (Note 25).

6. Segment Information

The primary segment reporting format is presented based on business segments in which the Group's risks and rates of return are affected predominantly by differences in the products and services provided. The operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group is engaged in the businesses of leasing lottery equipment to PCSO (leasing activities) and sale of lottery tickets like lotto, keno, sweepstakes and instant tickets (distribution and retail activities), among others. Revenues generated from the leasing activities account for 98%, 69%, and 75% of the Group's revenues in 2020, 2019 and 2018, respectively.

Performance is measured based on segment income before income tax, as included in the internal management reports that are reviewed by the Group's President. Segment net income is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Information regarding the results of each reportable segment is shown below:

7. Discontinued Operation

On February 13, 2020, the Group sold its Distribution and Retail Activities segment (Note 6). Management committed to a plan to sell this segment early in 2020, following a strategic decision to place greater focus on the Group's core business. With the online gaming business fast becoming a more challenging environment owing to the proliferation of other forms of gaming, legal or otherwise, it has been decided by the BOD that the Group should focus its resources to its principal business of providing modern and efficient online gaming facilities and equipment to its customers.

The Distribution and Retail Activities segment was not previously classified as held-for-sale or as a discontinued operation. The comparative consolidated statements of income and OCI have been re-presented to show the discontinued operation separately from continuing operation.

A. Results of Discontinued Operation

		P132,373,468	P172,501,609

Trade receivables are generally on a 30-to-60-day credit terms. The risks associated on this account are disclosed in Note 25.

Nontrade receivables pertain to reclassified amounts from advances to subsidiaries of the Parent Company to LCC Group. The management assessed that there may be delayed payments from LCC Group due to the impact of COVID 19 pandemic to its operations and since the balances pertain to long outstanding advances, the management assessed that provision is necessary.

Due to the suspension of PCSO games on July 27, 2019 for 2 months and on March 17, 2020 for 4.5 months (Note 2), PMLC was not able to supply and distribute instant scratch tickets to its customers. The management expects delay on the payment for those months, thus, the management assessed that the accrued license fee income equivalent to those months with no operations may not be recoverable.

The movements in allowance for impairment losses as at December 31 are as follows:

Accounts payable generally has a 30-to-45-day credit terms.

Consultancy, software and license fees, and management fees payable relate to the following agreements:

a. Consultancy Agreements

The Group hired the services of several consultants for its gaming operations. Consultancy fees are based on a certain percentage of the sales of certain variants of PCSO lottery. Consultancy fees amounted to P30.3 million in 2018 (Note 19).

b. Scientific Games

On February 15, 2005, the Parent Company entered into a contract with Scientific Games, a company incorporated under the laws of the Republic of Ireland, for the supply of computer hardware and operating system software. Under the terms of the "Contract for the Supply of the Visayas-Mindanao Online Lottery System," Scientific Games will provide 900 online lottery terminals and terminal software necessary for the Parent Company's leasing operations.

In consideration, the Parent Company shall pay Scientific Games a pre-agreed percentage of the revenue generated by the terminals from PCSO's conduct of online lottery operation using the computer hardware and operating system provided by Scientific Games. The contract shall continue as long as the Parent Company's ELA with PCSO is in effect.

On October 2, 2012, the Parent Company and Scientific Games amended the contract to extend the period from April 1, 2013 until August 31, 2015, and provide for the supply of additional terminals.

On November 20, 2015, the Parent Company and Scientific Games further amended the contract to extend the period from September 1, 2015 until July 31, 2018 and provide for the supply of 1,500 brand new terminals to the Parent Company. The amendment also removed the provision for the Inactive Terminal Fee of US\$25.00 per terminal per month for any additional terminals not connected to the software provided by Scientific Games.

In August 2018, the contract with Scientific Games was further amended to extend the period until July 31, 2019.

On September 4, 2019, the contract with Scientific Games was further amended to extend the period until July 31, 2020.

Software and license fees amounted to P11.5 million, P22.0 million, and P37.8 million in 2020, 2019 and 2018, respectively (Note 19).

c. Intralot

- i. On March 13, 2006, the Parent Company entered into a contract with Intralot (Intralot Greece), a company incorporated under the laws of Greece, for the supply of online lottery system necessary for the operation of a new online lottery system effective December 8, 2006. Under the terms of the "Contract for the Supply of the Visayas-Mindanao Online Lottery System," Intralot will provide the Parent Company the hardware, operating system software and terminals and the required training. In consideration, the Parent Company shall pay Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO's conduct of online lottery operation or a fixed amount of US\$110 per terminal per month, whichever is higher. The contract shall continue as long as the Parent Company's ELA with PCSO is in effect.

On July 10, 2006, Intralot entered into an agreement with Intralot Inc. (Intralot USA), a subsidiary domiciled in Atlanta, Georgia, USA, wherein Intralot Greece assigned to Intralot USA the whole of its contract with the Parent Company, including all its rights and obligations arising from it. The Parent Company will pay Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO's online lottery operations or US\$110.00 per terminal whichever is higher.

On September 6, 2013, the Parent Company and Intralot further amended the contract for the supply of additional terminals to enable the Parent Company to expand its online lottery operations. Effective April 1, 2013, the Parent Company and Intralot agreed to lower the percentage of revenues paid by the former to the latter.

In April 2016, the Parent Company and Intralot again amended the contract for the latter to supply additional reconditioned or refurbished lotto terminals to the former and extend the term of the contract until August 31, 2018.

On September 25, 2018, the contract with Intralot was further amended to extend the period until July 31, 2019.

On July 1, 2019, the contract with Intralot was further amended to extend the period until July 31, 2020.

Software and license fees amounted to P16.9 million, P76.1 million, and P96.4 million in 2020, 2019 and 2018, respectively (Note 19).

- ii. On April 1, 2004, TGTI entered into a contract with Intralot for the supply of online lottery system necessary for the operation of a new online lottery system effective until September 30, 2020. In consideration, the TGTI shall pay Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO's conduct of online lottery operation. On July 2008, the contract was amended such that instead of receiving monthly remuneration calculated as a percentage of the gross receipts of TGTI from its ELA with PCSO, Intralot will now receive monthly remuneration calculated on a percentage basis of the gross receipts of PCSO from its online keno games.

On March 22, 2011, the contract was further amended for Intralot to supply additional online keno terminals to TGTI and reduced the percentage charged by Intralot to TGTI or US\$60.00 per terminal per month on an average basis, whichever is higher. TGTI also undertook a letter of guarantee amounting to P20.0 million not later than March 28, 2011 in order for TGTI to secure the payment of Intralot's remuneration. The said guarantee was previously recognized under "Other noncurrent assets" in the consolidated statements of financial position.

Software and license fees amounted to P12.1 million, P42.7 million, and P61.6 million in 2020, 2019 and 2018, respectively (Note 19).

d. Management Agreement

The Parent Company has a Management Agreement with AB Gaming and Leisure Exponent Specialist, Inc. for the latter to provide investment and management counsel and to act as manager and overseer of the Parent Company's operations. In consideration for these services, the Parent Company shall pay a monthly fee of P0.1 million and an amount equivalent to a certain percentage of the Company's earnings before interest, taxes, depreciation and amortization (EBITDA).

TGTI has Management Agreement with AB Gaming and Leisure Specialist, Inc. (AB Gaming) for its online keno operations. In consideration, TGTI will pay AB Gaming a management fee equivalent to a certain percentage of TGTI's earnings before interest, taxes, depreciation and amortization.

The Bicameral Committee had settled the disagreeing provisions of House Bill No. 4157 and Senate Bill No. 1357 of Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

Among the reforms, the following are the significant provisions:

- Adoption of graduated regular corporate income tax (RCIT) rate effective 01 July 2020 based on total assets of domestic corporations as follows:
 - domestic corporations with total assets of Php100 million and below
 - with taxable income of Php5 million and below - 20% RCIT
 - with taxable income of more than Php5 million - 25% RCIT
 - domestic corporations with total assets of more than Php100 million - 25% RCIT
- Adoption of 25% RCIT for resident foreign corporations effective 01 July 2020
- Adoption of 25% tax rate for nonresident foreign corporations effective 01 July 2020
- Reduction of minimum corporate income tax (MCIT) from 2% to 1% for a period of three years (effective 01 July 2020 until 30 June 2023)
- Existing enterprises under income tax holiday (ITH) shall be allowed to continue availing the ITH until the remaining period ends. Existing enterprises enjoying the 5% tax based on gross income shall be allowed to continue to enjoy the 5% tax for a period of 10 years, regardless of number of years it has been enjoying the 5% tax rate. After the expiration of the transitory period, they have the option to avail of the tax incentives under CREATE.

This approval of CREATE Act in the Bicameral Committee is an important step towards its enactment into law. This has been endorsed for the President's signature.

21. Lease Commitments

Leases as Lessee (PFRS 16)

The Group leases office space, outlets and warehouses. The leases typically run for a period of 2-5 years, with an option to renew the lease after that date.

i. Right-of-Use Assets

Right-of-use assets related to leased properties whose lease terms are more than 12 months.

On September 1, 2005, the Commissioner of Bureau of Internal Revenue (BIR) signed Revenue Regulations (RR) No. 16-2005, which took effect on November 1, 2005. The RR, among others, introduced the following changes:

- a. The government or any of its political subdivisions, instrumentalities or agencies, including government-owned or controlled corporations (GOCCs) shall, before making payment on account of each purchase of goods and/or of services taxed at 12% VAT pursuant to Sections 106 and 108 of the Tax Code, deduct and withhold a final VAT due at the rate of 5% of the gross payment thereof; and
- b. The 5% final VAT withholding rate represents the net VAT payable of the seller. The remaining 7% effectively accounts for the standard input VAT for sales of goods or services to government or any of its political subdivisions, instrumentalities or agencies including GOCCs, in lieu of the actual input VAT. Should actual input VAT exceed 7% of gross payments, the excess may form part of the seller's expense or cost. On the other hand, if actual input VAT is less than 7% of gross payment, the difference must be closed to income.

The Group recognizes the excess of standard input VAT over actual input VAT as income or expense which is presented as "Excess input VAT" in the consolidated statements of income.

Others consist of mainly miscellaneous income, bank charges, and seller's prize from winning tickets exceeding P10,000.

23. Retirement Plan

The Parent Company, TGTI, LCC and Nine Entities have funded, noncontributory defined benefits plans covering substantially all of its regular employees. Annual cost is determined using the projected unit credit method. The latest actuarial valuation date is December 31, 2020. Valuations are obtained on a periodic basis.

The Retirement Plans of the Parent Company, LCC and TGTI provide a retirement benefit equal to 22.5 days' pay for every year of credited service. The Plans meet the minimum retirement benefit specified under Republic Act 7641.

The retirement plans of the Parent Company, LCC and TGTI are administered by a trustee bank under the supervision of a Retirement Plan Committee (Committee), as appointed by the Companies in the Trust Agreement. The Trustee is responsible for the investment strategy of the retirement plans.

During 2019, the Group amended their plan asset to include the death and disability benefits which resulted to the recognition of past service cost.

On February 13, 2020, LCC Group was sold to a third party (Note 7).

Others	(2,052,592)	1,666,943
	P64,259,827	P98,915,237

The Parent Company and TGTI will contribute P10.0 million and P2.0 million to the benefit plan in 2020.

The principal assumptions used in determining the retirement liability of the Group are shown below:

	2020	
	Parent Company	TGTI
Discount rate	3.95%	3.96%
Future salary increase	8.00%	8.00%

	2019		
	Parent Company	LCC	TGTI
Discount rate	5.25%	5.10%	5.22%
Future salary increase	8.00%	5.00%	8.00%

Assumptions for mortality rates are based on The 2001 CSO Table - Generational (Scale AA, Society of Actuaries). Assumptions for disability rates are based on The Disability Study, Period 2 Benefit 5 (Society of Actuaries).

