### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

#### Results of Operations for the Period Ended September 30, 2023 vs. September 30, 2022

##### Revenues

Pacific Online Systems Corporation (the "Company") consolidated with its subsidiaries (the "Group"), earned total revenues of P502.4 million for the nine months ended September 30, 2023. Revenues increased by P144.30 million (40%) from revenues of the same period in 2022 amounting to P358.1 million mainly because of the increase in Lotto sales driven by the more open economy in 2023, the high jackpot prizes for the Lotto games, and the increase in the number of selling terminals for the period, especially in Luzon. In addition to this, the Company was also able to recognize and collect rent deficiency claims from its KENO operations.

##### Cost and expenses

Costs and expenses increased by P33.1 million (13%) to P284.0 million for the period ended September 2023 from P251.0 million for the same period in 2022 due to higher variable costs such as software license fees, operating supplies and travel and accommodation, which increased with the improvement in revenues. On the other hand, fixed costs such as back office expenses continue to decline due to the continuing effect of the cost efficiency measures implemented at back office levels which aimed to rationalize manpower, telecommunications, rental and utilities. Depreciation expenses are also significantly lower for the current period.

##### Operating income

(ILTS) has started nationwide operations in providing lottery equipment to PCSO.

On August 30, 2023, Pacific Online signed a Memorandum of Agreement (MOA) PCSO in connection with the latter's implementation of a One (1)-Year Trial Run for a Web-Based Application Betting Platform (WABP). Through the WABP, the PCSO aims to develop and promote more marketable, adaptable, resilient, and trendy betting platforms, considering the evolution of the gaming market and the advancements in technology. The MOA will cover a trial period for the WABP for one (1) year, subject to renewal, during which Pacific Online will be acting as PCSO's exclusive agent.

High grade financial assets pertain to receivables from clients or customers who have no history of delayed payment while medium grade includes receivables from clients or customers who have history of delayed payment but is currently updated.

Cash in banks are deposited with the top ten banks in the Philippines; hence, considered high grade.

Quoted marketable securities and financial assets at FVOCI are assessed as high grade based on financial status of the counterparty and its current stock price performance in the market.

**Equity Price Risk.** Equity price risk is the risk that the fair value of quoted marketable securities and financial assets at FVOCI in listed equities decreases as a result of changes in the value of individual stock. The Group's exposure to equity price risk relates primarily to the Group's marketable securities. The Group monitors the equity investments based on market expectations. Significant movements within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the BOD.

The following table demonstrates the sensitivity to a reasonably possible change in equity price, with all other variables held constant, of the Group's 2023 and 2022 consolidated total comprehensive income before income tax:

Increase (Decrease) in Equity Price	Sep. 30, 2023	Dec. 31, 2022

(8%)	(17,499,435)	(14,331,434)

**Liquidity Risk.** Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Group seeks to manage its liquidity profile to be able to finance its capital expenditures and service its maturing debts. The Group's objective is to maintain a balance between continuity of funding and flexibility through valuation of projected and actual cash flow information. The Group considers obtaining borrowings as the need arises.

The table also analyzes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

**Foreign Currency Risk.** Foreign currency risk is the risk that the fair value or future cash flows of financial asset or financial liability will fluctuate due to changes in foreign exchange rates.

As at September 30, 2023 and December 31, 2022, foreign currency-denominated financial asset and financial liability in US dollars, translated into Philippine peso at the closing rate:

	Sep. 30, 2023		Dec. 31, 2022	
	USD	Peso Equivalent	USD	Peso Equivalent
Cash and cash equivalents	\$33,870	P1,917,199	\$1,962,285	P109,097,145
Software license fee payable*	(680,191)	(38,502,235)	(838,192)	(46,600,971)
Net foreign currency-denominated assets (liabilities)	(\$646,322)	(P36,585,036)	\$1,124,093	P62,496,174

\*Presented under "Trade payables and other current liabilities" account.

In translating the foreign currency-denominated financial liabilities into peso amounts, the exchange rate used was P56.61 to US\$1.0 and P55.60 to US\$1.0, as at September 30, 2023 and December 31, 2022, respectively.

It is the Group's policy to ensure that capabilities exist for active but conservative management of its foreign currency risk. The Group seeks to mitigate its transactional currency exposure by maintaining its costs at consistently low levels, regardless of any upward or downward movement in the foreign currency exchange rate.

The following table demonstrates the sensitivity to a reasonably possible change in the U.S. dollar exchange rates, with all other variables held constant, of the Group's consolidated income before tax as at September 30, 2023 and December 31, 2022. There is no other impact on the Group's equity other than those already affecting the profit or loss in the consolidated statement of comprehensive income.

	Sep. 30, 2023		Dec. 31, 2022	
	Increase in US\$ Rate	Decrease in US\$ Rate	Increase in US\$ Rate	Decrease in US\$ Rate
Change in US\$ rate*	5%	(5%)	5%	(5%)
Effect on income before income tax	(P1,829,252)	P1,829,252	P10,756,670	(P10,756,670)

The increase in US\$ rate means stronger US dollar against peso while the decrease in US\$ means stronger peso against the US dollar.

### **Capital Management**

The primary objective of the Group's capital management is to safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. There were no changes made in the objectives, policies or processes in 2023 and 2022.

The Group considers the following as its capital:

The Group has no financial liabilities measured at fair value as at September 30, 2023 and December 31, 2022. There were no transfers between fair value measurements as at September 30, 2023 and December 31, 2022.

The following methods and assumptions are used to estimate the fair value of each class of financial assets and financial liabilities:

*Cash, Trade and Other Receivables, Trade and Other Current Liabilities (excluding Statutory Payables).* The carrying values of these financial instruments approximate their fair values due to the relatively short-term maturities of these financial assets and financial liabilities.

*Financial Assets at FVPL and Financial Assets at FVOCI.* The fair values of Financial Assets at FVPL and financial assets at FVOCI in quoted equity shares are based on quoted prices in the PSE or those shares whose prices are readily available from brokers or other regulatory agency as at reporting date. There are no quoted market prices for the unlisted shares and there are no other reliable sources of their fair values, therefore, these are carried at cost, net of any impairment loss.

*Loan Payable and Lease Liabilities.* The fair values are based on the discounted value of expected future cash flows using the applicable interest rate for similar types of instruments. Discount rate used for loan payable is 5.78% in 2022 and 5.25% to 6.50% for lease liabilities in 2023 and 2022.
