

## INTERNAL AUDIT CHARTER

### PURPOSE

This charter establishes the authority and responsibility conferred by the Board of Directors of Pacific Online Systems Corporation (POSC or the Company or the Corporation) on the internal audit function, so that Internal Audit Group may adequately perform its role and mission. This charter also defines the position of the internal audit function in the organization so that it may be accorded a healthy level of independence to effectively carry out its duties and responsibilities.

### MISSION AND SCOPE OF WORK

The mission of the internal audit is to provide independent, objective assurance and consulting services designed to add value and improve the Company's operations. It helps the Corporation accomplish its objectives by bringing in a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and the governance process.

The scope of work of the internal audit function is to determine whether the Company's network of risk management, control and governance processes, as designed and represented by management, is adequate and functioning in a manner to ensure that:

- Risks are appropriately identified and managed promptly;
- Interaction with various governance groups (i.e. BOD, Management, different Unit Heads and staff and external auditors) are set as needed;
- Significant financial managerial and operating information are adequate, applicable and communicated in a timely manner to appropriate staff;
- Resources are required economically, used efficiently, and protected adequately;
- Projects, plans and objectives are achieved, with sufficient explanation of variances;
- Quality and continuous improvement are fostered in the Company's processes; and
- Significant legislative or regulatory issues that affect the Company are recognized and addressed appropriately.

Opportunities for improving management controls in relation to the operational, financial and governance aspects of the business may be identified during audits. These matters shall be communicated to the appropriate level of management and to the Board of Directors through the Audit Committee.

## ACCOUNTABILITY