As at December 31, 2020, the weighted average duration of the retirement liability of the Group is 13.9 years to 14.9 years.

Maturity analysis of total benefit payments of the Group:

Period	Expected Benefit Payments		
	Parent Company	TGTI	Total
2021	P14,627,349	P10,087,716	P24,715,065
2022	1,054,002	255,428	1,309,430

2024	-	-	-
2025	4,009,672	-	4,009,672
2026-2029	19,827,551	-	19,827,551

As at December 31, 2020, the reasonable possible changes to one of the relevant actuarial assumptions holding other assumptions constant, would have affected the defined benefit obligation by the amounts below:

	1 Percent Increase	1 Percent Decrease
Discount rate	(3,173,255)	4,089,617
Future salary increase rate	3,876,328	(3,093,570)

These defined benefit plans expose the Group to actuarial risks, such as longevity risk, interest rate risk and market risk.

Asset-liability Matching (ALM)

The Group does not perform any ALM study. The overall investment policy and strategy of the retirement plan is based on the Group's suitability assessment, as provided by its trust bank in compliance with the Bangko Sentral ng Pilipinas (BSP) requirements.

24. Earnings Per Share (EPS)

The following table presents information necessary to calculate basic and diluted EPS during the year:

	2020	2019	2018
Issued - beginning of year	P895,330,946	P447,665,473	P447,665,473

Effect of 100% stock dividends	-	-	(1,113,439)
Effect of acquisition of treasury shares, after stock dividends (b)	P -	P -	(P2,226,878)
Weighted average number of shares outstanding during the year for Basic EPS and Diluted EPS (a+b)	844,863,962	844,863,962	845,593,084
Net income (loss) attributable to equity holders of the Parent Company (c)	(P378,508,762)	(P319,411,018)	P302,659,366
Basic EPS and Diluted EPS (c/(a+b))	(P0.4480)	(P0.3781)	P0.3579

Basic EPS is calculated by dividing the net income for the period by the weighted average number of shares outstanding during the year.

During 2019, the Group issued a 100% stock dividend to its shareholders. The earnings per share presented is computed with retrospective application of the stock dividends to the earliest period presented.

Diluted EPS is calculated in the same manner as basic EPS adjusted for dilutive instruments. The calculation for 2017 includes the effect of the 100% stock dividend declared during the year. The increase in authorized capital stock was approved by the SEC on February 28, 2019. (Note 17).

25. Financial Instruments

Financial Risk Management Objectives and Policies

The Group's principal financial instruments are composed of cash in banks, cash equivalents, trade and other receivables, marketable securities, financial assets at FVOCI, refundable deposits, guarantee bonds, trade and other current liabilities, loan payable, lease liabilities, obligations under finance lease and installment payable. The main purpose of these financial instruments is to provide financing for the Group's capital expenditures and operations. The Group has various other financial assets and liabilities such as trade and other receivables, refundable deposits, guarantee bonds, trade and other current liabilities, which arise directly from its operations. The main risks arising from the Group's financial instruments are credit risk, equity price risk, liquidity risk and foreign currency risk. There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks. The Group's BOD and management review and agree on the policies for managing each of these risks as summarized below:

Credit Risk

The Group's receivables arise mainly from the ELA with PCSO and the license agreement with PGEC. Since the Group has significant concentration of credit risk on its receivable from PCSO and PGEC, it is the Group's policy that all credit terms specified in the ELA and the license agreement are complied with and payment terms are observed. With respect to other receivables, the Group manages credit risk by transacting only with recognized, creditworthy third parties. It is the Group's policy that the BOD approves the major transactions with third parties. Receivable balances are monitored on an ongoing basis with the objective that the Group's exposure to bad debts is not significant.

With respect to credit risk arising from the other financial assets of the Group, which are composed of cash in banks, marketable securities, financial assets at FVOCI, refundable deposits and guarantee bonds, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The table below shows the maximum exposure to credit risk for the Group's financial assets as at December 31, 2020 and 2019 without taking into account any collateral and other credit enhancements:

Grade A pertains to those cash in banks and guarantee bonds that are deposited in reputable banks, investments with reputable publicly listed companies and receivables from PCSO which are consistently collected before the maturity date. Grade B pertains to receivables that are collected on their due dates even without an effort from the Group to follow them up. Grade C pertains to receivables which are collected on their due dates provided that the Group made a persistent effort to collect them.

Estimating ECL

The table below presents the Group's exposure to credit risk and shows the credit quality of the financial assets as at December 31, 2020 by indicating whether the financial assets are subjected to 12-month ECL or lifetime ECL. Assets that are credit-impaired are separately presented.

The Group computes impairment loss on trade and other receivables based on past collection experiences, current circumstances and the impact of future economic conditions, if any, available at the reporting period. Loss rates are based on actual credit loss experience. Any adjustments to the loss rates for forecasts of future economic conditions are not expected to be material. The Group applies the simplified approach in providing for ECL prescribed by PFRS 9, which permits the use of the lifetime expected loss provision and applies a provision matrix.

Cash in banks and cash equivalents are considered of good quality as these pertain to deposits in reputable banks.

Impairment on cash has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash has low credit risk based on the external credit ratings of the counterparties.

Receivables and refundable security deposits are considered of good quality since these are transacted with counterparties with high external credit ratings. The credit quality of these financial assets is considered to be high grade.

Marketable Securities and Investment in Stocks are considered good quality since these are invested in companies listed in the PSE.

Equity Price Risk

Equity price risk is the risk that the fair value of equity investments decreases as a result of changes in the value of individual stock. The Group's current exposure to equity price risk relates primarily to the Group's quoted marketable securities and financial assets at FVOCI. The Group monitors the equity investments based on market expectations. Significant investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the BOD.

The following table demonstrates the sensitivity to a reasonably possible change in equity price, with all other variables held constant, of the Group's consolidated income before income tax and equity:

Marketable Securities

Increase (Decrease) in Equity Price	Effect on Consolidated Income before Income Tax
2020	
5%	P4,213,046
(5%)	(4,213,046)
2019

2019	
8%	27,810,470
(8%)	(27,810,470)

Liquidity Risk

Liquidity risk is the risk that the Group will be unable to meet its payment obligations when they fall due under normal and stress circumstances and equity securities. To limit this risk, the Group closely monitors its cash flows and ensures that credit facilities are available to meet its obligations as and when they fall due. The Group also has a committed line of credit that it can access to meet liquidity needs.

The Group maintains sufficient cash to finance its operations. Any excess cash is invested in short-term money market placements and equity securities. These are maintained to meet the requirements for additional capital expenditures, maturing obligations and cash dividends.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

		2020				
	Note	Less than 3 Months	3 - 6 Months	6 - 12 Months	More than 12 Months	Total

Foreign Currency Risk

The Group has transactional currency exposures. Such exposure arises from cash in banks and payables to certain suppliers which are denominated in U.S. dollar (US\$). The Group's financial instruments which are denominated in foreign currency include cash and consultancy and software and license fees payable. The Group maintains a US\$ account to match its foreign currency requirements.

As at December 31, 2020 and 2019, assets and liabilities denominated in US\$ include cash in banks amounting to P19.6 million (\$409,091) and P51.8 million (\$1,022,373), and trade and software and license fees payables amounting to P80.3 million (\$1,672,996) and P17.2 million (\$339,792), respectively.

In translating foreign currency-denominated monetary assets and liabilities into peso amounts, the exchange rates used were P48.00 and P50.64 to US\$1, the Php to US\$ exchange rates, as at December 31, 2020 and 2019, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the Php-US\$ exchange rates, with all other variables held constant, of the Group's consolidated income before tax. There is no other impact on the Group's equity other than those already affecting profit or loss.

Increase (Decrease) in US\$ Exchange Rate	Effect on Income before Income Tax	Effect on Equity
2020		
5%	(P3,033,372)	(P2,123,361)
(5%)	3,033,372	2,123,361
2019		
5%	(1,728,296)	(1,209,807)
(5%)	1,728,296	1,209,807

The increase in US\$ rate means stronger US\$ against Php while the decrease in US\$ means stronger Php against the US\$.

Capital Management

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders, reacquire its own shares, or issue new shares. The Group monitors capital on the basis of current ratio and debt-to-equity ratio. The Group's strategy, which was unchanged from prior year, was to maintain current ratio and debt-to-equity ratio at manageable levels.

There were no changes in the Group's approach to capital management during the year.

As at December 31, 2020 and 2019, the Group is compliant with the minimum public float requirement by the PSE.

The Group defines capital as capital stock, additional paid-in capital, treasury stock dividend distributable and retained earnings. Other components of equity are excluded from capital for purposes of capital management.

There were no changes in the Group's approach to capital management during the year. As at December 31, 2020 and 2019, the Group is compliant with the minimum public float requirement by PSE.

The Group's current ratio, calculated as total current assets over total current liabilities, and debt-to-equity ratio, calculated as total liabilities over equity, as at December 31, 2020 and 2019 are as follows:

Current Ratio

	2020	2019
Current assets	P543,642,893	P864,695,033
Current liabilities	187,891,135	360,318,424
Current ratio	2.89:1.00	2.40:1.00

Debt-to-Equity Ratio

	2020	2019
Total liabilities	P240,263,489	P399,410,076
Total equity	863,140,552	1,313,419,353
Debt-to-equity ratio	0.28:1.00	0.30:1.00

To address the prohibition in maintaining excess retained earnings over the paid in capital under Sec. 43 of the Corporation Code, the Group intends to continuously declare dividends and is considering various options in line with its business objectives and strategies and state of the gaming industry.

Fair Value of Financial Instruments

Set out below is a comparison by category of carrying amounts and fair values of all the Group's financial instruments as at December 31, 2020 and 2019:

*Inclusive of noncurrent portion of accrued license fee income amounting to P70.3 million and P96.6 million and exclusive of advances amounting to P6.8 million and P56.2 million as at December 31, 2020 and 2019, respectively.

**Excluding statutory liabilities of P1.5 million and P1.8 million in 2020 and 2019, respectively.

The carrying amounts of cash and cash equivalents, trade and other receivables (excluding accrued license fee income), deposits, trade and other current liabilities and loan payable approximate their fair values due to the relatively short-term maturities of the financial instruments.

The carrying amount of accrued license fee income is based on present value using a discount rate that approximates the prevailing market rate.

The fair values of marketable securities and financial assets at FVOCI are based on quoted market prices.

The carrying amounts of guarantee bonds, deposits, lease liabilities, obligations under finance lease, and installment payable approximate their fair values since the Group does not anticipate that the effect of discounting using the prevailing market rate is significant.

26. Impacts of COVID-19

On March 8, 2020, under Proclamation 922, the Office of the President has declared a state of public health emergency and subsequently on March 16, 2020, under Proclamation 929, a state of calamity throughout the Philippines due to the spread of the COVID-19. To manage the spread of the disease, the entire Luzon has been placed under an Enhanced Community Quarantine (ECQ), effective from March 17, 2020 until April 12, 2020, which involved several measures including travel restrictions, home quarantine and temporary suspension or regulation of business operations, among others, limiting activities related to the provision of essential goods and services. The ECQ was further extended until May 15, 2020. On May 12, 2020, the President has approved the proposal of the Inter-Agency Task Force for the Management of Emerging Infectious Disease (IATF-EID) to place Metro Manila, Laguna Province, and Cebu City under Modified ECQ until May 31, 2020. On May 29, 2020, the President approved the IATF Resolution No. 41 changing the MECQ status of Metro Manila to General Community Quarantine (GCQ) effective June 1, 2020 to June 15, 2020. The GCQ was further extended until February 28, 2021.

The Group's operation was suspended from March 17, 2020 to July 31, 2020 (4.5 months) due to the announcement of PCSO on March 17, 2020, as per Proclamation No. 922 and RA 11332, to suspend their gaming activities effective 12:00 noon to comply with the National Government's several measures to manage the spread of COVID-19. Despite the impact on the revenue on lotto and keno due to the temporary closure of lotto and keno outlets, the management noted an increase in the equipment rental revenues in the last quarter of the reporting period thus management foresees that its business will be back as usual in the first quarter of 2021 and the Group would be able to catch-up for its lost revenue during the first half of 2021.

Despite or amidst this event, the consolidated financial statements have been prepared on a going concern basis of accounting as of reporting date since the Group implemented all measures to mitigate the risks on their business operations and has sufficient liquidity to continue operating through the pandemic and for the foreseeable future.

SUPPLY CHAIN

Partnerships

POSC has a policy of forming partnerships with other organizations, which complement its own offerings and bring increased benefits to its customers.

POSC's technology partners for the online lottery system are Scientific Games International, Inc. (SGI) and Intralot S.A. Integrated Lottery Systems & Services (Intralot). SGI and Intralot are both leaders in the global lottery and gaming industry with experience of over 40 years and 20 years, respectively. SGI has been working with over 100 lotteries in 50 countries in 6 continents; while Intralot has presence in 57 jurisdictions in 5 continents. Both are members of the World Lottery Association (WLA). They are certified by various international accreditation agencies.

Supply Chains

In order to provide our products and services to our customers, a number of important supply chain assets are in place. The major ones are:

- Lottery Terminals and Draw Equipment
- Equipment Spare Parts
- Third Party Warehousing/Logistics
- Co-location Facilities for Data Center
- Subscriber Identity Module (SIM) Cards
- Modems and Routers
- Leased Lines
- System Server and other peripherals
- Security system

	<p>Relationships with Other Interested Parties</p> <ul style="list-style-type: none"> • Equipment Maintenance – provision of equipment maintenance and repair services. • Telecommunications – provision of network connectivity between terminals and data center. • Contractors – provision of office improvement services, web site development and other services.
102-10	<p>SIGNIFICANT CHANGES TO THE ORGANIZATION AND ITS SUPPLY CHAIN</p> <p>2020 has brought about some challenges due to the COVID-19 pandemic and quarantine restrictions. This has greatly affected the Company's delivery and maintenance of its terminals installed nationwide, as 1,800 terminals had to be replaced. In addition, spare parts deliveries experienced delayed shipping schedules and the various quarantine rules in each LGU made it difficult to reach agents for maintenance.</p> <p>Since the data centers also had to be kept running despite the closure of lotto and keno operations, the Company had to provide lodgings to certain employees close to our data centers due to curfew.</p> <p>Another challenge that the Company faced in the past year was the increase in employee resignations for the reason of employees wanting to be close to their families during the pandemic.</p>
102-11	<p>PRECAUTIONARY PRINCIPLE OR APPROACH</p> <p>Pacific Online Systems Corporation (POSC) shall consider the external and internal context of the organization and the requirements of interested parties to determine the risks and opportunities that need to be addressed to:</p> <ul style="list-style-type: none"> • Ensure the integrated management system can achieve its intended outcomes; • Prevent, or reduce, undesired effects; and • Achieve continual improvement. <p>POSC shall plan actions to address the risks and opportunities and how to:</p> <ul style="list-style-type: none"> • Integrate and implement the actions into its integrated management system processes; and • Evaluate the effectiveness of these actions. <p>POSC shall apply an information security risk assessment process, which also applies to any opportunities identified on the information assets:</p>

EXTERNAL INITIATIVES

POSC has chosen a list of UN Sustainable Development Goals and Targets that the Company will focus its sustainability efforts on:

UN SDG & TARGETS	INITIATIVES
<p>#3 Good Health and Well-Being: Ensure healthy lives and promote well-being for all at all ages</p> <p>3.8 Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all</p>	<p>The Company ensures that its employees have employee healthcare HMO full coverage and insurances. On top of that, health and wellness programs to promote the strengthening of the mind and the body are scheduled regularly. Here is a list of initiatives prepared by the company:</p> <ol style="list-style-type: none"> 1. Full HMO coverage upon hiring and extended to 2 dependents upon regularization 2. Life Insurance 3. Group Accident Insurance 4. Annual Physical Exam / Executive Check-Up <p>During the COVID-19 pandemic, where the lives and routines of employees were overhauled significantly, the Company prepared initiatives to help its employees adjust to the new normal and fortify their mental health and standing. Initiatives include:</p> <ol style="list-style-type: none"> 1. Flexible work arrangements such as telecommuting and work from home 2. Shuttle services and/or temporary accommodation for essential employees 3. Vitamins and PPEs issued to employees 4. COVID financial assistance fund

		<p>5. Online sessions: "Taking care of our Mental Health during the Pandemic", "Taking Care of Our Physical Health During the Covid-19 Pandemic - Practical Tips and Home Remedies", chair yoga and "Kumustahan" for health and wellness, motivational videos</p> <p>We also support this goal for the local community. In both Manila and Cebu, a bloodletting drive was conducted this year to encourage people to donate their blood on a voluntary basis for the benefit of those in need and the Red Cross Blood Bank. This has been the 5th year of the Company's annual bloodletting event.</p> <p>133 Boxes of Vitamins were donated c/o Caritas Manila to the affected communities and survivors of the Taal Volcano eruption.</p>
	<p>#4 Quality Education: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university</p> <p>4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p> <p>4.6 By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy</p>	<p>To promote and support quality education opportunities for all, we support Caritas Manila's Youth Servant Leadership & Education Program. The Youth Servant Leadership and Education Program (YSLEP) is the flagship program of CARITAS MANILA that aims to break the chains of poverty in the Philippines by providing opportunities for a college education for poor, underprivileged but deserving youth. In 2020, we provided scholarships to 2 youths, and since June 2017, we have had 8 beneficiaries.</p>
	<p>#5 Gender Equality: Achieve gender equality and empower all women and girls</p> <p>5.1 End all forms of discrimination against all women and girls everywhere</p> <p>5.5 Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life</p>	<p>We believe in a just and equitable vision for the country, without discrimination against all women and girls and ensuring them equal opportunities for leadership.</p> <p>In Pacific Online Systems Corporation, the majority of Senior Management/leadership of positions (62%) are women.</p>

	<p>#8 Decent Work and Economic Growth: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p> <p>8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value</p> <p>8.8 Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment</p>	<p>Our commitment to our nation's economic growth and employment situation is shown by the P792.76 million Total Economic Value distributed by the Company in the past year. We provide decent jobs, with our entry rate 11% above the minimum wage in Manila and 19% in Cebu. 15 is the average number of years of employment for our senior management employees, 12 for middle management and 7 for rank-and-file. We believe in a world without discrimination, and we make efforts to provide productive employment and decent work for all people.</p> <p>We also support and protect labor rights and promote a safe and secure working environment for our employees. Our committee sets and ensures Occupational Health & Safety standards, and as we recognize that our lifeblood is our field service representatives, who travel almost every day through ways and roads of varying quality in the countryside, we provide them protection and accident insurance.</p> <p>Here is a list of some wellness, health and safety initiatives provided for by the company:</p> <ol style="list-style-type: none"> 1. Creation of Occupational Safety & Health Committee 2. Emergency Procedure/ Guidelines 3. First Aid Training 4. Disaster Preparedness Training 5. PPE for selected personnel 6. Group Accident Insurance
	<p>#12 Responsible Consumption and Production: Ensure sustainable consumption and production patterns</p> <p>12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse</p> <p>12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle</p>	<p>We recognize that as a business that is centered on systems maintenance, there must be measures to mitigate the waste products. Our company practices recycling of the parts of terminals, to ensure that not everything goes to waste and to prolong the life of the equipment. We also partner with DENR accredited suppliers for waste management to ensure that the parts and waste that are indeed unusable for us go into the right hands for proper disposal or reuse.</p> <p>The publication of our second annual sustainability report aligned to GRI standards is part of a country-wide practice to adopt sustainable practices and integrate this information into our reporting and disclosures.</p>

<u>STRATEGY</u>	
102-14	<p>STATEMENT FROM SENIOR DECISION MAKER</p> <p>As the world faced and still continues to deal with the looming specter of COVID-19, Pacific Online recognizes the primacy of sustainability in its operations and corporate goals. We maintain our duty to help steward the nation, the environment, and the world, in conjunction with progressing towards our goals as a company. Our second annual Sustainability Report, prepared in accordance with Global Reporting Initiative (GRI) standards, carries on from last year's maiden report, and details the</p>

	<p>Company's performance on economic, social, environmental, and governance issues.</p> <p>No one was spared from the pandemic which dealt a blow to our country and company alike, so Pacific Online made it a priority to protect and safeguard its employees – the people at the center of our mission. Our first priority was to make sure our workers were safe and secure, both financially and medically. During the months-long Enhanced Community Quarantine (ECQ), when lottery operations were temporarily suspended, payroll was still released, flexible work arrangements and shuttle services were scheduled, financial and medical assistance and loan applications were extended. Before office locations were allowed to reopen, health and safety protocols were formed and strictly enforced to ensure the continued safety of our staff.</p> <p>In these challenging times, we reaffirmed our partnership with PCSO and commitment to keeping the Philippine online gaming sector running to provide hope to the public who need it. Despite the temporary suspension of lottery games, we kept our central servers operating so that when the suspension was eventually lifted, the online gaming system could run again seamlessly. Pacific Online remains wholeheartedly committed to full transparency, efficiency, and accountability in remitting the proper dues and revenues to PCSO and its charity fund.</p> <p>Our efforts did not stop there. The Company's awareness campaign, in partnership with DICT, Cybersafe Philippines, which aims to protect children against online sexual abused and exploitation, has expanded its reach and impact in the past year. Multimedia campaigns such as a call-to-action music video and the CyberChat TV program were launched to help bolster awareness amongst the public on these issues. Coordination was also successfully done with government officials – a comprehensive anti-cyberbullying bill was committed to through our efforts. Cybersafe continues to initiate and foster open dialogue on these issues and problems, to promote action, policy development and awareness.</p> <p>We believe in being a responsible part of the country and community, remitting proper taxes to the government, as its partner in promoting responsible gaming. The cornerstone for a sustainable and legitimate program for the government's charity works still lies in the country's vibrant online gaming sector.</p>

THE MANAGEMENT APPROACH AND ITS COMPONENTS

Our sustainability journey began with the mandate of our Board of Directors to take a more active role in improving the Company's corporate governance and sustainability programs. Headed by our Management team, POSC continues to establish, maintain, and improve the sustainable practices of the Company through target setting, progress monitoring, and analysis of our outputs.

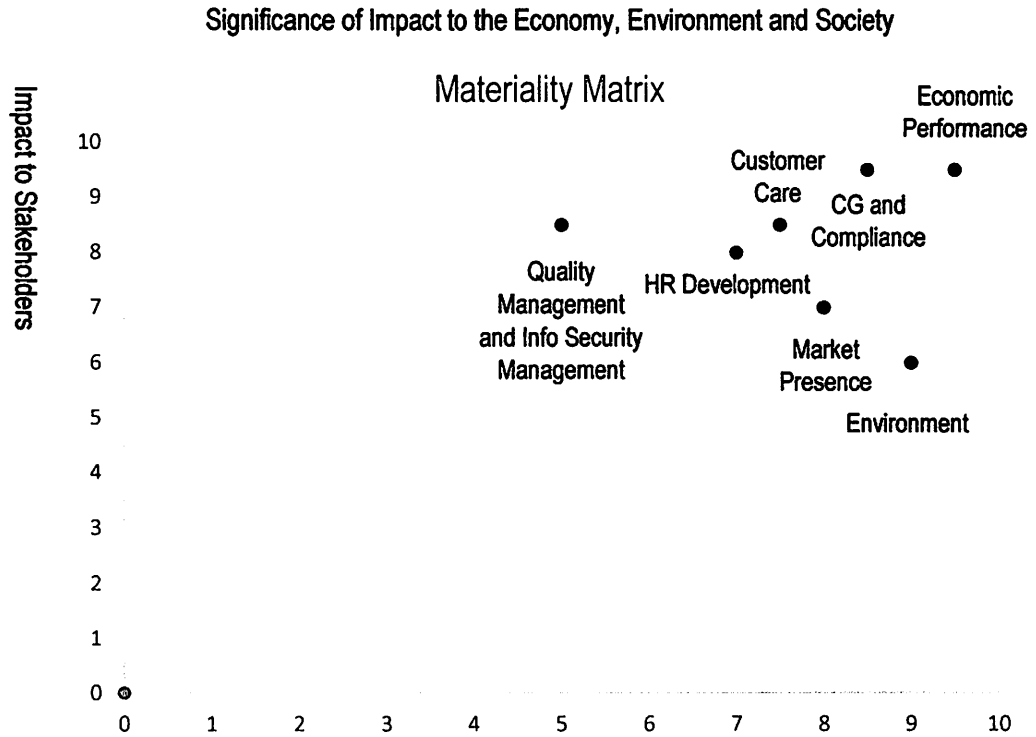

POSC'S SUSTAINABILITY FRAMEWORK

The Company is able to achieve sustainable development through 3 major pillars:

- Partnership Enhancement
 - Improving our services for the benefit of the PCSO and its agents
 - Partnering with accredited external providers for responsible disposal
 - Compliance with standards of our regulators
- Resource Optimization
 - Prudent fiscal management
 - Sustainable operating models
 - Business continuity planning and disaster recovery protocols
 - Re-use of equipment and parts to maximize machines and minimize waste
 - Implementation of electronic systems to reduce paper consumption
- Value Creation
 - Economic value generation and distribution
 - Good governance and risk management
 - Human capital development
 - Creation of systems to improve data analysis for efficient operations

OUR MATERIALITY PROCESS

Our team reviewed the critical factors affecting our business and its impact on our stakeholders. From there, we were able to generate a list of material topics relevant to the Company.

Fuel Consumption

	Diesel, in L	Gasoline, in L
YE 2020	23,509	11,663
YE 2019	1,297,294	39,759

Over-all, the company has decreased its consumption of diesel mainly due to the temporary suspension of lottery operations due to the pandemic and the divestment from LCC.

Electricity Consumption By Region

in kWh	Luzon	Visayas	Mindanao	Total
YE 2020	97,995	442,589	3,834	544,418

Total volume of hazardous wastes (old terminals, e-wastes) hauled by DENR-accredited hauler/charitable institutions

	Total, in kgs
YE 2020	3,458
YE 2019	9,977

Pacific Online regularly disposes its waste through DENR accredited facilities. Majority of its waste is from lottery terminals and peripherals. The table shows that there has been a marked decrease in the amount of waste generated by POSC, which is part of the company's efforts to actively lessen waste and to recycle items within the organization. Approx. 52% of waste was for plastic and metal casing and defective cables of equipment, while 48% was e-waste.

<u>OCCUPATIONAL HEALTH & SAFETY</u>	
403-1	<p>Occupational health and safety management system</p> <p>OCCUPATIONAL HEALTH AND SAFETY POLICY</p> <p>Statement of Policy</p> <p>Pacific Online Systems Corporation is committed to provide safe, healthy and environmentally friendly areas for all its employees. It promotes fair, safe and productive work practices in all its business aspects. Pacific Online Systems Corporation will at all times comply with all regulatory requirements of the Philippines, its customers and other external parties.</p> <p>Details of Policy</p> <p>At POSC, we intend:</p> <ul style="list-style-type: none"> To maintain safe and healthy working conditions; To provide and maintain safe office equipment; To prevent accidents and cases of work-related illnesses; To provide information, instruction and supervision for employees; To ensure all employees are competent to do their tasks and to give them adequate training; To consult our employees on matters affecting their health and safety; To provide adequate control of the health and safety risk arising from our work activities; To review and revise the policy as necessary regular intervals.

Structure and Functions of OSH Committee

Overall and final responsibility for health and safety is that of the General Services Department Head.

Ensuring that this policy is put into practice and this task is delegated to the Safety Officer.

To ensure health and safety standards are maintained / improved, the Department Heads shall ensure compliance in their respective departments/areas.

All employees have to:

- Cooperate with their Immediate Superior and Department Head on health and safety matters;
- Not interfere with anything provided to safeguard their health and safety;
- Take reasonable care of their own health and safety;
- Report all health and safety concerns to Immediate Superior or Safety Officer.

403-2

Hazard identification, risk assessment, and incident investigation

A Risk Assessment is conducted by the Company to ensure business continuity in times of certain negative events. This is categorized by People, Process, Systems and Places. Threats and Vulnerabilities are measured and offset with controls in place to arrive at an acceptable level of risk. A Risk Treatment Plan is updated monthly to address unacceptable risks to ensure risk reduction.

Incidents are screened for information security breaches and documented in an Incident Report and/or Information Security Incident Report. Non-conformities are issued Corrective Action Requests and are followed up by the auditor until a correction and corrective action is deemed acceptable. Regular audits are conducted to ensure that such incidents are not repeated.

This year, risks were updated to reflect possible effects of the COVID-19 pandemic on the Company's operations.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
Pacific Online Systems Corporation

Report on the Audit of the Financial Statements

Opinion

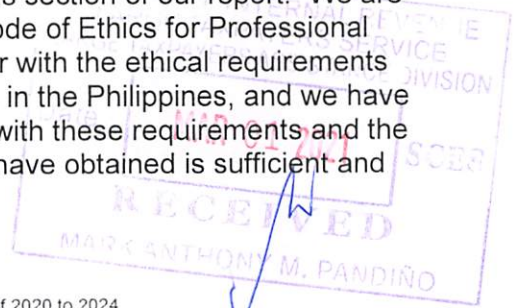

We have audited the separate financial statements of Pacific Online Systems Corporation (the "Company"), which comprise the separate statements of financial position as at December 31, 2020 and 2019, and the separate statements of income, separate statements of comprehensive income, separate statements of changes in equity and separate statements of cash flows for the years then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying separate financial statements present fairly, in all material respects, the unconsolidated financial position of the Company as at December 31, 2020 and 2019, and its unconsolidated financial performance and its unconsolidated cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Firm Regulatory Registration & Accreditation:
PRC-BOA Registration No. 0003, valid until November 21, 2023
SEC Accreditation No. 0003-SEC, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by SEC Accreditation No. 0004-FR-5)
IC Accreditation No. 0003-IC, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by IC Circular Letter (CL) No. 2019-39, Transition clause)
BSP Accreditation No. 0003-BSP, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by BSP Monetary Board Resolution No. 2161, Transition clause)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue

Our audit was conducted for the purpose of forming an opinion on the basic separate financial statements taken as a whole. The supplementary information in Note 24 to the separate financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic separate financial statements. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in our audit of the basic separate financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic separate financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditors' report is Enrico E. Baluyut.

PACIFIC ONLINE SYSTEMS CORPORATION
NOTES TO THE SEPARATE FINANCIAL STATEMENTS

1. Reporting Entity

Pacific Online Systems Corporation (the "Company") was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on November 16, 1993. The Company is a public company under Section 17.2 of the Revised Securities Regulation Code and its shares are listed on the Philippine Stock Exchange, Inc. (PSE). The Company is engaged in the development, design and management of online computer systems, terminals and software for the gaming industry. The Company can also engage in any lawful arrangement for sharing profits, union of interest, unitization or formal agreement, reciprocal concession, or cooperation, with any corporation, association, partnership, syndicate, entity, person on governmental, municipal or public authority, domestic or foreign. The Company's registered office address is at 28th Floor, East Tower, Philippine Stock Exchange (PSE) Centre, Exchange Road, Ortigas Centre, Pasig City.

The Company is a 50.1% owned subsidiary of Premium Leisure Corporation (PLC), whose parent company is Belle Corporation (Belle). Belle and PLC are corporations with shares listed on the PSE.

2. Agreements with Philippine Charity Sweepstakes Office (PCSO)

PCSO is the principal government agency for raising and providing funds for health programs, medical assistance and services, and charities of national character. It generates funds for its programs by holding and conducting charity sweepstakes, races and lotteries.

Equipment Lease Agreement (ELA)

The ELA was originally awarded to the Company on November 25, 1995, whereby PCSO leases online lottery equipment from the Company for PCSO's VisMin online lotto operations. This was amended on February 13, 2004, wherein the Company was allowed to continue deployment of online lotto terminals in VisMin for a period of eight (8) years from date of its commercial operation, which was defined to be operation of not less than 800 lotto terminals. With the Company's commercial operation effected on April 1, 2005, its amended ELA was due to expire on March 31, 2013. In addition to the lotto terminals, this lease includes the central computer system, communications and draw equipment, and the right to use the application software and manuals for the central computer of PCSO's VisMin online lottery system.

2012 Amended ELA. On May 22, 2012, the ELA was amended to include the lease of lotto terminals in some of PCSO's lottery operations in Luzon which resulted in the reduction of the fees. The amendment also include supplying betting slips and ticket paper rolls to PCSO, incorporating maintenance and repair services as part of the fees, and giving the Company an option to purchase the lotto equipment in VisMin for P15.0 million at the end of the lease term.

2013 Supplemental ELA. On March 26, 2013, the ELA was further amended to extend the term from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment, the Company agreed to reduce the fees for VisMin and shoulder the cost of betting slips and ticket paper rolls for Luzon and VisMin.

2015 Supplemental ELA. On July 15, 2015, the ELA was again amended to extend the term from August 1, 2015 to July 31, 2018. The amendment also required the Company to deposit an additional P5.0 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

2018 Supplemental ELA. On September 12, 2018, the ELA was amended to extend the term from August 1, 2018 to July 31, 2019. The amendment required the Company to post an additional deposit of P7.0 million cash bond. The total cash bond of P12.0 million is included under "Other noncurrent assets" in the statements of financial position (Note 9).

2019 Supplemental ELA. On August 1, 2019, the ELA was amended to extend the term from August 1, 2019 to July 31, 2020. The said extension was intended for PCSO to complete the bidding process for the Philippine Lottery System (PLS) under Republic Act No. 9184, as amended, until a new lottery system is fully realized and to ensure unhampered and uninterrupted operations of the online lottery and to avoid the loss of funds to PCSO.

On July 27, 2019, the President of the Philippines, suspended the sale of PCSO games - lotto, keno, instant scratch tickets, and small-town lottery (STL). The suspension was eventually lifted on July 31, 2019 for lotto, August 23, 2019 for STL and September 27, 2019 for keno and scratch tickets.

2020 Supplemental ELA. On September 9, 2020, the term of the ELA was extended on a month-to-month basis effective August 1, 2020 but not to exceed one (1) year, commensurate to the necessity and immediacy to complete the bidding process of the new PCSO lottery system. The Company undertakes not to pull-out the lottery terminals until after the 7th month after the expiration of the ELA.

The PCSO announced that a bidding for its customized PCSO Lottery System, also known as the "2021 PLS PROJECT", will be conducted during the early part of 2021. The Company has expressed its readiness to participate in the said bidding, as it had joined the PCSO bidding exercises held in 2019. The Company's ELA with PCSO is currently on an annual basis because of the failed bidding in 2019. This means that the Company will have to continue to operate under the current ELA terms beyond July 2021; i.e., when PCSO is able to hold its bidding, award the new ELA contract and undertake a transition from the current lottery system to the new system. The Company is well positioned to be a front runner in the said bidding due to its credentials and track record. But should POSC not win the bid, the Company will continue to operate given that the Company's contract with PCSO for the extension until July 31, 2021 has a provision for POSC to undertake not to pull out the lottery equipment for another seven (7) months from date of expiration.

The fees, presented as "Equipment rental" in the separate statements of comprehensive income, are based on a percentage of gross sales generated by lotto terminals or a fixed annual rental of P35,000 per terminal in commercial operation, whichever is higher. The number of installed lotto terminals totaled 3,370 and 3,785 as at December 31, 2020 and 2019, respectively. The Company's equipment rental revenue amounted to P245.9 million and P427.9 million in 2020 and 2019, respectively. The related receivables from PCSO, included under "Trade and other receivables" account in the separate statements of financial position, amounted to P43.3 million and P42.7 million as at December 31, 2020 and 2019, respectively (Note 8).

On March 17, 2020 up to July 31, 2020, PCSO games were suspended in light of the declaration by the National Government of a public health emergency and the declaration of a national state of calamity due to the COVID-19 pandemic (Note 23). The lotto jackpot games resumed on August 7, 2020, while the 2D and 3D lotto games followed on August 24, 2020. The 4D and 6D lotto games resumed on January 7 and 8, 2021, respectively.

Instant Scratch Tickets. On March 25, 2009, the Company entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of scratch tickets effective December 1, 2009 until December 1, 2016. The share of PCSO is guaranteed for 500 million tickets to be sold over a period of seven years from the date of the MOA's effectivity.

The MOA requires a cash bond amounting to P10.0 million to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, subject to review by PCSO for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. The interest accrues to the Company and is credited to a separate bank account. In 2018, the Company received a certification from PCSO for the release of such bond.

On March 31, 2015 the Company entered into an Outsourcing Memorandum of Agreement (OMOA) with Powerball Gaming and Entertainment Corporation (PGEC) authorizing PGEC as the exclusive marketing, distribution, selling and collecting agent of the Company throughout the Philippines. The agreement took effect on April 1, 2015 and shall remain effective as long as the MOA with PCSO or any extension thereof shall be effective.

PGEC agreed to assume the Company's commitment to PCSO to solely shoulder the project cost for the Instant Scratch Ticket program, which consists of the costs of production, distribution, warehousing, software and hardware maintenance, advertising, marketing, selling and other related expenses. PGEC is entitled to all the revenues, sums and proceeds from the Instant Scratch Tickets beginning April 1, 2015 and shall be obligated to shoulder the pay-outs for all winnings from said tickets sold beginning April 1, 2015. An existing consultancy agreement between the Company and PGEC for the scratch ticket operations was immediately terminated upon execution of the OMOA in 2015.

The MOA with PCSO expired on November 30, 2016 and the Company's OMOA with PGEC also expired accordingly. All tickets distributed to the retailers and agents, shall be allowed to be marketed continuously until fully sold and the corresponding winnings thereof shall be honored and paid even after the period of the MOA with PCSO.

In 2018, the Company received a certification from the OIC-Manager of Accounting and Budget Department (ADB) of PCSO stating the fulfillment of the Company's obligation under the MOA and thereby clearing the Company of any accountability thereunder. ADB certified that the Company is entitled to the release of the P10.0 million cash bond. In 2018, the cash bond is presented as "Cash bond" under "Other Current Assets" account (Note 9).

In January 2018, the Company entered into a Brand and Trademark License Agreement with Powerball Marketing & Logistics Corp. (PMLC) granting the latter a non-assignable, non-transferable and exclusive right to use of the Company's instant scratch tickets' Brand and Trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with term of the PMLC's agreement with PCSO for the supply and distribution of its instant scratch tickets. The consideration is a guaranteed fixed monthly fee. PMLC is not restricted to develop its own brand.

3. Basis of Preparation

Statement of Compliance

The separate financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Financial Reporting Standards Council (FRSC), consist of PFRSs, Philippine Accounting Standards (PASs), and Philippine Interpretations.

The Company also prepared and issued consolidated financial statements for the same period as the separate financial statements that comply with PFRSs. These may be obtained at the Company's registered office address (Note 1).

The accompanying separate financial statements were approved and authorized for issuance by the Board of Directors (BOD) on February 26, 2021.

Basis of Measurement

The separate financial statements have been prepared on a historical cost basis, except for the following items which are measured on an alternative basis on each reporting date.

- marketable securities and investments in stocks which are measured at fair value, and
- defined benefits liability which is measured as the net total of the fair value of the plan assets and the present value of the defined benefit obligation.

Functional and Presentation Currency

The separate financial statements are presented in Philippine peso (P or Php), which is the Company's functional currency. All amounts have been rounded off to the nearest peso, unless otherwise indicated.

4. Significant Accounting Policies

The accounting policies set out below have been applied consistently to all years presented in these separate financial statements and have been applied consistently, except for the changes in accounting policies as explained below.

Adoption of Revised Standards, Amendments to Standards and Interpretations

The Company has adopted the following revised standards starting January 1, 2020 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption did not have any significant impact on the Company's separate financial statements.

- *Amendments to References to Conceptual Framework in PFRS Standards* sets out amendments to PFRS Standards, their accompanying documents and PFRS practice statements to reflect the issuance of the revised Conceptual Framework for Financial Reporting in 2018 (2018 Conceptual Framework). The 2018 Conceptual Framework includes:
 - a new chapter on measurement;
 - guidance on reporting financial performance;
 - improved definitions of an asset and a liability, and guidance supporting these definitions; and
 - clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.

Some Standards, their accompanying documents and PFRS practice statements contain references to, or quotations from, the International Accounting Standards Committee (IASB)'s Framework for the Preparation and Presentation of Financial Statements adopted by the International Accounting Standards Board (IASB) in 2001 or the Conceptual Framework for Financial Reporting issued in 2010. The amendments update some of those references and quotations so that they refer to the 2018 Conceptual Framework, and makes other amendments to clarify which version of the Conceptual Framework is referred to in particular documents.

Definition of Material (Amendments to PAS 1 Presentation of Financial Statements and PAS 8 Accounting Policies, Changes in Accounting Estimates and Errors). The amendments refine the definition of material. The amended definition of material states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify the definition of material and its application by:

- (a) raising the threshold at which information becomes material by replacing the term 'could influence' with 'could reasonably be expected to influence';
- (b) including the concept of 'obscuring information' alongside the concept of 'omitting' and 'misstating' information in the definition;
- (c) clarifying the explanatory paragraphs accompanying the definition; and
- (d) aligning the wording of the definition of material across PFRS Standards and other publications.

- (e) The amendments are expected to help entities make better materiality judgements without substantively changing existing requirements.

Standard Issued but Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after January 1, 2020. However, the Company has not adopted the following new or amended standards in preparing these separate financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's separate financial statements.

Effective June 1, 2020

- ***COVID-19-Related Rent Concessions (Amendment to PFRS 16 Leases)***. The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient apply if:
 - the revised consideration is substantially the same or less than the original consideration;
 - the reduction in lease payments relates to payments due on or before June 30, 2021; and
 - no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

Effective January 1, 2022

- ***Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16 Property, Plant and Equipment)***. The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2 *Inventories*.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of a company's ordinary activities, the amendments require the Company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statements of comprehensive income. This disclosure is not required if such proceeds and cost are presented separately in the statements of comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

Financial Instruments

Date of Recognition. The Company recognizes a financial asset or a financial liability in the separate statements of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition is done using settlement date accounting.

Initial Recognition of Financial Instruments. Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated as at fair value through profit or loss (FVPL), includes transaction costs.

Subsequent to initial recognition, the Company classifies its financial assets in the following categories: financial assets at FVPL, financial assets at fair value through other comprehensive income (FVOCI) and financial assets at amortized cost. The classification of financial assets depends on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

The Company classifies its financial liabilities as either financial liabilities at amortized cost or financial liabilities at FVPL. The Company classifies all financial liabilities at amortized cost, except for:

- (a) financial liabilities designated by the Company at initial recognition as at fair value through profit or loss, when doing so results in more relevant information.
- (b) financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies.
- (c) contingent consideration recognized by the Company in a business combination which shall subsequently be measured at fair value with changes recognized in profit or loss.
- (d) financial guarantee contracts and commitments to provide a loan at a below-market interest rate which are initially measured at fair value and subsequently at the higher of amortized amount and amount of loss allowance.

Management determines the classification of its financial assets and financial liabilities at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

Determination of Fair Value. The fair value of financial instruments traded in active markets at reporting date is based on their quoted market price or dealer price quotations, without any deduction for transaction costs. When current bid and ask prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been any significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, option pricing models, and other relevant valuation models.

All assets and liabilities for which fair value is measured or disclosed in the separate financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data.

For assets and liabilities that are recognized in the separate financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For purposes of the fair value disclosure, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

'Day 1' Profit. Where the transaction price in a non-active market is different from the fair value of the other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a 'Day 1' profit) in profit or loss unless it qualifies for recognition as some other type of asset. In cases where use is made of data which are not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the 'Day 1' profit amount.

Financial Assets

Financial Assets at FVPL. The Company measures a financial asset at FVPL unless it is measured at amortized cost or at FVOCI. At initial recognition, the Company may choose to irrevocably designate a financial asset as measured at FVPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

Financial assets at FVPL are carried in the separate statements of financial position at fair value with gains or losses recognized in profit or loss. Interest earned is recorded in interest income while dividend income is recorded in other income when the right to receive payment has been established. The Company determines the cost of investments sold using specific identification method.

The Company's investments in equity securities included under "Marketable securities" are classified under this category (Note 7).

Financial Assets at FVOCI. The Company designates an equity instrument as a financial asset at FVOCI if the equity securities represent investments that the Company intends to hold for a long term for strategic purposes.

At initial recognition, the Company irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis.

Subsequent to initial recognition, financial assets at FVOCI are measured at fair value and changes therein are recognized in other comprehensive income and presented in the "Fair value reserve" in equity which can be transferred to retained earnings when earned. Dividends earned on holding FVOCI equity securities are recognized as "Dividend income" in profit or loss when the right to receive payment has been established. Gains and losses on equity financial assets at FVOCI are not reclassified to profit or loss and no impairment is recognized in profit or loss.

The Company's investments in equity securities included under "financial assets at FVOCI" account are classified under this category (Note 11).

Financial Assets at Amortized Cost. The Company measures a financial asset at amortized cost if it is not designated as at FVPL and both of the following conditions are met:

- (a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are carried at amortized cost using the effective interest method less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are integral part of the effective interest rate. The periodic amortization is included as part of "Interest income" in the separate statements of income. Gains and losses are recognized in profit or loss when the financial assets at amortized cost are derecognized or impaired, as well as through the amortization process. Financial assets at amortized cost are included in current assets if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent assets.

The financial assets at amortized cost include cash in banks and cash equivalents, trade and other receivables and guarantee bonds.

Cash and cash equivalents include cash on hand and in banks which are stated at face value. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition and are subject to an insignificant risk of changes in value.

Business Model Assessment

The Company makes an assessment of the objectives of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reason for such sales and its expectation about future sales activity.

Financial assets that are held for trading or managed and whose performance is evaluated in a fair value basis are measured at FVPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether Contractual Cash Flows are Solely Payments of Principal and Interest

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Company considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Company's claim to cash flows for specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money - e.g. periodical reset of interest rates.

Reclassification of Financial Assets and Liabilities

Financial Assets. When, and only when, the Company changes its business model for managing financial assets, it shall reclassify all affected financial assets. Such changes are determined by the Company's senior management as a result of external or internal changes and must be significant to the entity's operations and demonstrable to external parties.

A change in the Company's business model will occur only when the Company either begins or ceases to perform an activity that is significant to its operations; for example, when the entity has acquired, disposed of or terminated a business line.

Financial Liabilities. The Company shall not reclassify any financial liability.

Financial Liabilities at Amortized Cost. This category pertains to financial liabilities that are not held for trading or designated as at FVPL upon inception of the liability. These include liabilities arising from operations or borrowings. The financial liabilities are recognized initially at fair value and are subsequently carried at amortized cost, taking into account the impact of applying the effective interest rate method of amortization for any related premium, discount and any directly attributable transaction costs. These financial liabilities are included in current liabilities if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent liabilities.

This category includes the Company's trade and other current liabilities and loan payable.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset expired;
- the Company retains the rights to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either: (a) has transferred substantially all the risks and rewards of the assets; or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Impairment of Financial Assets

The Company uses the expected credit losses model ("ECL") which is applied to all equity instruments measured at amortized cost or FVOCI as well as to issued loan commitments and most financial guarantee contracts. The ECL is a 'three stage' approach which is based on the change in credit quality of financial assets since initial recognition. Assets move through the three stages as credit quality changes and the stages dictate how an entity measures impairment losses. Stage 1 includes financial instruments that have not had a significant increase in credit risk since initial recognition or which have low credit risk at the reporting date. For these items, 12-month ECL are recognized. The 12-months ECL are the expected credit losses that result from default events that are possible within 12 months after the reporting date. Stage 2 includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but are not credit impaired. For these items, lifetime expected credit losses are recognized which is the weighted average credit losses with the probability of default as the weight. Stage 3 includes financial assets that are credit impaired at the reporting date. For these items, lifetime expected credit losses are recognized. No impairment loss is recognized on equity investments.

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience, credit assessment and including forward-looking information.

The information analyzed by the Company includes the following, among others:

- actual and expected significant changes in the political, regulatory and technological environment of the debtor or in its business activities;
- payment record - this includes overdue status as well as a range of variables about payment ratios; and
- existing and forecast changes in the business, financial and economic conditions.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligation to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the debtor is past due more than 90 days on any material credit obligation to the Company.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

Trade and other receivables are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, the financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The carrying amount of the asset is reduced through use of an allowance account. The impairment loss for the period shall be recognized in the separate statements of income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the separate statements of income, to the extent that the carrying amount of the asset does not exceed its amortized cost at the reversal date.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Spare Parts and Supplies

Spare parts and supplies are valued at the lower of cost and net realizable value. Cost includes all costs attributable to acquisition and is determined using the first-in, first-out method for spare parts and supplies. Net realizable value is the current replacement cost for spare parts and supplies. The carrying amount of spare parts and supplies is reviewed at each reporting date to reflect the accurate valuation in the separate financial statements. Spare parts and supplies identified to be obsolete and unusual are written off and charged as expense for the period.

Investments in Subsidiaries

The Company's investments in subsidiaries are accounted for under the cost method as provided for under PAS 27, *Separate Financial Statements*. The investments are carried in the separate statements of financial position at cost less any impairment in value. The Company recognizes dividend from a subsidiary in profit or loss when its right to receive the dividend is established.

A subsidiary is an entity controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or none of the three elements of control.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company and their accounting policies conform to those used by the Company for like transactions and events in similar circumstances.

Property and Equipment

Property and equipment are stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and any impairment in value. Such cost includes the cost of replacing part of such property and equipment when that cost is incurred if the recognition criteria are met. Equipment under installation are stated at cost, which includes purchase price and other direct costs. Such assets are not depreciated until such time when the relevant property and equipment are available for its intended use.

When major repairs and maintenance are performed, its cost is recognized in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied.

Depreciation is computed using the straight-line method over the following estimated useful lives:

	Number of Years
Lottery equipment	4 - 10 or term of the lease, whichever period is shorter
Leasehold improvements	4 or term of the lease, whichever period is shorter
Office equipment, furniture and fixtures	4
Transportation equipment	4 - 5

The assets' residual values, useful lives and depreciation method are reviewed and adjusted if appropriate, at each reporting date, to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged to current operations. An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Impairment of Nonfinancial Assets

The Company assesses at each reporting date whether there is an indication that nonfinancial assets such as property and equipment, investments and advances in subsidiaries and right-of-use assets may be impaired. If any such indication exists and when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's cash-generating unit's fair value less costs to sell or its value-in-use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses are recognized in profit or loss in the expense category consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company makes an estimate of the asset's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase.

Intangible Assets

Development cost is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequently to initial recognition, an internally generated intangible asset is measured at cost less accumulated amortization and any accumulated impairment losses.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and generally recognized in profit or loss. The estimated useful life is 2 - 3 years. Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and those risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Capital Stock

Common stock is classified as equity. Incremental costs directly attributable to the issuance of common shares are recognized as deduction from equity, net of any tax effects.

Treasury Stock

When capital stock recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognized as a deduction from equity. Repurchased shares are classified as treasury stock. When the treasury stock is sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus is recognized as additional paid-in capital (APIC), while the resulting deficit is applied against the APIC arising from the issuance of treasury stock. Any remaining deficit is applied against retained earnings.

Stock Dividend Distributable

Common stock dividend distributable is classified as equity. This account represents stock dividend declared by the BOD but not yet distributed to Company's stockholders.

Fair Value Reserve

Fair value reserve represents the cumulative change in the fair value of financial assets at FVOCI until they are derecognized. Movements in the reserve are set out in the separate statements of changes in equity.

Retained Earnings

Retained earnings include profit/loss attributable to the Company's stockholders and reduced by dividends. Dividends are recognized as a liability and deducted from equity when they are declared. Interim dividends are deducted from equity when they are paid. Retained earnings are appropriated for the cost of treasury stock acquired. When the appropriation is no longer needed, it is reversed. Dividends for the year that are approved after the reporting date are dealt with as an event after the reporting date. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Revenue/Income

Revenue from Contracts with Customers. The Company recognizes revenue/income when it transfers control over a good or service. Revenue/income is measured at the transaction price which the entity expects to be entitled in exchange for a good or service. Information about the nature and timing of the satisfaction of performance obligations, significant payment terms and recognition policies follow.

Equipment Rental. Revenue is recognized based on a percentage of gross sales of the lessee's online lottery operations, as computed by the lessee in accordance with the agreement, or a fixed annual rental per terminal in commercial operation, whichever is higher. Minimum lease payment from the fixed annual rental is recognized on a straight-line basis and any excess of the percentage of gross sales is contingent rent recognized in the period earned.

License Fee Income. Income is recognized at the point in time at which the license transfers to the customer and when the customer is able to use and benefit from the license. The license fee is measured at the transaction price, adjusted for the effects of a significant financing component to an amount that reflects the cash selling price when the license transferred to the customer.

Interest. Income is recognized as the interest accrues, taking into account the effective yield on the asset.

Dividends. Income is recognized when the Company's right to receive payment is established.

Other Income. Income is recognized when earned.

Costs and Expenses

Costs and expenses are recognized when incurred and are reported in the separate financial statements in the periods to which they relate.

Expenses are also recognized in the separate statements of income when a decrease in future economic benefits related to a decrease in an asset or an increase in a liability that can be measured reliably has arisen. Expenses are recognized in the separate statements of income on the basis of a direct association between costs incurred and the earnings of specific items of income; on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can only be broadly or indirectly determined; or immediately when an expenditure produces no future economic benefits or when, and to the extent that future economic benefits do not qualify or cease to qualify, for recognition in the separate statements of financial position as an asset.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liabilities comprise the following:

- fixed payments including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term Leases and Leases of Low-value Assets

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Company applies PFRS 15 to allocate the consideration in the contract.

Short-term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present, legal or constructive obligation to pay this amount as a result of past service provided by the employees and the obligation can be estimated reliably.

Retirement Cost

The Company has a noncontributory defined benefits retirement plan covering substantially all of its qualified employees.

The Company's defined benefit obligation is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit obligation or asset, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Company determines the net interest expense or income on the net defined benefit obligation or asset for the period by applying the discount rate used to measure the defined benefit obligation or asset at the beginning of the annual period to the net defined benefit obligation or asset, taking into account any changes in the net defined benefit obligation or asset during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed, or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit retirement plan when the settlement occurs.

Actuarial valuations are made with sufficient regularity so that the amounts recognized in the separate financial statements do not differ materially from the amounts that would be determined at reporting date.

Foreign Currency Transactions

Transactions denominated in foreign currency are recorded in Philippine peso by applying to the foreign currency amount the exchange rate between the Philippine peso and the foreign currency at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are restated using the closing exchange rate at reporting date. All exchange rate differences including those arising from translation or settlement of monetary items at rates different from those at which they were initially recorded are recognized in the separate statements of income in the year such differences arise.

Taxes

Current Tax. Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carry forward benefits of unused tax losses - Net Operating Loss Carry Over (NOLCO) and Minimum Corporate Income Tax (MCIT), to the extent that it is probable that future taxable profit will be available against which deductible temporary differences can be utilized except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretation of tax laws and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT except:

- Where the VAT incurred on the purchase of an asset or service is not recoverable from the tax authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of VAT included.

Related Parties

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities which are under common control with the reporting enterprise, or between and/or among the reporting enterprise and its key management personnel, directors, or its stockholders. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Contingencies

Contingent liabilities are not recognized in the separate financial statements. They are disclosed in the notes to the separate financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the separate financial statements but disclosed in the notes to the separate financial statements when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Company's unconsolidated financial position at the reporting date (adjusting events) are reflected in the separate financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the separate financial statements when material.

5. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's separate financial statements in accordance with PFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses reported in the separate financial statements at the reporting date. However, uncertainty about these judgments, assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions are recognized in the period in which the judgments and estimates are revised and in any future period affected.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the separate financial statements:

Evaluating Revenue Recognition, Contract Term and Existence of Significant Financing Component

Revenue Recognition

Management determined that the Company's licensing of its distinct brands and trademarks provides a right to use intellectual property as it exists at the point in time at which the license is granted because there is no implicit or implied obligation to undertake activities during the license period.

Contract Term

Management determined that the license granted provides the licensee a valuable right because it enables to tap into the existing instant scratch ticket customers that patronize the Company's distinct brand and trademarks. The existence of such valuable right is considered a substantive penalty for the licensee to terminate the license agreement given that it is costly to rebrand and also to develop and market new instant scratch ticket designs/variants.

Significant Financing Component

Management determined that a significant financing component exists for the license agreement because the license period is long term and the fixed consideration is payable over a period time. The financing component is recognized as interest income when the licensee pays in arrears.

Estimates and Assumptions

The key estimates and assumptions used in the separate financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the separate financial statements. Actual results could differ from such estimates.

Allowance for Impairment Losses on Trade and Other Receivables. The Company maintains allowance for impairment losses on trade and other receivables at a level considered adequate to provide for potential uncollectible receivables. The level of this allowance is evaluated by the management on the basis of factors that affect the collectability of the accounts. These factors include, but not limited to, the age and status of receivable, the length of relationship with the customers, the customer's payment behavior and known market factors. The Company reviews the allowance on a continuous basis.

The Company uses the expected credit losses model in estimating the level of allowance which includes forecasts of future events and conditions. A credit loss is the difference between the cash flows that are due in accordance with the contract and the cash flows that expected to be received discounted at the original effective interest rate. The model represents a probability-weighted estimate of the difference over the remaining life of the receivables. The maturity of the Company's receivables is less than one year so the lifetime expected credit losses and the 12-month expected credit losses is similar. In addition, management assessed the credit risk of the receivables as at the reporting date as low, therefore the Company did not have to assess whether a significant increase in credit risk has occurred.

Allowance for impairment losses on trade and other receivables as at December 31, 2020 amounted to P139.7 million. Trade and other receivables - net amounted to P60.5 million and P85.4 million as at December 31, 2020 and 2019, respectively (Note 8).

Estimated Useful Lives of Property and Equipment and Intangible Asset. The useful life of each of the Company's property and equipment is estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any property and equipment and intangible asset with definite useful life would increase the recorded operating expenses and decrease noncurrent assets. There were no changes in estimated useful lives in 2020 and 2019.

The carrying amount of property and equipment as at December 31, 2020 and 2019 amounted to P77.5 million and P60.8 million, respectively (Note 12).

Impairment of Non-financial Assets. PFRSs require that an impairment review be performed on property and equipment and investments and advances in subsidiaries when certain impairment indicators are present. Determining the net recoverable value of property and equipment and investments in subsidiaries requires the estimation of future cash flows expected to be generated from the continued use and ultimate disposition of such assets. While it is believed that the assumptions used in the estimation of fair values reflected in the separate financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and resulting in impairment loss.

Management assessed that there were no impairment indicators affecting the Company's property and equipment as at December 31, 2020 and 2019. Allowance for impairment loss on investment in subsidiaries amounted to P58.0 million and nil in 2020 and 2019, respectively.

The aggregate carrying amounts of property and equipment and investments and advances in subsidiaries amounted to P190.4 million and P461.1 million as at December 31, 2020 and 2019, respectively (Notes 10 and 12). Allowance for impairment losses amounted to P80.9 million and P26.1 million as at December 31, 2020 and 2019, respectively (Note 10).

Retirement Cost. The present value of the defined benefit obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost for retirement include the discount rates and rate of future salary increase.

The Company determines the appropriate discount rate at the end of each year. This is the interest rate that is used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligation. In determining the appropriate discount rate, the Company considers the interest rates on government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related retirement liability. Other key assumptions for retirement liability are based in part on current market conditions.

While it is believed that the Company's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Company's retirement liability. The present value of defined benefit obligation amounted to P88.3 million and P81.8 million as at December 31, 2020 and 2019, respectively (Note 21).

Estimating the Transaction Price of Income from Brands and Trademark License Agreement

The Company adjusts the promised amount of consideration for the time value of money to estimate the transaction price in a contract. In making the assessment, the Company considers the following factors:

- combined effect of the expected length of time of the contract;
- payment terms of the contract; and
- prevailing interest rate in the relevant market.

The discount rate used in determining the financing component of the income from the Company's license agreement is 6.7%. This represents the risk-free interest rate for the payment period plus estimated credit spread. The financing component deducted from the license fee income amounted to P36.5 million in 2018. The accreted interest income amounted to P5.6 million and P8.6 million as at December 31, 2020 and 2019, respectively (Note 20).

Realizability Deferred Tax Assets. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow part of the deferred tax assets to be utilized. Management expects future operations will generate sufficient taxable income that will allow all or part of the deferred tax assets to be utilized.

Deferred tax assets amounted to P78.8 million and P22.6 million as at December 31, 2020 and 2019, respectively (Note 4 and 18).

Determining whether the Company is Acting as Principal or an Agent

The Company assesses its revenue arrangements using the following processes to determine whether it is acting as a principal or an agent:

- identify the specified goods or services to be provided to the customer (which for example, could be a right to a good or service to be provided by another party); and
- assess whether it controls each specified good or service before that good or service is transferred to the customer.

The Company has determined that it is acting as an agent in its commission and distribution income arrangements.

Contingencies. The Company currently has no legal and administrative claims in process and only a tax assessment, costs of which have been accrued for and will not have a material adverse effect on its statements of financial position and statements of financial income and comprehensive income.

TMA Australia Pty. Ltd. And TMA Group Philippines, Inc. v. Pacific Online. (RTC 66, Pasig City-Civil Case No. R-PSG-17-02130 [321-108])

- This refers to a complaint for Tortious Interference and payment of Damages filed by TMA Australia Pty. Ltd. and TMA Philippines (the "TMA Group") against Pacific Online in August 2017. The TMA Group alleged that Pacific Online wrongfully interfered with the implementation of the Contractual Joint Venture Agreement (CJVA) between the TMA Group and PCSO when it entered into several equipment lease agreements with the latter that included a supply of paper provision. The TMA Group also applied for a writ of preliminary injunction (WPI) against Pacific Online and prayed for damages in the amount of at least One Million Pesos (P1,000,000.00).

On 21 March 2018, the RTC granted the TMA Group's application for WPI, enjoining Pacific Online from continuing to deliver lotto paper to PCSO. During the pendency of this case, the Supreme Court issued a decision in *Philippine Charity Sweepstakes Office v. TMA Group of Companies* (G.R. Nos. 212143, 225457, and 236888, 28 August 2019), stating that the WPI issued by RTC Makati against PCSO directing it to source its paper from TMA was improperly issued, and that the CJVA - the same CJVA in this case before RTC Pasig - could not have been a valid source of rights against PCSO. TMA filed a Motion for Reconsideration, but this was denied by the Supreme Court in a Resolution dated 04 March 2020. Pacific Online then filed a Manifestation and a Supplemental Manifestation asking for the dismissal of the tortious interference case by the TMA Group.

On February 8, 2021, the court dismissed the case against Pacific Online.

Measurement of Fair Values. A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Chief Finance Officer (CFO) has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values. The CFO regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the CFO assesses the evidence obtained to support the conclusion that such valuations meet the requirements of PFRSs, including the level in the fair value hierarchy in which such valuations should be classified.

The Company uses market observable data when measuring the fair value of an asset or liability. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques (Note 4).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The methods and assumptions used to estimate fair values for financial assets and liabilities are discussed in Note 22.

The total fair value of financial assets amounted to P585.2 million and P733.5 million as at December 31, 2020 and 2019, respectively, while the fair value of financial liabilities amounted to P108.4 million and P226.9 million as at December 31, 2020 and 2019, respectively (Note 22).

6. Cash and Cash Equivalents

This account consists of:

Cash in banks and cash equivalents earn interest at the respective bank deposit rates. Interest income from cash in banks amounted to P0.2 million and P0.4 million in 2020 and 2019, respectively.

7. Marketable Securities

This account consists mainly of investments in quoted shares of stock of Leisure and Resorts World Corporation, Vantage Corporation and APC Company.

The movements in marketable securities are as follows:

	2020	2019
Balance at beginning of year	P90,456,581	P104,704,892

Less allowance for impairment losses		139,677,614	-
		P60,482,565	P85,445,382

Accounts receivable is generally on a 30-to-45-day credit terms. The risks associated on this account are disclosed in Note 22.

Nontrade receivables pertain to reclassified amounts from advances to subsidiaries of the Company to LCC Group. The management assessed that there may be delayed payments from LCC Group due to the impact of COVID 19 pandemic to its operations and since the balances pertain to long outstanding advances, the management assessed that provision is necessary.

Due to the suspension of PCSO games on July 27, 2019 for 2 months and on March 17, 2020 for 4.5 months (Note 2), PMLC was not able to supply and distribute instant scratch tickets to its customers. The management expects delay on the payment for those months, thus, the management assessed that the accrued license fee income equivalent to those months with no operations may not be recoverable.

Allowance recognized in 2020 pertains to nontrade receivables and accrued license fee.

The recoverable amount of investment in TGTI as at December 31, 2020 was determined based on a five (5)-year discounted cash flow forecast using actual past results and observable market data such as growth rates, operating margins, among others.

Growth rates and operating margins used to estimate future performance are equally based on past performance and experience of growth rates and operating margins achievable in the relevant industry. The expected cash flows are discounted by applying a suitable weighted average cost of capital (WACC). The discounted rate applied to pretax cashflow projections is 14% as at December 31, 2020.

Consultancy, software and license fees, and management fees payable relate to the following agreements:

a. Scientific Games Inc.

On February 15, 2005, the Company entered into a contract with Scientific Games Inc. (SGI), a company incorporated under the laws of the Republic of Ireland, for the supply of computer hardware and operating system software. Under the terms of the "Contract for the Supply of the Visayas-Mindanao Online Lottery System," SGI will provide 900 online lottery terminals and terminal software necessary for the Company's leasing operations.

In consideration, the Company shall pay SGI a pre-agreed percentage of revenue generated by the terminals from PCSO's conduct of online lottery operations using the computer hardware and operating system provided by SGI. The contract shall continue as long as the Company's ELA with PCSO is in effect.

On October 2, 2012, the Company and SGI amended the contract to extend the period from April 1, 2013 until August 31, 2015 and provide for the supply of additional terminals (Note 2).

On November 20, 2015, the Company and SGI further amended the contract to extend the period from September 1, 2015 until July 31, 2018 and provide for the to supply for 1,500 brand new terminals to the Company. The amendment also removed the provision for the Inactive Terminal Fee of US\$25.00 per terminal per month for any additional terminals not connected to the software provided by SGI.

In August 2018, the contract with SGI was further amended to extend the period until July 31, 2019.

On September 4, 2019, the contract with Scientific Games was further amended to extend the period until July 31, 2020.

Software and license fees amounted to P11.5 million and P22.0 million in 2020 and 2019 respectively (Note 17).

b. Intralot

On March 13, 2006, the Company entered into a contract with Intralot (Intralot Greece), a company incorporated under the laws of Greece, for the supply of online lottery system necessary for the operation of a new online lottery system effective December 8, 2006. Under the terms of the "Contract for the Supply of the Visayas-Mindanao Online Lottery System," Intralot will provide the Company the hardware, operating system software and terminals and the required training. In consideration, the Company shall pay Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO's conduct of online lottery games or a fixed amount of US\$110 per terminal per month, whichever is higher. The contract shall continue as long as the Company's ELA with PCSO is in effect.

On July 10, 2006, Intralot entered into an agreement with Intralot Inc. (Intralot USA), a subsidiary domiciled in Atlanta, Georgia, USA, wherein Intralot Greece assigned to Intralot USA the whole of its contract with the Company, including all its rights and obligations arising from it.

On August 16, 2012, the Company and Intralot further amended the contract for the latter to supply reconditioned or refurbished lotto terminals to the former.

The Company has the option to order from Intralot brand new lotto terminals at a higher price per unit.

On September 6, 2013, the Company and Intralot further amended the contract for the supply of additional terminals to enable the Company to expand its online lottery operations. In addition, effective April 1, 2013, the Company and Intralot agreed to lower the percentage of revenues paid by the former to the latter.

In April 2016, the Company and Intralot again amended the contract for the latter to supply additional reconditioned or refurbished lotto terminals to the former and extend the term of the contract until August 31, 2018.

On September 25, 2018, the contract with Intralot was further amended to extend the period thru July 31, 2019.

On July 1, 2019, the contract with Intralot was further amended to extend the period until July 31, 2020.

Software and license fees amounted to P16.9 million and P71.6 million in 2020 and 2019, respectively (Note 17).

RR No. 25-2020 provides that the business or enterprise which incurred net operating loss for taxable years 2020 and 2021 shall be allowed to carry over the same as a deduction from its gross income for the next five (5) consecutive taxable years immediately following the year of such loss.

The Bicameral Committee had settled the disagreeing provisions of House Bill No. 4157 and Senate Bill No. 1357 of Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

Among the reforms, the following are the significant provisions:

- Adoption of graduated regular corporate income tax (RCIT) rate effective 01 July 2020 based on total assets of domestic corporations as follows:
 - domestic corporations with total assets of Php100 million and below
 - with taxable income of Php5 million and below - 20% RCIT
 - with taxable income of more than Php5 million - 25% RCIT
 - domestic corporations with total assets of more than Php100 million - 25% RCIT
- Adoption of 25% RCIT for resident foreign corporations effective 01 July 2020
- Adoption of 25% tax rate for nonresident foreign corporations effective 01 July 2020
- Reduction of minimum corporate income tax (MCIT) from 2% to 1% for a period of three years (effective 01 July 2020 until 30 June 2023)

- Existing enterprises under income tax holiday (ITH) shall be allowed to continue availing the ITH until the remaining period ends. Existing enterprises enjoying the 5% tax based on gross income shall be allowed to continue to enjoy the 5% tax for a period of 10 years, regardless of number of years it has been enjoying the 5% tax rate. After the expiration of the transitory period, they have the option to avail of the tax incentives under CREATE.

This approval of CREATE Act in the Bicameral Committee is an important step towards its enactment into law. This has been endorsed for the President's signature.

Others	3,068,880	1,522,906
	P7,809,144	(P26,893,913)

On September 1, 2005, the Commissioner of the Bureau of Internal Revenue (BIR) has signed Revenue Regulation (RR) No. 16-2005, which took effect on November 1, 2005. The RR, among others, introduces the following changes:

- The government or any of its political subdivisions, instrumentalities or agencies, including government-owned or controlled corporations (GOCCs) shall, before making payment on account of each purchase of goods and/or of services taxed at 12% VAT pursuant to Sections 106 and 108 of the Tax Code, deduct and withhold a final VAT due at the rate of 5% of the gross payment thereof.
- The 5% final VAT withholding rate shall represent the net VAT payable of the seller. The remaining 7% effectively accounts for the standard input VAT for sales of goods or services to government or any of its political subdivisions, instrumentalities or agencies including GOCCs, in lieu of the actual input VAT. Should actual input VAT exceed 7% of gross payments, the excess may form part of the seller's expense or cost. On the other hand, if actual input VAT is less than 7% of gross payment, the difference must be closed to income.

Others consist of mainly miscellaneous income.

21. Retirement Plan

The Company has a funded, noncontributory defined benefits plan covering substantially all of its regular employees. Annual cost is determined using the projected unit credit method. The Company's latest actuarial valuation date is December 31, 2020. Valuations are obtained on a periodic basis.

The Retirement Plan (Plan) of the Company provides a retirement benefit equal to one-half month salary for every year of credited service.

The Plan meets the minimum retirement benefit specified under Republic Act 7641.

The retirement plan of the Company is administered by a trustee bank under the supervision of a Retirement Plan Trustee (Trustee), as appointed by the Company in the Trust Agreement. The Trustee is responsible for the investment strategy of the retirement plan.

During 2019, the Company amended their plan asset to include the death and disability benefits which resulted to the recognition of past service cost.

All debt instruments and unit investment trust funds have quoted prices in active markets.

The Company expects to contribute P10.0 million to its defined benefit plan in 2021.

The principal assumptions used in determining the defined benefit liability and related expense of the Company are shown below:

	2020	2019
Discount rate	3.95%	5.25%
Future salary increase	8.00%	8.00%

Assumptions for mortality rates are based on the 2001 CSO Table - Generational (Scale AA, Society of Actuaries). Assumptions for disability rates are based on The Disability Study, Period 2 Benefit 5 (Society of Actuaries).

As at December 31, 2020, the weighted average duration of the defined benefit liability of the Company is 13.9 years.

Maturity analysis of total benefit payments of the Company:

Period	Amount
2021	P14,627,349
2022	1,054,002
2023	2,586,083
2024	-
2025	4,009,672
2026-2030	19,827,551

As at December 31, 2020, the reasonably possible changes to one of the relevant actuarial assumptions holding other assumptions constant, would have affected the defined benefit liability by the amounts below:

	1 Percent Increase	1 Percent Decrease
Discount rate	(P10,960,943)	P13,495,169
Future salary increase rate	12,804,539	(10,678,362)

The defined benefit plan exposes the Company to actuarial risks, such as longevity risk, interest rate risk, and market risk.

Asset-liability Matching (ALM)

The Company does not perform any ALM study. The overall investment policy and strategy of the retirement plan is based on the Company's suitability assessment, as provided by its trust bank in compliance with the Bangko Sentral ng Pilipinas (BSP) requirements.

22. Financial Instruments

Financial Risk Management Objectives and Policies

The Company's principal financial instruments are composed of cash in banks, marketable securities, trade and other receivables, financial assets at FVOCI, refundable deposits, guarantee bonds, trade and other current liabilities and lease liabilities. The main purpose of these financial instruments is to raise financing for the Company's capital expenditures and operations. The Company has various other financial assets and liabilities such as trade and other receivables, refundable deposits, guarantee bond and trade and other current liabilities, which arise directly from its operations. The main risks arising from the Company's financial instruments are credit risk, equity price risk, liquidity risk and foreign currency risk. The Company's BOD and management review and agree on the policies for managing each of these risks as summarized below:

Credit Risk

The Company's receivables arise mainly from the ELA with PCSO and the license agreement. Since the Company has significant concentration of credit risk on its receivable from PCSO and the license agreement, it is the Company's policy that all credit terms specified are complied with and payment terms are observed. With respect to other receivables, the Company manages credit risk by transacting only with recognized and credit worthy third parties. It is the Company's policy that the BOD approves the major transactions with third parties. Receivable balances are monitored on an ongoing basis with the objective that the Company's exposure to bad debts is not significant.

With respect to credit risk arising from the other financial assets of the Company, which are composed of cash in banks and cash equivalents, trade and other receivables, marketable securities, guarantee bonds, refundable deposits and investments in stocks, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The table below shows the maximum exposure to credit risk for the Company's financial assets, as at December 31, 2020 and 2019, without taking into account any collateral and other credit enhancements:

Grade A pertains to cash in banks and guarantee bonds that are deposited in reputable banks, investments with reputable publicly listed companies and receivables from PCSO which are consistently collected before the maturity date. Grade B pertains to receivables that are collected on their due dates even without an effort from the Company to follow them up. Grade C pertains to receivables which are collected on their due dates provided that the Company made a persistent effort to collect them.

Estimating ECL

The table below presents the Company's exposure to credit risk and shows the credit quality of the financial assets as at December 31, 2019 by indicating whether the financial assets are subjected to 12-month ECL or lifetime ECL. Assets that are credit-impaired are separately presented.

The Company computes impairment loss on trade and other receivables based on past collection experiences, current circumstances and the impact of future economic conditions, if any, available at the reporting period. Loss rates are based on actual credit loss experience. Any adjustments to the loss rates for forecasts of future economic conditions are not expected to be material. The Company applies the simplified approach in providing for ECL prescribed by PFRS 9, which permits the use of the lifetime expected loss provision and applies a provision matrix.

Cash in banks and cash equivalents are considered of good quality as these pertain to deposits in a reputable bank.

Impairment on cash has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash has low credit risk based on the external credit ratings of the counter parties.

Receivables and refundable deposits are considered of good quality since these are transacted with counterparties with high external credit ratings. The credit quality of these financial assets is considered to be high grade.

Marketable securities and investments in stocks are considered good quality since these are invested in companies listed in the PSE.

Equity Price Risk

Equity price risk is the risk that the fair value of equity investments decreases as a result of changes in the value of individual shares of stock. The Company's exposure to equity price risk relates primarily to the Company's quoted marketable securities and AFS financial assets. The Company monitors the equity investments based on market expectations. Significant investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the BOD.

The following table demonstrates the sensitivity to a reasonably possible change in equity price, with all other variables held constant, of the Company's income before income tax and other comprehensive income.

Liquidity Risk

Liquidity risk is the risk that the Company will be unable to meet its payment obligations when they fall due under normal and stress circumstances. To limit this risk, the Company closely monitors its cash flows and ensures that credit facilities are available to meet its obligations as and when they fall due. The Company also has a committed line of credit that it can access to meet liquidity needs.

The Company maintains sufficient cash to finance its operations. Any excess cash is invested in short-term money market placements and equity securities. These are maintained to meet the requirements for additional capital expenditures, maturing obligations and cash dividends.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

	2020				Total
	Less than 3 Months	3-6 Months	6-12 Months	More than 12 Months

Foreign Currency Risk

The Company has transactional currency exposures. Such exposure arises from payables to certain suppliers which are denominated in United States (U.S.) dollar (US\$). The Company's financial instruments which are denominated in foreign currency include cash in banks and consultancy and software and license fees payable. The Company maintains a U.S. dollar account to match its foreign currency requirements.

As at December 31, 2020 and 2019, assets and liabilities denominated in US\$ include cash in banks amounting to P12.1 million (US\$0.25 million) and to P51.7 million (US\$1.02 million) respectively; trade payables amounting to P6.0 million and nil, respectively; and software and license fees payable amounting to P37.0 million (US\$0.77 million) and P13.0 million (US\$0.03 million) respectively.

In translating foreign currency-denominated monetary assets and liabilities into Php amounts, the exchange rates used were P48.00 and P50.64 to US\$1, the Php to US\$ exchange rates, as at December 31, 2020 and 2019, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the Php to US\$ exchange rates, with all other variables held constant, of the Company's income before tax. There is no other impact on the Company's equity other than those already affecting profit or loss.

Increase (Decrease) in US\$ Exchange Rate	Effect on Income before Income Tax	Effect on Equity
2020		
5%	(P1,247,535)	(P873,275)
(5%)	1,247,535	873,275
2019		
5%	1,935,043	1,354,530
(5%)	(1,935,043)	(1,354,530)

The increase in US\$ rate means stronger US\$ against Php while the decrease in US\$ means stronger Php against the US\$.

Capital Management

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern, so that it can provide returns to shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders, reacquire its own shares, or issue new shares. The Company monitors capital on the basis of current ratio and debt-to-equity ratio. The Company's strategy, which was unchanged from prior year, was to maintain current ratio and debt-to-equity ratio at manageable levels.

There were no changes in the Company's approach to capital management during the year.

As at December 31, 2020 and 2019, the Company is compliant with the minimum public float requirement by the PSE.

The Company defines capital as capital stock, additional paid-in capital, treasury stock, stock dividend distributable and retained earnings. Other components of equity are excluded from capital for purposes of capital management.

The Company's current ratio, calculated as total current assets over total current liabilities, and debt-to-equity ratio, calculated as total liabilities over equity, as at December 31, 2020 and 2019 are as follows:

Current Ratio

	2020	2019
Current assets	P353,670,028	P381,156,228

***Inclusive of noncurrent portion.

The carrying amounts of cash in banks, trade and other receivables (excluding accrued license fee income) and trade and other current liabilities approximate their fair values due to their short-term nature.

The carrying amount of accrued license fee income is based on present value using a discount rate that approximates the prevailing market rate.

The fair values of marketable securities and investments in stocks are based on quoted market prices.

The carrying amounts of guarantee bonds, refundable deposits, installment payable and lease liabilities approximate its fair values since the Company does not anticipate that the effect of discounting using the prevailing market rate is significant.

During the year, there were no transfers between Levels in 2020 and 2019.

23. Impacts of COVID-19

On March 8, 2020, under Proclamation 922, the Office of the President has declared a state of public health emergency and subsequently on March 16, 2020, under Proclamation 929, a state of calamity throughout the Philippines due to the spread of the COVID-19. To manage the spread of the disease, the entire Luzon has been placed under an Enhanced Community Quarantine (ECQ), effective from March 17, 2020 until April 12, 2020, which involved several measures including travel restrictions, home quarantine and temporary suspension or regulation of business operations, among others, limiting activities related to the provision of essential goods and services. The ECQ was further extended until May 15, 2020. On May 12, 2020, the President has approved the proposal of the Inter-Agency Task Force for the Management of Emerging Infectious Disease (IATF-EID) to place Metro Manila, Laguna Province, and Cebu City under Modified ECQ until May 31, 2020. On May 29, 2020, the President approved the IATF Resolution No. 41 changing the MECQ status of Metro Manila to General Community Quarantine (GCQ) effective June 1, 2020 to June 15, 2020. The GCQ was further extended until February 28, 2021.

The Company's operation was suspended from March 17, 2020 to July 31, 2020 (4.5 months) due to the announcement of PCSO on March 17, 2020, as per Proclamation No. 922 and RA 11332, to suspend their gaming activities effective 12:00 noon to comply with the National Government's several measures to manage the spread of COVID-19. Despite the impact on the revenue on lotto due to the temporary closure of outlets, the management noted an increase in the equipment rental revenues in the last quarter of the reporting period, thus, management foresees that its business will be back as usual in the first quarter of 2021 and the Company would be able to catch-up for its lost revenue during the first half of 2021.

Despite or amidst this event, the separate financial statements have been prepared on a going concern basis of accounting as of reporting date since the Company implemented all measures to mitigate the risks on their business operations and has sufficient liquidity to continue operating through the pandemic and for the foreseeable future.
